## HEARSTLESS PARTY STAYS ON BALLOT

Though Robbed of Chief, Independence League Has Retained Its Emblem.

#### TAMMANY FIGHT FORECAST

Republicans Who Entered Fusion Arrangement in New York Are All at Sea-Hearst Coin Will Find New Channels.

NEW YORK, Oct. 25.—(Special.)—Here is the new Independence League campaign song:

We'vs jost our Hearst: We fear the worst. The organization is still with us. It has a party column on the ballot this year, and will be entitled to a similar privilege at the Presidential election. For the law says that any combination that polls 10,000 votes for a candidate for Governor has a right to make nomi-nations by convention, and place them

In 1910 John J. Hopper, the league's candidate for Congress, polled 48,470 votes, running neck and neck with Charles Edward Russell, Socialist, who got 48,529, while all the Prohibitionists

got 48,529, while all the Prohibitionists could acrape up were 22,285. The trouble is that Hearst has left the Independence League and enrolled as a Democrat. So has Clarence J. Shearn, his personal attorney, fusion nominee for the Supreme Court. Likewise Arthur Brisbane, and the reporters and copy readers of the Hearst chain of newspapers. They are all good Democrats now, and are lustily cheering for—

Well, they haven't announced yet whom they are booming. But experienced politicians can guess.

Followers Get Tip Too Late. It must not be imagined that the Many of the rank and file who honestly believe in the third party have put their cross under it. Also many of the leaders didn't get the tip in

Among the latter is John J. Hopper, chairman of the state committee, nominee for Governor last year, and now the fusion candidate for Sheriff. Mr. Hopper didn't have the slightest idea

his leader meant to jump the reserva-tion until he read Hearst's speech.
"I enrolled as an Independence Leaguer myself." Mr. Hopper declares.
"It surprised me to hear that Mr. Hearst is a Democrat. No one gave me any intimation of it. The first news was what I read in the papers. Many of us are sticking to our party. It is

of us are sticking to our party. It is too late to change now, for we are registered. Anyway, I do not want to be a Democrat again until the city and state organizations reform."

Hears's change of front is taken as an indication that he expects to cut some ice in the next Democratic National convention. He seems to have a fair chance of capturing the Illinois delegates, through the men who are fighting National Committeeman Sullivan, and he has hopes in California.

a fair chance of capturing the illinois delegates, through the men who are fighting National Committeeman Sullivan, and he has hopes in California. Now that he has enrolled as a Democrat. Hearst will have the privilege of participating in the Tammany primaries next Spring, when the first move is made to elect delegates to the National convention. The understand-ing is that the money which has here-tofore been expended on the Independce League will be used to finance an anti-Tammany movement.

Tummany Leaders in Danger.

if Hearst decides on a primary fight, he can make it decidedly interesting ne of the district leaders. In would not be surprising were some of them defeated, for in certain sections of the city Hearst is strong. Furthermore much can be accomplished on primary day if one is willing to expend mone,. There is more than a possibility that Hearst and Charles F. Murphy will be seated in the same delegation in the convention hall.

An interesting problem arises as to what the Democratic League will do if Hearst wages a party war on Tammany. The longue was organized and in the cadet organization.

Mr. Sze's entire public career has been in the diplomatic service, latter-been in the diplomatic service, latter-beth of the under-secretaries of one of Governor Dix' confidential advisers.

Hearst and Osborne are bitter ene mies, and the Auburn man bolted his party ticket when Hearst was nomi-nated for Governor in 1906. Each gets iolently excited when the other's name

If the Democratic League indersed Hearst Osborne would quit in wild ex-citement. The trouble is, however, that the majority of Osborne's forces are rabid anti-Hearst men, also bitter anti-Murphy men. A fight between Tammany Hall and the editor would clace them in a pitiful position,

Fusion Suffers Consequences Politicians generally agree that the abandenment of his party by Hearst will have a bad effect upon the fusion ticket in this county. Old line Republicans have been growling right along over the nominees they are asked to remove the New Hearst comes along and support. Now Hearst comes along and

candidates. Why on earth should we try to put the Democratic party on a war foot-ing?" one indignant Republican asked day. And no Republican can answer

The Tammany judiciary ticket is the best one that Murphy has ever nomi-nated. With the exception of Dan Cohalan, every candidate was virtually forced upon him by public sentiment. It would not strengthen the boss to any extent if it were elected.

Republican Chances Brighter. The Republican leaders are paying little attention to the county ticket,

but are privately working hard to elect Assemblymen and Aldermen. The in-dications are that they will regain the ower house at Albany, and have a lighting chance to control the City In the meantime the faithful Inde-

that they have been sheared.

It is pointed out, however, that Hearst is still in an excellent strategic position. He has left his party, it is true, but he can return any time he decides to buy an admission ticket. Buppose he goes to the next National convention, and loses out, as he has done before. He can return to the city and find his faithful Independence

Revolutionary sympathizers excuse the lack of initiative on the part of General Li Yuan Heng, the rebel commander, by crediting him with a deep laid plan to permit Yin Tchang to enter the Hu-peh pass and then cut him off. Military men credit neither commander with great ability. Undoubtedly the palace is urging the war minister forward because of the dire necessity for a prompt victory. Should he fall to fight, or lose his first engagement, there will be no hope of checking the revolt.

#### COAL WASTE IS ENORMOUS

Fifty Per Cent Now Declared to Be Left in Mines Because It Is Not Profitable-Leasing Is Opposed by West.

CHICAGO, Oct. 25 .- A Governmental commission or a special Congressional ommission to make a thorough investigation of Alaskan conditions urged by John Dern, of Salt Lake City, president of the American Mining Congress, today.

"These men should not bolster up the

pet views of any set of men." he said, "but they should have the sole purpose of gathering information so the United States could act intelligently in framing an Alaskan policy."

President Dern reviewed mining conditions of the last year and made numerous suggestions for putting the

industry on a sounder basis.

"First, the American Mining Congress can perform no greater service," he said, "than to eliminate mining frauds and to see that the investor gets a square deal. To this end, we are desirous that the Eastern coal miners should ally themselves more heartily with the Western metal miners. with the Western metal miners.

"Then there is a broad conservation that has particular force in the mining industry. The waste in mining is something enormous and unlike forestry waste, it cannot be replaced. I have heard that 50 per cent of coal is left in the mines because it does not pay to clean up. According to this, we are wasting half a billion dollars werth of coal a year."

#### How To Keep Hair Soft and Beautiful

[Jane Tyrel, on Beauty]

"Too much moisture saps the life of scalp tissues and hair-roots, causing an excessively oily condition or a dry, harsh, dandruff-laden scalp and dull, 'stringy,' brittle, falling hair.

"The most delightful results imaginable can be obtained, if a dry shampoo mixture is brushed through the hair once or twice each week. A thoroughly reliable preparation can be made at little cost by mixing either 4 ounces orris root or corn meal with 4 ounces therox. One tablespoonful is enough for a shampoo. After using this a few times the scalp is put in a healthy condition and the hair takes on a sort fluffiness, and regains its rich luster and natural color."-Adv.
