FEE OF HEALER CUT

"Starvation Doctor" Made to Refund Cash by Court.

METHODS ARE DENOUNCED

Judge Asserts That Linda Burfield Hazzard Suggested Suicide to Girl, and Calls Her Dangerous Person for the Sick.

SEATTLE, Oct. 25.—Mrs. Linda Burfield Hazzard, known as the "starvation doctor," must return \$72 of the \$150 cash given her by Miss Dorothea Williamson, for the treatment of Miss Williamson and her sister, Claire, whom whom Mrs. Hazzard is accused of having starved to death at the Hazzard Sanitarium at Oalla.

This was the order issued today by Judge Lester Still, of Kitsap County, at the end of the proceedings brought by Miss Williamson to compel an accounting of Mrs. Hazzard's guardianship of her sister's estate. The judge also ordered that the note for \$250 given Mrs. Hazzard by Miss Williamson be placed in the custody of the court to be held until it can be determined whether Miss Williamson was in her right mind when she made it.

"I am of the opinion that Mrs. Hazzard was violating all the known rules of medicine in her treatment of this thin, emaciated girl," said Judge Still. "It looks to me as if this girl and her sister were slowly dying at Oalla—whether the doctor, sitting by her side and telling her tales of that awful gulch close by and suggesting suicide to the mind of the girl."

"The doctor might not have realized

what she was doing, but I believe the story of the girl that she did suggest suicide to her. Such a doctor is a dangerous person to administer to women and children."

Dorothea took the stand earlier today against the starvation expert. She declared Mrs. Hazzard had never spoken to her of assuming charge of her affairs as her guardian, that Doctor Hazzard had never made a physical examination of her and that in spite of this fact, she had repeatedly informed her that she was mentally unsound and would be a permanent imbecile.

John Herbert, a Portland business man, uncle of the Williamson girls, told the court that previous to his visit to his niece at the Hazzard institution, information had been conveyed to him that Dorothea was a mental incompetent, but that on his arrival there last May, he discovered her to be perfectly sane, but weak as a result of the fasting treatment.

Washington Varsity Professor Has "Gym" for Children.

UNIVERSITY OF WASHINGTON, Seattle, Oct. 25.—(Special).—To teach the little ones that are daily brought into his office to control their bodies with their minds, Dr. Stevenson Smith, director of the psychological clinic for the education of backward and defective children, is establishing a gymnasium in his rooms in science hall at the university to give his patients lessons in physical culture.

SHOTS FIRED IN REVENGE

Employee Angered by Discharge for Using Horse He Was Forbidden to Ride—Slayer Soon Over-taken by Officers.

SAN JOSE, Cal., Oct. 25.—Simon Romero, a prominent resident of Monterey, and Manuel Garcia, his slayer, are both dead, and Miss Helen Quisada, a daughter of a millionaire planter of Costa Rica, lies seriously wounded as the result of a shooting affray that took place after midnight this morning at the palatial home of the Quisadas in College Park, near this city, and the efforts of the authorities to capture Garcia.

After an all-night chase, which was participated in by officers from both Santa Clara and Alameda Counties, Garcia was shot and fatally wounded at Warm Springs shortly after 11 o'clock by an automobile load of officers from San Jose, who shot in self defense.

Garcia lived only an hour after his arrival at the county jail here. He was a vaquero and stableman in the employ of Francisco Quisada, for seven years private secretary to the President of Costa Rica, and a millionaire planter, and was discharged Monday by Miss Quisada because he took out for exercise a horse which she had forbidden him to ride. Shortly after midnight Garcia entered the dining-room of the Quisada house, where Romero and the young woman were having a light supper after the theater, and fired four shots at Romero, killing him instantly. Another shot missed and the sixth, fired from an automatic gun, hit the girl in the right leg.

Garcia had the thoroughbred single-footer saddled and ready and left im-

mediately. The Sheriff's office was notified and men were dispatched immediately to the scene of the shooting. It was believed that Garcia headed north and before daybreak an automobile load of officers set out along the Oakland road.

Several clues as to his whereabouts were picked up on the way and several false leads were followed, but shortly after 11 the officers met Garcia on the Oakland road about a mile south of Warm Springs. The machine stopped and Garcia stopped his horse. He was covered with the guns of the posse and before a word was spoken he had dropped to his horse's side and fired two shots from his revolver over the saddle, at the five men in the machine. The four officers at once let fire, two with shotguns loaded with buckshot, one with a revolver and the other with a rifle.

The horse dropped upon the side to which Garcia was hanging and pinned him beneath it. He partially raised himself and fired one more shot over the body of the horse and was greeted by another fusillade. When picked up Garcia was unconscious and he was hurried in the automobile to the county jail.

Pull Out a Hair The Way to Tell Whether or Not Your Hair Is Diseased

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. Ninety-eight per cent of the people need a hair tonic. You can make a test yourself that you can see and understand, which will tell you whether your hair is healthy or not. Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try our Rexall "93" Hair Tonic. We promise that it will not cost anything if it does not give satisfactory results. Rexall "93" Hair Tonic is designed to overcome dandruff, relieve scalp irritation, stimulate the hair roots, tighten the hair already in the head, grow hair and eradicate baldness.

Out of 100 cases where it was given a thorough, conscientious test, it grew hair on 93 heads, which should be sufficient proof that Rexall "93" Hair Tonic contains extraordinary remedial and hair-growing qualities. It is because of our knowledge of this preparation and our sincere faith in its goodness that we want you to try it at our risk.

Rexall "93" Hair Tonic is a clean, clear preparation which does not grease, gum or thicken the hair, and it has a very pleasant odor. We have it in two sizes, 50 cents and \$1.00.
