

TRAIN ATTACKED BY FRENZIED MOB

Two Strike Outbreaks Occur During One Afternoon in New Orleans.

NONUNION MEN ARE BEATEN

Illinois Central's Attempt to Transfer Men Fails—Governor of Mississippi Suggests Arbitration to Chiefs.

NEW ORLEANS, Oct. 5.—The first violence experienced here in connection with the strike of the shopmen of the Harriman lines came this afternoon when strikebreakers, imported to work in the Southern Pacific shops, were attacked by a mob of 100 persons.

The train had just pulled into the yards. Several shots were fired from the coaches, but no one was struck. Several arrests were made on the train.

When the officers left the train with their prisoners, the mob attacked the latter with clubs. A reserve squad of police restored order. Half a dozen strikebreakers were severely beaten.

Another outbreak occurred this afternoon near the Illinois Central strikebreakers' quarters when the company attempted to transfer a coachload of men to the Stuyvesant-street yards. The coach was attacked by strikers and sympathizers. Car windows were broken but no one is believed to have been hurt.

Attempt is Abandoned. The attempt to transfer the men was abandoned. Arbitration as a means of settling the difficulties between the Illinois Central and its shop employees has been suggested by Governor Noel, of Mississippi, to President Markham of the road.

On application of attorneys for the Southern Pacific Railway Company a temporary injunction was issued in the United States Court today, restraining strikers and others from interfering in any manner with the affairs of the road. It is understood that Southern Pacific officials will apply for similar restraining orders in every Federal district traversed by the company's lines.

Injunction is Issued. Judge Burns, in the United States Circuit Court at Houston, Tex., today granted a temporary injunction against the officers and all members of the five federated crafts now on strike on the Harriman lines at Houston and Galveston. The injunction restrains the union men from interfering with the company's business.

A temporary order restraining about 15 persons in Denton, Tex., from going on property of the Missouri, Kansas & Texas Railroad of Texas, and from interfering with strikebreakers, was issued at Sherman, Tex., today by Judge R. L. Jones.

END OF STRIKE IS FORECAST. Los Angeles Shopmen Say Railroad Is in Bad Way.

LOS ANGELES, Oct. 5.—The strike will be over within 30 days, trains are being run, engines need repairs, and no competent men can be had to fill our places," was the statement issued by the strikers' publicity committee of the Harriman employees today.

Superintendent Platt, of the southern division of the system said conditions were satisfactory and that more men were working today than on any day since the strike was begun.

John J. Byrne, assistant passenger agent of the Santa Fe, who arrived here from Chicago today, declared the strike was called against the best judgment of the five international presidents, as they knew it meant disaster to unionism. Mr. Byrne particularly mentioned President Kline, of the blacksmiths, as being opposed to the strike.

Kline, he declared, said the strike was really called by under officials who usurped their superiors' authority while popular clamor was at its height.

ROSEBURG SITUATION IS QUIET. Railway Officials and Strikers Express Equal Confidence.

ROSEBURG, Or., Oct. 5.—(Special.)—The strike situation remains unchanged here today, says the statement of L. B. Fields, who says he notices a great improvement in the operation of trains. Governor Tener has reached here with several state officials to inspect the broken dam and the territory devastated by the flood of last Saturday.

"I shall not only recommend, but urge, the passage of legislation which will give the state control over such dams, not only those to be built but those already built."

Governor Beggs Tour. At a conference behind closed doors, in which the Governor and all the state officials here participated, Dr. Dixon, State Health Commissioner, submitted a report of what had been done and what was proposed to be done in the nature of rescue and relief work. The Governor signified his approval of the report.

At daylight Governor Tener, with several engineers and departmental heads began a tour of the flood district, stopping at the dam to inspect it. A stock of diamonds valued at \$10,000 was discovered today intact amid the ruins. They were the property of N. N. Johnson, an Austin jeweler.

A six-day clock was found half a mile below Austin, still running. The other clocks all stopped at 2:32 P. M., registering the time of the flood.

PANAMA MUST KEEP ORDER. United States Will Not Tolerate Condition of Civil War.

WASHINGTON, Oct. 5.—The State Department has been formally advised of the purpose of President Arosemena of Panama to take a vacation of six months and absent himself from the country in order to qualify for reelection.

The present inclination of the Department is to refrain from intervention in Panama, unless it becomes evident that the course outlined by President Arosemena is likely to involve the country in civil war. Such a condition would not be tolerated by the American Government.

The elections will take place next year.

ITALIANS OCCUPY FAST. (Continued From First Page.) order to expend her latent energies. Within 10 hours Tripoli will be transformed, he says.

Captain Craveri has been ordered to Tripoli to organize a force of carabinieri there.

Vice-Admiral Feravelli reports that the Tripoli batteries were so dismantled that the Turkish soldiers retired within the town, the interior of which was not attacked, in order to avoid damage to private property.

The army of occupation is conceded to be superior to the force actually necessary for the proposed operations, but the War Office has no intention of being caught napping and, moreover, the plan is to conquer the country rapidly and with imposing strength, which will require a great display of troops, for the triangle constituted by the Province of Tripoli is nearly four times the size of Italy, each side being almost 1000 miles long.
