

SUFFRAGE GAINS MAY MEAN VICTORY

California Country Districts Overcome Lead Shown in Earlier Reports.

WOMEN CONTINUE CONTEST

Political Equality League to Reorganize, if Election is Against Sex—Opponents Also to Be Early in Contest.

SAN FRANCISCO, Oct. 11.—(Special.)—Incomplete returns from 2337 precincts in the state, with 79 still to be heard from, give on the woman suffrage amendment 707, 107,729; against, 194,472; majority against the amendment, 193,715. With 2041 precincts heard from earlier tonight, the majority against was 3922. The gain for the amendment in the last 204 precincts received was 3826. If this ratio is maintained, suffrage has been carried by a comfortable majority.

Based on their plans on earlier reports that the cause was lost, so far as this election was concerned, the women of California began today their campaign for the future. The anti-suffragists were early on the ground, too, and both sides began setting into line for a greater battle, probably to be fought in 1912, although possibly not until 1914.

The date of the next election, which was to be brought about through the new initiative and referendum, will be determined until another election is definitely decided. A continuous stream of educational literature would be started immediately, and the mails flooded with leaflets, circulars, etc. Mrs. Edward A. Simons, president of the Political Equality League, will be in command of the suffrage forces.

The opponents of suffrage are taking steps to form a powerful National organization with headquarters in New York and which will concentrate its efforts in this state for the next year or two if the amendment is lost this time. The intention of perfecting of this body are expected tomorrow. Mrs. Spencer Smith will be the California president. Mrs. Smith financed the anti-suffrage campaign just concluded, paying for the newspaper advertisements, the press agent work and other heavy expenses, largely out of her own purse. Mrs. Dora Gilphant Cox, another woman who has been fighting suffrage, had planned to form an organization which is to have the backing of men. It is understood.

JUSTICE COURTS TANGLED

California Prisoners Must Remain in Jail, Pending Settlement.

SAN FRANCISCO, Oct. 11.—(Special.)—Because the passage of amendment No. 18, on the ballot, which practically abolishes Justice Courts, leaving to the Legislature to provide a substitute, the hearing of felony cases in the Police and Justice Courts of the city and Oakland is suspended this morning, pending a decision as to the effect of the amendment.

It appears to be the consensus of legal opinion that the amendment destroys the power of the inferior courts to take testimony in felony cases. The District Attorney's office has been asked for an opinion. Until it is received, the prisoners affected must remain in jail.

It is considered probable that the felony cases involved in the amendment are superfluous for hearing. As the dockets are already greatly congested, it is likely that three or four outside justices will have to be called in to help bring order out of the present confusion.

TREASURE TROVE IS BOGUS

Workmen at Hillsboro Uncover Mint of "Gold" Coins.

HILLSBORO, Or., Oct. 11.—(Special.)—When J. A. Hum and Andrew McClung, workmen on pavement improvement here under E. A. Sweeney, slipped today and uncovered what appeared to be a veritable mint of brand-new gold pieces, they promptly gloated on their treasure.

Their elation was turned to disappointment several minutes later when the apparently good 316-pieces were found to be as soft as putty, yielding readily to a knife point and bending at the application of a little strength.

There were 58 coins in the hoard, which was hidden in the rotted pockets of a suit of overalls, under the old wooden sidewalk.

The Treasury Department has been notified of the find. It is believed here that the counterfeit gold pieces are the work of H. F. Shuster, a photographer of this city, who was arrested a year ago on the charge of sweating gold. He was released because it was thought he was suffering from some form of insanity and is probably in California.

The "gold" coins imitated the Klondike color to perfection. They were dated 1895 and were properly milled and correct in weight.

CHEHALIS FAIR SUCCESS

Aberdeen Welcomes Many Southwestern Washington Cities.

ABERDEEN, Wash., Oct. 11.—(Special.)—Today, the first day of the Chehalis County fair in Aberdeen, was a huge success. Montezano, coming nearly 100 strong, invaded the city shortly after 1 o'clock accompanied by the Montezano band. Tomorrow is Aberdeen, Hoquiam, Portland and Elona day. All stores of the two cities will close at 1 o'clock and remain closed until 5 o'clock.

The Portland delegation, headed by C. C. Chapman, expects to arrive in the city at noon tomorrow. Friday, Governor's day, will be the biggest day of the fair. Seattle's delegation, in a special train, will reach here at noon on that day. The exhibits at the fair are considered the best ever shown in the state. In fact the first annual exhibition, plans for which have been underway way for only the past six months, is a huge success.

WOMAN LEADER OF MOVEMENT IN OPPOSITION TO SUFFRAGE FOR WOMEN.

MRS. SPENCER SMITH.

WAIST LINE BACK

Dame Fashion Puts "Kibosh" on Lineless Lady.

TAILS ON GOWNS LATEST

Trailer Merely Loosened Piece of Garment—Preferably of Brocade, Which Must Flap Loosely to Left.

NEW YORK, Oct. 11.—(Special.)—The lineless lady is going out of fashion. That is the latest news from the French capital. This season shown by gowns in town today and every gorgeous costume straddled back and forth on a living model tells the story.

Even the hobble doesn't hobble as much as it did. It has extended itself a little and in its newer form won't trip a wearer quite as impulsively as last Spring. To replace the freakishness of the ultra-hobble, however, E. Mlle. Paris has evolved the tail.

5 STRIKE AT GRANTS PASS

Workmen Refuse to Handle Material for Strikebreakers.

GRANTS PASS, Or., Oct. 11.—(Special.)—Trouble brewed in this city in the railroad yards when five workmen refused to handle material intended for the use of two strikebreakers who were employed in the shops, leaving the foreman and helper with two strikebreakers, boiler-makers in the roundhouse. One man refused to quit work, owing to the fact that in three months he would be on the pension list.

The five who stopped work are old employees. The material that was being handled in the roundhouse was left on the main line. It is understood by those who quit work yesterday that the engineers are in sympathy with them and if any trouble should arise the Brotherhood of Locomotive Engineers will stand by the strikers.

30,000 ACRES PURCHASED

Fine Timber Tracts in Union and Wallowa Counties Change Hands.

LA GRANDE, Or., Oct. 11.—(Special.)—Thirty thousand acres of timber land have been bought up in Union and Wallowa Counties by August Stange, representing Wisconsin people, according to an announcement made tonight.

It is denied that a sawmill is to be built at once in this section, but such is believed to be the ultimate plan of the company which is made up of prominent sawmill men.

Pitcher Frink Joins Prison Nine. CHEHALIS, Wash., Oct. 11.—(Special.)—The pitching staff of the baseball team at the state penitentiary at Walla Walla will be strengthened by

RODGERS KEEPS ON FOR SPORT OF IT

Coast-to-Coast Aviator Is No Longer Eligible for Competition for \$50,000.

KANSAS CITY IS PASSED

Birdman Has Gone Nearly Half Way Across Continent—Southern Route to Los Angeles Will Be Followed.

OVERLAND PARK, Kan., Oct. 11.—(Special.)—C. P. Rodgers, the coast-to-coast aviator, ascended here at 4:35 o'clock this afternoon. He had flown from Marshall, Mo., a distance of 33 miles, since morning. Rodgers has completed 1485 miles of his transcontinental flight. He is near to the halfway point.

Rodgers broke the world's record for long-distance cross-country flights yesterday, but at the same time his chance of winning the \$50,000 offered by W. R. Hearst to the aviator first to make a cross-country flight in 30 days went glimmering. His time limit expired.

This fact has not deterred Rodgers one whit in his determination to be the first birdman to cross the continent in a heavier-than-air craft. He is going ahead because of his sportsmanlike attitude "for the fun of the thing."

To please the large crowd which will go to San Antonio, Tex., he waited for him at Higginsville, Mo., between Marshall and Kansas City, where Rodgers circled around the town three times.

Rodgers descended at Swope Park, Kansas City, at 11:34 o'clock this morning. He first intended to spend the night there, but he changed his mind this afternoon and decided to come to Overland Park, which is nine miles west of Kansas City.

The aviator landed here without mishap. He announced that he would start for Parsons, Kan., Friday morning. The engine of his aeroplane will be repaired tomorrow. Continuing his sea-to-sea flight from that place, he will go to San Antonio, Tex., and expects to reach Los Angeles by the southern route.

OVINGTON FALLS; IS UNHURT

Aviator Falls in Second Attempt to Gain Cross-Country Flight.

BARDEN CITY, N. Y., Oct. 11.—Earl L. Ovington met with another mishap here today as he was about to start from the Kansas boulevard aviation field for the second time on his proposed flight to the Pacific Coast.

When his aeroplane had reached the height of 50 feet, the engine stopped and the machine fell to the ground. Ovington escaped injury by jumping. The aeroplane was damaged and another machine and start again as soon as possible.

SUMMER RESORT IS SOLD

FAMOUS MINERAL SPRINGS AT CASCADIA IN PURCHASE.

Price for Tract, Situated on South Santiam River, Is \$50,000—Forest Hill Company Buyer.

ALBANY, Or., Oct. 11.—(Special.)—By a deal completed today George M. Gelsendorfer sold the Summer resort at Cascadia, Linn County, to the Forest Hill Company, which recently purchased 12,000 acres of the old Willamette Valley and Cascade Mountain wagon road grant in the Oregon and Western Colonization Company. This includes the mineral springs, which are among the best in the state and the hotel and camp grounds at Cascadia. Gelsendorfer sold about 400 acres, retaining a small tract for his own home. The purchase price was \$50,000.

Cascadia is one of the best-known Summer resorts in this part of the state. It is situated on the South Santiam River, 46 miles southeast of Albany. The property sold by Gelsendorfer includes the old famous soda resort, which was a famous stopping place on the old Willamette Valley and Cascade Mountain wagon road for more than a quarter of a century.

Gelsendorfer established a resort there about 16 years ago and it has become a popular place, hundreds of people visiting it every Summer. He also bought the lower soda property a few years ago.

It is said to be the purpose of the Forest Hill Company to develop Cascadia in connection with the big acre-

BONDS ARE TO BE TESTED

Friendly Suit Will Be Brought Before Supreme Court.

MEDFORD, Or., Oct. 11.—(Special.)—That the County Court will carry the legality of the recent \$1,500,000 bond issue for good roads to the State Supreme Court itself, was the statement made today by County Judge Nell.

Although Ashland has been the only district in the county to threaten suit against the issue, it was the sentiment of the court that in justice to the people the legality of the issue should be absolutely determined before any of the bonds were issued. As soon as A. E. Reames, attorney for the County Court, returns from Portland Saturday arrangements will be made to have proceedings of a friendly nature brought and so arrange matters that the question will come before the Supreme Court for final decision at an early session.

Offers for the good roads bonds continue to come in from Eastern bond houses and according to County Commissioner Davis with all question of the legality of the issue removed the sale of the bonds will net a premium of approximately \$100,000.

EDDIE WILL FACE CHARGE

Man Accused of Murder Says He Has Mother in Portland.

SEATTLE, Wash., Oct. 11.—Norman Eddie, who was arrested here yesterday at the request of the authorities of Shreveport, La., where he was wanted on a charge of murdering George Hanson, said today that he will waive extradition. Eddie said that he knew Hanson well, but that he does not know William Brown, who made the purported confession implicating Eddie in the murder.

Eddie said that he left Shreveport a short time after the death of Hanson, going to Portland, Or., to visit his mother. He returned to Shreveport a year and a half ago and then came to Seattle, Wash., where he obtained work in the railroad shops.

LUMBER MILLS TO CLOSE

Canadian Trade Suffering by Competition From United States.

CALGARY, Oct. 11.—Farr-reaching changes for the Western states and Canada were decided on at a conference here by the members of the Coast Mountain Lumbermen's Association. The members agreed to close many mills on both sides of the line, to remain closed until 1912.

The Canadian trade for the past year has been hampered by the encroachment of the American mills. It was decided at a meeting Saturday to meet all cuts by American lumbermen.

In the meantime an effort will be made to have the Government put a duty on American lumber to give protection in rough lumber.

15,000 TO BE DIPPED

Cattle in Central Oregon to Be Disinfected Wholesale.

LAKEVIEW, Or., Oct. 11.—(Special.)—Joseph E. McCoull has gone to Che-waucan Valley, where he will dip up for the year Cattle Company, near the White House ranch, a dipping vat of large size. The object is to rid this country's cattle of the scab which has infected so many herds and the company expects to dip in the neighborhood of 15,000 animals this year.

It is expected that the centralizing of so many cattle will be a sight to draw many people. Last Spring at Silver Lake Mr. McCoull erected vats, and about the same number of head were treated as it is expected to dip at the new plant.

ARE YOU DRIFTING

into the crowd of weak, weary, depressed; or are you filled with vitality and energy? Health is the foundation of success. Nerves, Brain, and Body should be staunchly dependable.

the best of food-tonics, is the firm footing for health.

ALL DRUGGISTS 11-54

Today We Present the New Novelty Velvet Sailors

—It is a particular pleasure to find that these latest models are beautiful, with a quiet, well-bred distinction, and while original they do not sacrifice their dignity to bizarre oddity.

—Arrived from New York today, they show the latest lines and shapes in smart hats now seen on Fifth avenue as well as abroad.

—While they are called "sailors," they are far from what that word usually conveys, as it makes one immediately think of a stiff, rather severe style. But these shapes are, indeed, pleasing in every particular. The lines and curves of the brims are very graceful, and the crowns are quite stunning in a round, oval style. Around these crowns is a wide band of heavy lace in an ecru shade, which ends in a knot on one side. Lace, by the way, being the newest thing in trimmings.

—There are also some styles with just a jaunty stiff pompon or a little brush saucily applied on one side.

—Between these two prices—\$5.50 to \$16.50—is the best collection it has ever been our good fortune to offer.

New Hats by Well Known Makers

—We have just received by express an unusually large shipment of hats from two well-known makers—the popular Crosby—and hats from the well-known firm of Phipps in all their original tailored effects, that only such makers know how to turn out. You'll find these hats very moderately priced.

Popular Hoods \$1.95 to \$3.95

—This very popular style seems to grow in greater favor each day, and the diversity of models we are now showing is immense. You will find scratch felts, two-tone felts and velours in black, white and all the fashionable shades.
