

## G. A. ALISKY NAMES SAN FRANCISCAN

Norman Gray Charged With Ruin of Sacramento Home of Portland Man.

WIFE GADDED, IS ASSERTED

Suit and Counter Suit for Divorce Filed by Husband and Wife. Mrs. Alisky Asks Damages of \$5000 and Alimony.

OREGON CITY, Or., Oct. 14.—(Special.)—Charged with the spoiling of a home, Norman Gray of San Francisco, is named in the petition for divorce filed against his wife, Mrs. Clara Pearl Alisky, by Charles W. Alisky, a well-known theater owner and son of C. A. Alisky, a wealthy retired Portland contractor. Suit has been commenced in the Circuit Court here.

Mrs. Alisky has filed a counter suit for divorce, but as Mr. Alisky has not been served with a summons, County Clerk Murrey declines to make the complaint public.

**Alisky Suffered, He Says.**  
Cruelty and gross humiliation are among the charges launched against his beautiful wife by Alisky, and he says she made his life burdensome. He asserts, also, that Mrs. Alisky neglected all housewifely duties and wandered all over California with other men.

This Alisky declares, was a source of much mental agony and suffering to him.

While Alisky was ill in a flat he had taken in Sacramento, Cal., the complainant narrates that Mrs. Alisky went to San Francisco. At other times it is charged, Mrs. Alisky called her husband a number of "insulting names. From time to time she is asserted to have struck and otherwise assaulted him.

**Mrs. Alisky Asks \$5000.**  
The complaint goes into history and recites that after their marriage Alisky sent his wife to school in California that she might obtain an education, and that while at school she charged a number of checks, which she had schoolmate with having stolen two checks. This charge was false, and because of it the complainant asserts, the girl was suspended from the institution, while Mrs. Alisky was given much unpleasant notoriety and her husband humiliated.

Misbehavior with Gray in the Central Hotel at Santa Ana, Cal., September 10, 1911, and before that date and afterwards in other parts of California is alleged in the complaint.

That Mrs. Alisky also followed a regular course of nagging enters into the charges.

It is understood that Mrs. Alisky, who filed suit the same day as did her husband, asks \$5000 suit money, \$1000 attorney's fee and \$500 a month alimony. She said some time ago she intended to sue her husband's parents for alienating his affections, and she charges an attempt at separation on their part by a threat to disinheritor Alisky.

## BOARD TO SEE LOCKS SITE

State May Oppose Canal on East Side at Oregon City.

SALEM, Or., Oct. 16.—(Special.)—Unless present plans fall members of the State Board will probably make an official trip to Oregon City next month to inspect conditions there relative to the proposed free locks. The state has made an appropriation of \$200,000, payable \$100,000 annually, to be used in connection with a similar appropriation from the government for the establishment of such locks.

The agitation in Oregon City for locks on the East Side of the river will meet with the opposition of the State Board, according to the present outlook, and it is to investigate personally this question of right of way that the board wishes to examine the situation.

Under an opinion of the Supreme Court, handed down a number of years ago, the State of Oregon has a proprietary interest in the present locks on the West Side of the river, amounting to \$200,000. Should the course of the locks be transferred to the East Side it would result in the state's interest in the locks becoming practically worthless. For this reason the board probably will combat any move for a new right of way and will endeavor to have the old locks enlarged and remodelled, and taken over for free use.

## STEAMER CLINGS TO ROCKS

Princess Beatrice Resists All Efforts to Release Her.

VICTORIA, B. C., Oct. 16.—The steamship Princess Royal is still standing by the wrecked steamship Princess Beatrice, which went ashore on Nobel Island Saturday night. The last message received this morning stated that the engine-room pumps were still keeping the after-holds free and the flooding was confined to the forehold, which contains salmon. Efforts made with the steamer's engines to free her when the tide rose were unavailing. She being firmly held on the rocks which crushed the bow and the hull under the forehold.

The steamer Salvor left this morning with wrecking gear, and Captain Logan, underwritten agent, and the steamship Princess Mary went to bring the passengers and baggage south. The steamship and her cargo of 12,000 cases of salmon are both insured.

## SCIO WILL KEEP FAIR

ASSOCIATION DECIDES TO CONTINUE EXHIBITION.

New Stock Is Subscribed and Plans Made for New Features at Next Year's Show.

SCIO, Or., Oct. 16.—(Special.)—At a meeting of the stockholders of the Lincoln County Fair Association held here Saturday to consider the advisability of holding a fair next year, it was decided to do so. There is an indebtedness of \$650, which it will be necessary to pay before the association can start next year's fair. About \$300 worth of new stock was subscribed today and an assessment of \$250 made on the owners of stock, who took no new shares.

Much interest will now be taken in the question of officers to be elected at the annual meeting in January, as there is some doubt whether Dr. Prill, who has served as president since the organization of the fair five years ago, can be induced to serve any longer. The only one so far mentioned as a possible successor to Dr. Prill, in case he refuses another term, is R. Shelton.

There is a possibility that at the January meeting there may be a change ordered in the fair programme by which much or all of the horse racing will be replaced by other features which will be equally as attractive and less expensive.

The decision to continue the fair here in the bud a movement to take the fair to Albany. It has been said that the lack of accessibility of Scio should cause the transfer, but as all parts of the county can come here and

# GONE!

It's happened. The First Unit of Parkrose has been sold out. Upwards of \$350,000 worth of real estate in 15 days. To our Knowledge it is the greatest record ever attained in this city or any other city. The buying has been terrific. We never dreamed that the whole thing would be cleaned out by yesterday. In fact we felt that if the first unit was sold by this coming Saturday it would be going some. It has caught us unprepared. We're not ready yet with the second unit. Captain Greenleaf, the engineer in charge of the work, has doubled his forces. He and his men are doing their utmost to rush the next unit through. He thinks everything will be ready late this afternoon. If he keeps his word we'll have something extra special to say in our announcement tomorrow; something that will be of vital importance to every man and woman with an ambition to succeed, to get ahead, to make money. Look for announcement tomorrow.

Klamath May Raise Values. KLAMATH FALLS, Or., Oct. 15.—(Special.)—Lumbermen have been gathering in this city the past few days to attend the meeting of the board of equalization and protest against material increases in the valuation of timber lands. Some time ago Captain J. P. Lee, County Assessor, gave it to be understood that the tim-

ber valuations would be raised, and finally announced that the general increase would average about a third more than the 1910 assessment. The Weyerhaeuser interests own 167,000 acres of timber land in Klamath County and unless the equalization board cuts down the amount intended to be assessed, that firm will have to pay approximately \$50,000 in taxes. The sewerage and paving of Havana and the waterworks of Clatsop counties with celerity, the dredging contracts are pushed and roads constructed.
