# STOCK-WATERING MAYFOREGOGRANI

Penalty for Deceitful Corporations Considered by Charter Commission.

DR. LANE SUGGESTS PLAN

Committee Is Named to Prepare Amendment--Franchises for More Than 25 Years Are Forbidden-Rates With City.

Stock-watering corporations, operating under franchises from the city. were the target for attack by the mem-bers of the people's charter revision commission (East Side) at a meeting last night. Dr. Harry Lane argued that the proposed commission charter should contain a provision by which the franchise of any corporation should the franchise of any corporation should be forfetted in its entirety whenever that corporation was detected water-ing its stock. Other members of the committee were not prepared official-ly to act on so drastic a provision without further consideration, with the result that the subject was referred to a special committee, consisting of Dr. Lane, Isaac Swett and H. G. Parsons with instructions to prepare amendments thereon and submit at a

As approved by the commission, important features of the report of the subcommittee on franchises were agreed to. It has been decided by the committee, and the provision will be incorporated in the charier to be submitted to the people, that no franchise shall be granted for longer than 25 years and then only when approved by the people.

Rates Left to Commission. The right is reserved to the com-mission to determine what are fair and reasonable rates, fares and charges for the public service and to order that only reasonable charges shall be imposed and to make effective all such orders under penalty of for-

feiture.

Another section provides that the granting of a franchise shall not be deemed to confer any right on the corporation receiving the same to include in the charge for any service any re-turn on the value of the franchise or grant. At the same time it is provided that all such franchises shall be assame manner as other property. R. W. Montague called the attention of his associates on the committee to the inconsistency of these two sections re-lating to franchises, but a majority of the committee insisted on the retention of both provisions.

Forfetture Is Provided. The special committee named last night will also prepare and submit an amendment providing that the abandonment by a street railway company or other corporation of a street or por-tion of a street covered by its franchies, without express permission of the commission through the enactment of an ordinance, shall operate to for-

felt the entire franchise.

By another provision ratified by the committee last night, it is provided that all franchises heretofore granted and in which the grantees have not entered into the use and enjoyment of the privileges conferred thereunder, shall im-mediately become void and inoperative is approved by the people.

ALBINA WORKS FOR PARK

25 Members to Ask Board to Provide Playgrounds.

Albina wants a park and playgrounds for the use of the several schools of that district, and at the meeting of the Lower Albina Push Club, beld last the Lower Albina Push Club, held last night in the Dania Hall, it was decided to demand that the Park Board purchase the grounds. George Hockenyos declared that all other portions of the city had been provided with parks, but that Albina had been overlooked.

MERCHANTS FIGHT ADVERTIS-ING BOOKLET SCHEMES.

Elks Agree to Refrain From Asking for This Kind of Patronage for Programme.

Portland business men have been solicited for so many advertising schemes of questionable merit in the last few months that it has become restored to the city, if the charter draft | necessary for them to start a campaign of self-defense.

At the time the Elks solicited their subscriptions the assurance was held out that they would not ask the mer-chants to contribute further by offering them space in a programme, and when the letter was received the com-mission reiterated its promise not to seek advertising for their programme er for any other publication that they

may issue.

White plans for the efficial programme have not been outlined by the Elks, it is almost certain that it will contain no advertising matter. It is anticipated that enterprising persons will solicit advertising for various other kinds of programmes, but the Elks will not give their official save. Elks will not give their official sanc-

tion to any such schemes.

Another line of advertising matter that the merchants wish to avoid is that through which the promotors seek to exploit the police of the city. Los Angeles merchants recently were made the victims of such a echeme, and the Merchants' and Manufacturers' Association there has sent the following "marring" to the secretary of the Port. COUNTY CRUISES TIMBER Klamath Board of Equalization Sets Value of \$1 Per 1000.

KLAMATH FALLS, Or., Oct. 23.—
(Special.)—In past seasons the County Board of Equalization has based values on timber for assessment of taxes without having the lands cruised. The decided raise in valuations this year and the determined attitude of the Board to make the raise stand despite the protest of the timber men, who ciaim that practically all the county's raise in valuation is against eight large raise in valuation is against eight large timber-holding companies, is due to the fact that the county had the timber

lands cruised.
Frank Doohar, James Ryan and J.
Minor were employed to go over the
timber lands west of Upper Lake timber lands west of Upper Lake Kiamath, while Byron Crawford and the Stindt brothers, of Bonanza, in-spected the territory near Bly which is timbered. The reports of their in-vestigation were submitted to the Coun-ty Court and County Assessor, Captain I. D. Lie after which the county has J. P. Lee, after which the county had Oscar North, of this city, the official cruising inspector for the county, check up the work done by the cruising teams, and report on surplus or shortage. Ac-cording to the results of this investiga-tion, the Board of Equalization decided on the raise in the valuation, and have on the raise in the valuation, and have put the value of the timber at \$1 per thousand. This is said to be unusually high for timber assessments, which are often made at 75 cents.

Mayor Against Forcing Firms to Pay for Deposits.

The proposed ordinance," providing that all public service corporations, including the gas, telephone and electric light companies, pay interest on the deposits which they demand from their patrons, was vetoed by Mayor Rushlight yesterday. The ordinance passed the Council October 11.

"There are two reasons," says the Mayor, "why I object to this ordinance in its present form. The principal

in its present form. The principal objection is that no provision is made as to the time and manner of paying, the interest to the depositor. This leaves a loop-hole for the public service corporations affected to evade payment, and opens the way for endless litigation, which would in the end work a hardship on the very people whom the measure is intended to relieve.

"The other objection is that it opens the way to force patrons of the companies into furnishing bonds instead of cash deposits. The public service corporations have the right under the law to demand such security and this law to demand such security, and this would result in another injury and vexation to the parons who would be compelled to pay the bonding fees."

Feeling between the police and the Municipal Court, never cordial, was made less so yesterday when the ap-pearance of policemen in court to prosecute their cases was brought up on a complaint made by Judge Taz-well to Chief Slover. Frequent failure of arresting patrolmen to respond when their cases are called is reported by the magistrate, while the policemen say that under the system, or rather lack of system observed in the court, lack of system observed in the court, every arrest they make carries with it the loss of hours of their private time, when they are supposed to be sleeping or taking their recreation.
