Orville Wright Soars High Aloft in Face of Wind Blowing 50-Mile Gulp.

SAND BAG KEEPS BALANCE

Success of Experiment for Preserving Equilibrium of Planes Considered Step Forward in Science of Aviation.

KILL DEVIL HILL, N. C., Oct. 25.—In a 50-mile wind yesterday Orville Wright west aloft and remained virtually stationary in his glider, with which he is conducting experiments in aerial stability.

The record-breaking flight was the 17th in a series that began when the rain gauge showed that the gale was a long step forward in the science of automatically preserving the equilibrium of heavier-than-air machines.

When Lerin Wright and Alexander Ogilvie, the English aviator, brought out the machine for the initial flight, the wind gauge showed that the gale was 25 miles an hour, and it was raining.

The glider was equipped with a rear rudder of 24-foot span. In front to preserve the balance, a ten-pound bag of sand was swung on the end of a rod extending eight feet in front of the aviator's seat.

Wright expects to continue the flights tomorrow.

GIRL'S BODY IS EXHUMED

Boston Prosecutor Enlists Five Experts in Murder Case.

BOSTON, Oct. 25.—Removed tonight from the grave in the cemetery at Hyannis, the body of Miss Avis Linnell, for whose death by poisoning Rev. C. V. T. Richardson, of Cambridge, is being held in custody, was brought back to Boston tonight by order of District Attorney Delletier.

Uncertainty on the part of the prosecution as to the exact manner in which the young girl met her death is reported unofficially to be the reason for the sudden move, and the announcement by the District Attorney's office that the Government has enlisted five medico-legal experts, gave some strength to this report.

Lantern Slide Picture of "North Pole" Stirs Up Crowd to Such Frenzy That Lecturer Skeddaddles for His Life.

COPENHAGEN, Oct. 25.—Dr. Frederick Cook's theatrical attempt last night to vindicate his reputation by a lecture in the hall where two years ago he addressed the royal family and some of the most prominent people of Denmark on the occasion of his triumphant entrance into the capital, resulted in extremely riotous scenes.

The meeting was turbulent. A small fraction of the audience supported Dr. Cook and applauded his efforts. There was a riot, however, and no violence was attempted.

The lecture, illustrated by means of lantern slides, was almost a repetition of his former talk.

COULD NOT SLEEP WITH ITCHING RASH

All Over Baby's Body, Head and Face, Scratching Made Sores. Used Cuticura Soap and Ointment and Have Had No Further Trouble.

"On July 27, 1909, we left Boston for a trip to England and Ireland, taking baby with us. After being in Ireland a few days a nasty rash came out all over his body. We took him to a doctor who said it was chicken pox, and gave us medicine for him. The trouble started in the form of a rash and was all over baby's body, head and face, at different times. It irritated, and he would scratch it with his little hands. The sequence was that developed into sores, and we were afraid it would leave nasty scars on his face."

England we took baby to another doctor, who said his condition was due to change of food and climate, and gave more medicine. The rash got no better, and it used to itch and burn at night so bad that the child could not sleep. He was completely covered with it at different times. It was at this time that my mother advised us to try Cuticura Soap and Ointment. After using Cuticura Soap and Ointment for about nine months the places disappeared. There are not any scars, or other kind of disfigurement, and baby is completely cured by the Cuticura Soap and Ointment.

NEW STRENGTH FOR OLD BACKS

The greatest discomforts of old age are poor eyesight, deafness, lame back, stiff, achy joints and urinary ills. Most often these troubles come from a weakening of the kidneys. The kidneys have a heavy task during a long life of filtering the blood and keeping the body free from the irritating effects of uric acid. Kidney weakness usually gets little attention and it is no wonder if the kidneys break down. And when the kidneys are sluggish and weak, there is little comfort. Backache is likely to become a constant trouble, lameness in the morning, pains when stooping or lifting, restlessness at night, too frequent and painful passages of the kidney secretions, and persistent languor. Rheumatic pains, stiff joints, dizzy spells and weakness of sight and hearing are often due to the excess of uric acid in the blood. So are gravel and stone, dropsy, swellings of the limbs and extremities, heart weakness. Doan's Kidney Pills have proved a great blessing to many old folks, because they banish backache, regulate the action of the kidneys and help the kidneys to keep the blood pure.

Sound Kidneys Mean More Comfort in the Late Years of Life

PORTLAND PROOF Mrs. A. M. Hollibaugh, 328 A. Grant St., Portland, Oregon, says: "For two or three years I suffered from kidney complaint and inflammation of the bladder. I had considerable backache, but the worst symptom of my trouble was a difficulty with the kidney secretion. Doan's Kidney Pills relieved me soon after I began their use and in every way lived up to the claims made for them." (Statement given January 16, 1906.)
