Appointments and Transfers to Follow Segregation of Lines.

TRAFFIC VACANCIES TWO

Portland Men May Win Both Places. Whether Aids to Chiefs Will Be Named Is Undecided .- O.-W. R. & N. Duties Cut.

With the segregation of the Southern Pacific lines in Oregon from the O.-W. R. & N. Co. and the appointment of John M. Scott and the appointment of John M. Scott and Harvey Lounsbury as general passenger agent and general freight agent respectively of the northern district of the Southern Pacific, numerous changes among minor officials are due to follow. Appointments are expected to be announced within the coming week.

The appointment of Mr. Scott and Mr. Lounsbury leaves two vacancies in the traffic department of the O.-W. R. & N. Co. both of which, it is believed, will be filled from the Portland offices. R. B. Miller, traffic manager: William McMurray, general passonger agent, and Frank W. Robinson, general freight agent, are absent from Portland with the demonstration train touring Control Oregon.

with the demonstration train touring Central Oregan. As soon as they re-turn they will confer with Mr. Scott and Mr. Lounsbury with reference to the new organisation.

Aldes Not Decided Upon.

It has not yet been determined whether assistants to Mr. McMurray and Mr. Robinson will be necessary to replace Mr. Scoti and Mr. Lounsbury. Under the old regime each department handled the business of the Southern Pacific lines in Oregon as well as that of the O.-W. R. & N. Co. The new arrangement relieves the O.-W. R. & N. officials of those extra duties, but since the combination was effected, seven years ago, the O.-W. R. & N. system has grown to such an extent that it now comprises ever 2000 miles of rails in a rich territory of growing importance. That the freight or passenger husiness can long be conducted without an assistant in each department seems improbable. Alden Not Decided Upon.

of ralls in a rich territory of growing importance. That the freight or passenger husiness can long be conducted without an assistant in each department seems improbable.

For the position of assistant general freight agent it is probable that either James H. Mulchay, district freight and passenger agent in Fortland, or A. MacCorquodale, district freight and passenger agent at Spokane, will be named.

J. H. O'Nelli, traveling passenger agent at Spokane, will be named.

J. H. O'Nelli, traveling passenger agent and A. C. Martin, chief cirk in the passenger department, have been suggested for the veanance existing for assistant general passenger agent.

Jurisdictions to Grow.

It has been virtually determined to extend the Jurisdiction of both Mr. McMurray and Mr. Robinson over the line between Seattle and Portland, but to retain J. D. Skinner in charge of the office in that city to take charge of freight tand passenger agent.

Reports from Omaha yesterday were to the effice in that city to take charge of freight caffic on the Union Pacific and that Mr. Skinner will be brought to Portland as general freight agent of the O.-W. R. & N. Co.

The city freight office will be split, C. H. Dexter, general agent, remaining in charge of the O.-W. R. & N. Co.

CONVICTS BUILD 'TIS SAID

Dr. White Tells Why Trustles at State Hospital Equal Patients.

Dr. Calvin S. White, secretary of the State Board of Health, explains conditions at the State Tuberculosis Sanitarium, under which a number of trusties, almost equal to the number of patients there, are working about the sanitarium, by saying that the convicts are employed in constructing

buildings there.

"About two weeks ago," said Dr.
White, "I' trustles were transferred to the aunitarium to heafin work on a new laundry and steam-heating plant.
The last Legislature appropriated \$10. The last Legislature appropriated \$10,000 for that purpose, but this sum would fall considerably short of that required to erect the buildings. The brick is supplied from the Penitentiary brickyard at a cost of about \$2 per thousand, and the trustles receive \$25 cents a day for their work. In this way it will be possible to erect adecests buildings. A large number of way it will be possible to erect adequate buildings. A large number of men are employed because it is the intention to have the buildings under rect before the heavy rains set in.

"It is true that there are only 28 Choice yearling wethers coarse." patients at the sanitarium now, but that is because many have left for the Summer to work, but they will return in the Winter.

NEW YORK, Nov. 3.—R. G. Dun & Co.'s weekly review of trade will say tomorrow: The volume of business is of fair amount and trade continues to exhibit a quickening spirit; in most lines it is still below producing capacity, generally cansisting of the supplying of immediate necessities. The absence of large unseld stocks on the absence and the presence of supplies of credit so great that this country is now able to finance the pressing needs of Entrope to an extent that has rarely, if ever, been equaled in the past, are elements of basic strength.

Orders for steet products booked by the leading interests during October are estimated to have been the largest, with one sacception, in any month this year. The sacception outpanies also are making purchases of needed equipment, contracts for tome 10,000 cars having been placed in the last week, while about half that number are under negotiation. In addition, part of an erder for 25,000 tons of standard ratis has been placed, this business being for 1912 delivery.

A fair romage of structural material is called for, but plates are inactive. Steel hars are quiet and quotations weak. There is a slightly better demand for wire, following lower quotations. Pig iron is weak. The movement in drygoods continues very heavy.

Footwear jobbers are holding off until

Business Stimulated by Colder Weather Over Large Area.

NEW YORK, Nov. L.—Bradstreet's tomorrow will say:

Retail trade, which now complex the center of the stage as regards distribution, has been greatly stimulated by colder weather over a wide area. This branch of business presents a better tenor since last Spring. The turnover has been especially marked in such lines as drygoods, rubber, boots and the long-deferred breaking up of stocks at the long-deferred breaking up of stocks seems to be now under way.

Jobbing lines report a fairly good volume of orders, though it is still ton early to expect much benefit from recent cold weather. But in a general sense wholesale trade outside of holiday lines is relatively light. At the same time there are enough cross currents to prevent uniformity.

Reading rose 3% points to 145%. It was the strongest among the principal stocks, and was unaffected by the Current intervals of depression elsewhere in the market.

Canadian Pacific and Eric wore exceptionally strong. American Smelting halted after its swift advance. For a time it sold at 6%, the highest of the mavement, but it fell back and closed with a net loss. United States Steel apparently has resumed its normal place in speculation, showing no further effects of the dissolution suit.

Lendon again took prominence here. Its transactions ran to about 12,000 shares, chiefly on the selling side, with the bulge of trading in United States Steel and Amaignmated Copper.

I am an expert specialist and treating aliments of men exclusively. I own my own office and equipment and publish my own photograph, and personally supervise the treatment of all patients from the time they come to me until I discharge them as cured. Although my time is fully occupied from early morn until late at night in looking after the wants of my patients, and in administering my special treatment for Blood Polson, Various Veins and Hydrocele, I always take pleasure in consulting with new patients.

In offering my services to the afflicted—the result of 18 years' experience in all ments of men—I am giving you the BEST that can be had anywhere My reputation for the past 18 years can leave no doubt as to my shillty, honesty and integrity and should be sufficient to convince the most skeptical that I am the FOREMOSI and LEADING Specialist in Portiand. I possess skill and experience acquired it such a way that no other can share it and should not be classed with inexperienced loctors or specialists.

A thorough investigation should be made by

A thorough investigation should be made by every alling man as to the specialist he consults. Duty and destiny to self and those who depend upon you demand the best medical attention. I have the ability and can give you this service, I have always charged a very reasonable fee, so that my services may be obtained by any man who sincerely desires to be cured. I make no misleading statements false promises or unbusinessilke propositions. I would like to have you for a patient if you will come to me on a strictly professional basis, accepting inducements that I offer, which are my ability, is years' successful experience, time-saving treatment and cure of certain diseases.

I daily demonstrate that Varicose Veins can be cured in nearly all cases by one treatment in such a satisfactory way that the vital parts are preserved and strengthened, pain ceases, swelling subsides, a healthy circulation is rapidly restablished, instead of the depressing conditions. I guarantee you a cure to stay cured.

stay cured.

HIDNEY AND BLADDER DISEASES.

With these diseases you may have more complications than are presented by any other diseased organ. By my searching illumination of the bladder I determine accurately the disease and by microscopic examination and urinalizing I make doubly sure the condition of the kidneys, thus laying foundations for scientific treatment. SPECIFIC BLOOD POISON.

SPECIFIC BLOOD POISON.
Scientific treatment only should be used in combating this loathesome disease. I cure Blood Poison by the new German Remedy which I introduce directly into the blood, purifying it, neutralizing it and expelling poison from the system. New blood thus formed supplies and rebuilds the tissues in such a way that the patient recovers his normal state of health, strength and soundness.

MY DIRECT TREATMENT FOR WEAKNESS.
That disorder commonly known as weakness has for years and generations baffled the efforts of physicians, yet to this very day a majority of doctors, spe-

cialists not excepted, are attempting to overcome it by methods that have been in constant use and have always failed for half a sentury. They does the system with powerful eithnuisants and tonics, calculated to restore nervous force or strength that is not and never has been lacking, with the result that the functions are temporarily excited to the positive detriment of the patient. Weakness is only a symptom resulting from many local conditions and is curable by local treatment only, without the giving of a single internal doss, which demonstrates the absolute accuracy of my understanding and treatment of this disorder. In years I have not met with a single fallure and I have entire confidence in my ability to cure all cases that course to me for treatment. I am equally certain that no treatment other than that which I have perfected can completely and permanenty reasons strength and vigor. NONEY REQUIRED TO COMMENCE TREATMENT. Many patients have no confidence in their doctor, because he demands pay before a cure has been effected and there are many who have been misinformed about their condition or through unsuccessful treatment have become skeptical and think there is no cure for them. I want an opportunity to treat such men, it makes no difference skeptical and think there is no cure for them. I want an opportunity are treatment, it want an opportunity are treatment, it will have the firm a la accept pay for my services.
