The hop market in the past two days has become very antivo, but without advance its prices. There seems to be snough seliers at the current quotations to check any tendency of the market to rise.

The heaviest buries has been done by McNeff Breat, who secured the following lots of Yakimas: Daverin 225 bules; Stowart, 275 bules; Herkte, 150 bules; Desmarrais, 456 belos; Tigard, 155 bules; McKart, 75 bules; Tallet, 25 bules, also the Wairs let of 118 bules of Western Washingtons. These were bought at 21 to 25 cents.

Highog & Danoles bought believe doe and Bishop & Dantels hought between 606 and

Sen, at prices around 25 cents.

Klaber, Weif & Notter bought 41 hales from F. F. Hayes, of Eugene, at 32 cents and H. L. Hart secured two or three lots in the same section at 32 to 32 cents. The

Over hair of the Oregon crop has passed out of first hands. It is estimated by dealers that about 35,000 hales were con-tracted for and the sales since picking be-gen have been about 5000 hales. Figuring the crop at 70,000 to 75,000 hales of hope would leave 30,000 to 35,000 hales of hope

TURKISH SHIPMENTS ALREADY MADE

War Not Likely to Affect the Dried Fruit-Trade.
In discussing the effect of the war on the dried fruit trade the New York Journal

of Commerce save:

"Some apprehension was felt by a portion of the dried fruit trade bandling Turkish of the dried fruit trade handling Turkish products when notice of the announcement of a declaration of war by light in Turkey was received here. It was feared that shipments of current seasons crops, especially figs, would be interested with but competent authorities assected that there was little danger of an interruption of fig supplies from Turkey being experienced, for the reason that the bulk of the shipments coming to this country have already left Turkish to this country have already left Turkish pures. Duluth Flax Market.

NEW YORK. Oct. 4.—Further irregularity prevailed today in the stock market, which falled to develop a definite trend. Within the first few minuse the market fell off materially and during the market fell fell below yesterday's final quotations. United States Steel sold off nearly two points and steel sold off nearly two points as much. In the afternoon the market slowly recovered, only to fall back toward the close.

The pressure against St. Paul was continued and this stock fell below 104 for the first time since 1304. The recent acute wakness of this issue, which has given rise to conjectures as to the stability of the divident rate, was partially explained by the appearance of the August report of the road. It showed a decrease of more than \$100,000 in gross receipts and \$455,000 in the net. The Puget Sound reports a small strinkage in operating income.

A few issues developed pronounced strength. Western Union made the most conspictous gain and it was reported that the stock soon would be placed on a few result dividend basis. Canadian Pacific responded to brisk buying, which was said to be far foreign account. Atchisen, Northern Pacific and New York Central were firm. Further reduction of prices of various steel products emphasized the unsettled conditions in that industry. Prices of some products, however, reached the low point of the last decade. Statistics of pig iron production in Reptember, which were received boday, made a favorable showing, the rate of daily pruduction having increased from st. life tons in August to \$5.900 last month.

Suppension of cattle freight rates in the Wast, the hitterness of the struggle in the railway strike on the Harriman lines and opposition to the recognization plant for the American Tabacco Company probably were factors in the slow market was irregular, and flu

MERCHANTS TO TAKE ACTION TO HALT MEETINGS.

Entrance to Stores in Retail District Blocked So Shoppers Cannot Gain Admittance Ofttimes.

Street speakers in the crowded business sections of the city will be bidden to betake themselves and their crowof listeners into the less frequented parts of the city, if a campaign that the Retail Merchants' Association is

the Recall aserchants Association is to inaugurate proves successful. Members of the executive committee, who attended the luncheon at the Commercial Club yesterday, said that in several cases the crowds that collected about sirret speakers in the re-tail district blocked the entrances of the stores until it was impossible for the storekeepers to carry on business while their meetings were in session while their meetings were in session.

The plan is to work for the passage of an ordinance forbidding open-air speakers to take up their stands on any of the corners in the more crowded parts of the retail business district.

W. R. McDonald, who has served as an agent for several of the large retail stores in the past detecting and an agent for several of the large retain stores in the past, detecting and ar-resting shop-lifters and "bad check artists," has been secured to give his service to the association. Steps also will be taken to have the laws of the will be taken to have the laws of the city and state changed so as to have a more severe penalty imposed for shop-lifting. Members of the association intend to wage an unrelenting war against this form of petty larceny that amounts to thousands of dollars in losses each year.

A campaign to increase the membership of the association to 500 has been inaugurated and a special agent will be employed to visit the retail merchants of Portland and influence them to ally themselves with the organiza-

DAM WILL NOT BE BUILT

Northwestern Electric Company Unable to Purchase Site.

HUSUM, Wash., Oct. 4.—(Special.)— After three attempts to condemn the property of H. M. Thompson on the White Salmon River three miles south of here, the Northwestern Electric Company has given up the hope of get-ting the property through the courts, and now declares its intention to give up the project of building a high dam on the White Salmon River at the "Narrows" It was shown that the Fleischhacker interests, of San Francisco, were attempting to monopolize the waterpowers of the White Salmon, Klickitat and Lewis Rivers, and to hold them for speculative purposes

This was shown when the North western Electric Company in purchas-ing a power site of R. H. Chubb, eight miles north of here, flatly refused to purchase the site until the provision that they begin development work in three years' time was stricken from the
