I am %5 years old and have suffered from weakness and nervousness for three months from a tumor on my face. At first I went to sceme doctors but they told me that it was impossible to cure, so upon the advice of my relatives, who had been cured by these Chiness doctors. I went to them After taking two weeks of their herbs and roots compounded and other medicines, the tumor was completely cured without the use of a knife. I feel so grateful toward them and I recommend anybody who is ill and wants to get well soon, to go to see or write to them and secure some medi-che which I am sure will bring results.
