

SHIFTING OF JAIL UPTOWN BROACHED

Burgard Suggests Central Fire Station Be Removed to Second and Oak.

COMMITTEE TO CONSIDER

Property Near Bastille Offered for Various Places—Rose City Park Fire Station Favored—More Powerful Mains Wanted.

Councilman Burgard suggested at a meeting of the Council ways and means committee yesterday afternoon that the central fire station might be moved from Fourth street, between Morrison and Yamhill, to Second and Oak streets, and the new City Jail built on the present site of the fire station. A joint meeting of the police committee of the Executive Board, fire committee, ways and means committee and chiefs of fire and police departments will be called to consider the question. The bonds for the new jail site have not yet been sold, but bids have been invited to be received up to November 1.

The property of "Lucky Jack" Peterson, on Second street, between the police and fire stations, was offered to the ways and means committee yesterday for \$15,000, as a portion of the new jail site. J. W. Travers appeared before the committee and said he held an option on the property and had been negotiating for a 99-year lease on it, but that he would offer it to the city for \$15,000. It occupies 25 by 96 feet. Travers did not make a formal bid, only one being received as a result of the city's advertisement. This bid was from Dr. C. W. Cornelius, who offered to deed the city a quarter block on the northeast corner of Fourth and Ankeny for \$12,000, the site occupying 75 by 96 feet. He accompanied his bid with a certified check for \$250, according to custom. Councilman Travers thought it would be best to keep the fall on the present site if it is possible to obtain Peterson's property at a nominal figure.

Stronger Mains Wanted.

The business district of Portland will have high-pressure mains for fire protection within six blocks of the river if the recommendation of the ways and means committee carries sufficient weight with the City Council. At its meeting yesterday afternoon the committee decided to recommend to the Council the passage of an ordinance authorizing the issuance of \$150,000 worth of bonds for the laying of these mains.

Rose City Park may have a new fire station. The ways and means committee decided yesterday to recommend to the Council that lots 1 and 2, block 77, in Rose City Park Addition, be purchased for \$11,000.

The committee also decided to give suburbanites electric arc lights to the amount of \$4600. It was shown that this amount is in the lighting fund above the amount needed to pay present bills until the end of the year. The Executive Board requested an appropriation to pay for installing lights requested.

Insurance Data Withheld.

The committee refused to recommend that Deputy Fire Marshal Roberts be compelled to give the Mutual Fire Insurance Company information it desired. Although Roberts is a city officer, it was shown that he was an inspector for the bureau of San Francisco insurance companies before he was appointed a deputy fire marshal, and that he still holds the position of Councilman Burgard said Deputy Roberts' position with the insurance companies has no connection with his official position with the city.

LANDLORD NOT GUILTY

Court Holds One Overt Act Not Enough to Convict.

On the ground that one overt act did not constitute a continuing nuisance, John Obermeier, proprietor of the Rex rooming-house, at 84 1/2 Washington street, was discharged on a charge of conducting a disorderly house, by Acting Municipal Judge Cohen yesterday. The case occupied most of the afternoon in the Municipal Court, and a number of lively little pleas were heard between Charles J. Schnabel, appearing for the defendant, and Deputy City Attorney Sullivan.

DAYS OFF IN BALANCE

Chief of Favor Plan if More Policemen Are Provided.

Acting Chief of Police Slover is not wholly in favor of the passage of the proposed ordinance granting policemen two days off every month, unless provision is also made for more men, as he says it will seriously hamper the efficiency of the department to cut down the force. He has provided in his estimate for 1912 for 75 additional patrolmen at \$80 a month each.

WILL OPEN EVENINGS

Friedlander's New Jewelry Establishment of Intense Interest.

Owing to the great interest taken in the new Friedlander jewelry establishment in the Wilcox building, Mr. Friedlander has kindly consented to keep his store open every evening this week to give all an opportunity to inspect his magnificent quarters.

The efficiency of the department seriously in meeting the demands of the public for protection, inasmuch as I have but about 200 men to fill all branches of the service.

The police vacation question came up before the ways and means committee at its meeting yesterday afternoon, but no action was taken on it. Councilman Daily insisted that every man be entitled to one day off a week and said he does not believe the needs of society require any citizen to work seven days a week.

HOSPITAL LAW BURIED

CHIEF SLOVER ASKS COUNCIL TO MAKE PLACES REPORT.

Ordinance Requiring Institutions to Keep Record of All Persons Received Never Enforced.

Chief of Police Slover wrote a letter to the City Council yesterday asking for a copy of an ordinance approved July 17, requiring hospitals to report to the police department all accidents and poisoning cases and unidentified persons taken to the hospital, immediately after they are received. The ordinance was passed by the Council July 12, with an emergency clause, at the solicitation of the health and police departments, having previously been passed by the health and police committees. For some reason not made known the ordinance was forgotten and has not been enforced.

"It is a good ordinance," said Chief Slover, "and should be enforced. We often have inquiries at the police station for persons missing and it not infrequently happens that they have met with accidents and are in the hospital. There are often injury cases, as well as poisoning cases, that should be investigated by the police department and unidentified persons taken to hospitals should certainly be reported, that we may endeavor to find friends or relatives sought."

3 ST. JOHNS BOYS FLEE

Lads Run Away With Texas as Goal. Police Notified.

Ben Swan, Eliza Cowles and Arthur Horward, St. Johns boys, ran away from the police station in the morning with the avowed intention of going to Texas. It is believed, however, that their destination is either Independence or Kalamazoo, Michigan. The Portland police and the Sheriff's office have been asked to be on the lookout for the lads.

GROWTH SHOWN BY HOME

Salaried Teachers to Be Employed in Neighborhood House.

At the meeting yesterday of the Council of Jewish Women, delegates were elected to represent that body at the triennial convention of Jewish Women to be held in Philadelphia in December. The delegates are Mrs. S. M. Blumauer, and Mrs. Solomon Hirsch. A large part of yesterday's session was devoted to the Neighborhood House in South Portland, which was founded by the circle. This year a number of salaried teachers are to take the place of the volunteer workers, the growth of the institution demanding a large number of teachers. The new staff is made possible by the contributions of Men's Hebrew Benevolent Society.

October Toilet Goods

Following the business session there was a short program in charge of Mrs. S. J. Freedman. This included an address by Mrs. Julius Lippitt; a paper on current events by Joseph De Priest; and three songs by Miss Lola Price, accompanied by Mrs. Rose Bloch Bauer.

Our Beautiful 7th Floor Restaurant Is Famous for Its Cuisine and Service—Music

THE MEIER & FRANK CO., ESTABLISHED IN 1857.

The Practical and Attractive in Fall Coats

A Look Into The Future.

PORTLAND, as it will look in years to come, with the extensive plans of the Civic Improvement League put into effect, is shown in the wonderful set of 70 pictures now on exhibit in the lobby of our seventh floor restaurant.

NEVER such charming styles in Coats as shown this season. And they combine the practical as well. We've a wonderful array of distinctive models—plain notched, sailor, shawl and cape collars—deep and wide revers that add a picturesque note to the straight lines of some of the more extreme models.

Choose a Raincoat Now

from our splendid line of new Fall and Winter models. Not the ordinary-appearing Coats that are so unattractive, but made with a clever bit of style—neat rubberized materials and waterproof worsteds in practical browns, tans, blues, etc.; priced from \$10.00 to \$45.00.

Street and Afternoon Dresses

Women are delighted with chic and charm of the Street and Afternoon Dresses for Fall and Winter. Handsome woollens and rich silks, in all the light and dark shades. Plain tailored and dressier models—all cut on the straight, narrow, though graceful, lines that present fashions demand.
