Mr. Wills is not favorable to this pavement until it has been tested, and says that the property owners of Sell-wood must wait until the whole of Sell-wood has been provided with sewers before any general improvement of the streets can be undertaken. He opposes the organization of a local company to make the improvement, for company to make the improvement, for he says that such a company must compete with all the other companies and be financed the same as any other paving company.

Premier Pianist of Oregon Wins Artistic Triumph.

Mrs. Beatrice Dierke Heard in Clas-sical Recital.

W EARING a gown that was like an artist's dream of beauty, and also Paris lace cap with streamers, Mrs. Beatrice Dierke, Oregon's premier planist, gave the first recttal in which she has taken part for four years, in Christensen's ball, yesterday afternoon.

Christensen's ball, yesterday afternoon, and won a genuine artistic triumph. The audience was a large and highly appreciative one, representing many of Portland's professional musicians. Mrs. Dierke's musical offering yesterday was one of unusual significance and value. When she ceased her recent public recitals, Mrs. Dierke left among Portland concert-goers a fine memory of well built up musical ideals. After an interval of rest and foreign travel and study she emerges equipped in every way to resume her proper place on the concert platform. Her art has broadened, her sympathies despened, and her technique is more commanding than ever.

and her technique is more commanding than ever.

Mrs. Dierke's programme made vast demands on the planist's powers of interpretation and vizualization, but she met every demand on her skill. The Von Weber sonata, op 25, in A flat major, is very exacting and took 22 minutes to render, and Mrs. Dierke gave it a most satisfactory presentation. "Invitation to the Dence" was a number of sparkling beauty, and the excerpt from "Eugene Oneguine" was a special favorite. "Pres de la Mere" (Arensky) was a delightful contrast to the majesty and fire of the two last Wagner numbers. Mrs. Dierke was given several flattering and cordial recalls, but eral flattering and cordial recalls, but she only accepted one, her extra offer-ing being "Liebestod," from "Tristan and Isolds."

New planists may come and go, and Portland is friendly to all of them, but it is pleasant to know that Mrs. Dierke retains her place as an artist among the most cherished musical remem-

Mrs. D. C. Burns, President, Declares Maintenance Cost Nearly \$1000 Month and 55 Tots Are There for Attention.

Not a cent has been spent at the Baby's Home in street improvements, real estate or bonds, which was not real estate or bonds, which was not absolutely necessary, said Mrs. D. C. a new sterilizing room and additional help at the home.

"Besides this we have had to expend considerable money in street and sidewalk improvements, which came because the city ordered them and we had to pay our portion. Whatever real estate purchases have been made wer's for the accommodation of the growing home.

"The average number of babies at the home is 31 each month and we are doing everything possible to give them the best of attention and all the comforts at our command. If we had more money we could provide more comforts, but with the heavy running expenses and the street improvement money, we have been handicapped.

"The Governor commented on the condition of our cow stable. It is not an expensive one, but it is thoroughly sanitary. The health board makes regular inspections and has always reported conditions to be good as far as sanitation is concerned."

The directors of the home have called a meeting at 1:30 o'clock today at the Y. W. C. A., to which Governor West has been invited. 55 Babies Cared For Monthly.
