

ENGINEERS IN FOUR-HOUR WEDDING

Heiress Says "Yes" After Rapid Courtship, Part of It by Phone.

MAN IGNORANT OF WEALTH

Girl Comes to New York to Prepare for Wedding to Another, but Chance Meeting Makes Her Reverse Her Plans.

NEW YORK, Nov. 6.—It took Miss Gladys Rose, of Narragansett Pier, just four hours—from 8 o'clock in the evening until midnight—to decide to marry Ralph Fuller Nye, a member of the engineering corps attached to the Panama Canal, whom she had never met before, and only until 1:30 o'clock the next afternoon to marry him.

Friends learned today of the unusual wedding, which took place in Jersey City, Oct. 30, was the first time when cards were sent out by Mrs. Ethel Rodman Rose, the bride's mother, announcing the wedding.

Miss Rose, who is 21, petite and pretty, besides having inherited a fortune from her father, the late James A. Rose, a rich hotel man, had come to New York to complete arrangements for marrying another man, a wealthy Broadway jeweler, and Mr. Nye, who was in the city on a flying trip from Panama, had no intention of entering matrimony.

Chaperone Is Outwitted.

Mrs. Jane Adams, Miss Rose's chaperone, told reporters how it all happened today. She said that she had been told by the bride's mother that she was to be the chaperone for the wedding.

"Well, as long as the secret is out perhaps it would be best for me to tell the matter as it really happened. We were having dinner at the Hotel Astor and Mr. Nye was dining with some friends who were acquainted with us.

"After the theater we went to Maxims and then Gladys and I went home. At the hotel she told me she was going to be married to Mr. Nye the next day. I thought she was only fooling. At 3 o'clock in the morning the telephone rang and a voice asked to know if I, as Gladys's chaperone, would allow her to speak to him.

"I gave my permission, and when I heard Gladys say 'No, I mean it; indeed I haven't changed my mind, I realized that perhaps it was serious, I begged her to wait until I could see her mother, and she refused, and then I threatened to telegraph her. 'If you do,' Gladys said, 'it will take her five hours to get here. I will wait for her as long as the license bureau is open.'

"The next morning I left the hotel early and went to see a friend of Mr. Nye's who was also acquainted with Gladys's mother. I begged him to persuade Mr. Nye to wait until Mrs. Rose came to New York and Mr. Nye went to the Longfellow Hotel, where he had been staying, and Gladys came back to the hotel with her.

"Miss Adams' News to Finance. "We had an engagement for dinner with the man to whom Gladys was engaged. At dinner he tried to talk matters over with her and she said, 'No, I can't marry you until my mother sees someone else.' At the theater, when she took off her glove, he saw her wedding ring. Then he charged her with it and she admitted that she had been married in the afternoon.

"Gladys went to the pier to try to persuade her mother to forgive her, but it took a week before Mrs. Rose would do it. Then Mr. Nye went up to Mrs. Rose's home and Mrs. Rose was finally straightened out.

MRS. KERSH NOW IN CELL

Murderer Returned to Prison Now That She Is Not Only Woman.

SALEM, Or., Nov. 5.—(Special.)—After being a nurse at the detention ward of the Hospital for the Insane practically ever since she was sentenced to the State Penitentiary for complicity in the murder of William Johnson with Jesse Webb in Portland, Mrs. Carrie Kersh today was returned to the State Penitentiary on the order of Governor West.

At this time Mrs. Kersh was sent to the prison as she was the only woman there and Governor West transferred her to the asylum as a nurse in the detention ward, saying that the cost of keeping a woman at the prison averaged about \$100 a month, as the law requires that a matron be employed whenever there are women prisoners, and the expense of the matron and additional cost of maintenance total approximately that amount.

Recently, however, Elizabeth Vance was sentenced to prison from Astoria for aiding in a robbery in a resort. At the time Governor West considered the advisability of paying this woman and returning her to Washington if she would agree to care for her child, but since she had changed her mind and decided to give her a touch of prison life, as it necessitated the care of a matron for the Vance woman, the reason for sending Mrs. Kersh to the asylum is obviated, he says, and as a result Mrs. Kersh is returned.

"Just what labor I will put them in in the prison is a problem," said Governor West.

WOMAN ACCUSED OF KNOWLEDGE OF MYSTERIOUS POISONINGS IN CHICAGO.

MRS. LOUISE VERMILYA.

BED WITNESS STAND

Mrs. Vermilya, Accused Poisoner, Tried in Sickroom.

SUICIDE EFFORT FEARED

Success of Previous Attempt to Get Arsenic as "White Pepper," Leads to Formal Arrest by the Police.

CHICAGO, Nov. 6.—Fearing another attempt at suicide on her part, the police today formally placed Mrs. Louise Vermilya, charged with the murder of Arthur Hissomette, under arrest today.

While Municipal Judge Walker and his court crowded into the little bedroom to conduct the hearing, Mrs. Vermilya lay quietly on her bed. She is still weak from her effort to kill herself a few days ago when she asked attendants to give her "white pepper" in a salt shaker, which proved to be arsenic. She took only languid interest in today's proceedings, which were merely formal.

The hearing was postponed until November 28, and a mittimus issued, ordering her committed to the County Hospital.

Nolan is expected to be found in the vicars of Richard T. Smith, who died at the home of Mrs. Vermilya. Coroner Hoffman said he would make preparations at once for the exhumation of the body of Frank Brinkamp, son of Mrs. Vermilya, and her husband, Charles Brinkamp. Brinkamp's testimony from a new source was given the coroner today. Miss Elizabeth Nolan, who was Frank Brinkamp's sweetheart, said Brinkamp had feared that she would poison him, but he thought his father, Charles Brinkamp, had been poisoned, and wanted to investigate his death. Her testimony resulted in an order for Brinkamp's exhumation.

Miss Nolan also brought the name of C. H. Boyesen, an undertaker, into her story, as having been a prospective husband of Mrs. Vermilya.

A life insurance policy for \$2000 on Frank Brinkamp's life, the insurance had been put into Boyesen's hands to collect. "She wanted to marry Boyesen, but he wouldn't marry her," said Miss Nolan.

LARGER PARK SOUGHT

RANGE FOR CRATER LAKE DEER IN NEED OF INCREASE.

Secretary Fisher Asked to Permit Addition of More Territory So Animals May Be Safe.

KLAMATH FALLS, Or., Nov. 6.—(Special.)—Superintendent Arant, of Crater Lake National Park, in his annual report to Secretary of the Interior Fisher, asks that the park be increased in size for the purpose of preserving the game. As it is the park embraces territory in which there are great stretches with very deep snow every year, and winter, the accumulation sometimes being 20 feet deep, and as the deer cannot live there, they always journey to the low lands in the Fall when the storms begin, and their wintering is in territory not under National protection.

The storms have already begun at Crater Lake this Fall and of probably 1000 deer that roamed the park almost as tame as horses, during the Summer, now there probably is not one within 10 miles of the park. Mr. Arant says that the hunters are familiar with the

trails of the deer in leaving the park in the Fall, which, combined with the deer's tame disposition after several months' protection in the wooded lands of the park, makes them easy prey to the hunter's rifle. In effect, it puts the Government in the position of tampering the brakes and then putting them within reach of the bullet.

The present park area is 1 1/4 miles east and west and 1 1/2 miles north and south. Mr. Arant proposes to have included in the reserve nine miles to the north of the park and 24 miles to the west, which would increase the park to three times its present area and take in territory north of the Rogue River, the headwaters of the Umpqua and Elk Creek. This territory, Mr. Arant believes, is the greatest natural wintering ground of the deer on the Pacific Coast. It would also take in Diamond Lake and Antelope Valley, the latter believed to be the only territory where the antelope now lives in his natural, wild state.

The park is being closed for the season and floors to bridges over canyons, some 100 feet long, removed. Twenty feet of snow, or a rush of thawed water, would break the bridges if they were not dismantled for the winter.

COLLEGE TO GIVE AID

CROOK EXPERIMENTAL WORK IN CARE OF EXPERTS.

Agricultural School's Board of Regents Approves Plan to Help Farmers With Labors.

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 6.—(Special.)—The board of regents of the Oregon Agricultural College at its meeting Saturday voted to accept the responsibility of carrying on experimental and demonstration work in Crook County and have directed President Kerr to proceed along the lines which he has prepared.

The Crook County Court, in conjunction with the Portlane business men's committee, the O.-W. R. & N. Company and the Oregon Trunk Railroad, has subscribed \$10,000 for this work to be carried on under the direction of the college.

President Kerr, in outlining the plan, made the following statement: "This is a very important movement in promoting the development of that section of the state. The people there are laboring under many disadvantages, to overcome which the work of an agricultural expert in connection with demonstration farms will be of incalculable assistance. The purpose is not only to give the people the information as will be helpful to them, but actually to demonstrate the best varieties and methods peculiar to that section."

"It has been thought advisable to turn the money over to the college and to allow our experts to expend it to the best advantage in that particular territory. We will do mostly work having a demonstration farm for dry farming under Central Oregon conditions and an irrigation farm, two centrally located. Besides this work a most important part of the plans is the co-operative work which will be carried on with the farmers in these districts."

Mr. Moffatt in Hospital. Man Who Formed Oregon Electric Syndicate Is Ill.

Suffering from stomach trouble, George Barclay Moffatt, of New York, who was one of the prime factors in bringing about the construction of the Oregon Electric, lies ill at St. Vincent's Hospital. What Mr. Moffatt's illness is not serious, it is announced that it will be at least two weeks yet before he will be able to leave the hospital.

Mr. Moffatt was taken ill two weeks ago while on his way to the Coast from New York, and upon the advice of his physicians, decided to go to the hospital. A short time later Mr. Moffatt formed the syndicate that financed the Oregon Electric, and has also been interested in other industrial enterprises in the Northwest.

DEATH WOOD OVER MAN

Woman Recovers From Poisonation, Has Barber Arrested.

When Mrs. Clara Morris, who attempted suicide by drinking carbolic acid while walking near East Twenty-third and Belmont streets Saturday afternoon, swore out a warrant for the arrest of August Butchick, a barber, yesterday, she confessed that it was for love of him that she attempted to end her life. Butchick was arrested last night by Paulman Evans and was released under \$250 bail.

"For three years," said Mrs. Morris yesterday, "I have known Butchick. Shortly after I got a divorce about a year ago he promised to marry me, but whenever I asked him to keep his promise he would hesitate. I began to believe he did not care for me, and so I took poison."

Mrs. Morris left St. Vincent's Hospital yesterday. She has filed a statutory charge against the barber. Mrs. Morris was married about nine years ago and a year ago was divorced. She has two small children.

Two Candidates for Mayor and Four Commissioners Chosen.

CHEHALIS, Wash., Nov. 6.—(Special.)—At the Chehalis primary election held today to select two candidates for Mayor and four for commissioners to be voted on at the regular election on November 20, when a Mayor and two Commissioners will be chosen to serve under the recently adopted

ARE YOU FREE FROM—

Headaches, Colds, Indigestion, Pains, Constipation, Sour Stomach, Dizziness? If you are not, the most effective, prompt and pleasant method of getting rid of them is to take, now and then, a desertspoonful of the ever refreshing and truly beneficial laxative remedy—Syrup of Figs and Elixir of Senna. It is well known throughout the world as the best of family laxative remedies, because it acts so gently and strengthens naturally without irritating the system in any way.

To get its beneficial effects it is always necessary to buy the genuine, manufactured by the California Fig Syrup Co., bearing the name of the Company, plainly printed on the front of every package.

BEND BUSINESS LIVELY

OPENING OF RAILROAD SIGNAL FOR GREAT ACTIVITY.

Time of Mail From Portland Is Out

One Day and Freight Receipts Already Show Growth.

BEND, Or., Nov. 6.—(Special.)—With the inauguration of freight and passenger traffic Wednesday, Bend took on a livelier air and the rush of people to this town, which has long been depopulated by lack of railroad transportation, is now on. On Wednesday evening's train nearly 150 persons arrived, and every night since there has been from 20 to 40 come in.

The first railway mail to be sent out of Bend by the Postmaster went out Thursday morning, and the first that came in from Portland, by letter leaving Portland in the morning reaches here now the same day and is delivered the next morning. Hereafter it has taken two days to get a letter from Portland.

Already the sidetracks are congested with cars of freight, many of which have been laid up between here and the Columbia River waiting for the line to be opened into Bend. A famine of kerosene, gasoline and many table necessities has just been relieved. Freight is being unloaded directly from cars, as no platform or warehouse is built.

The auto-truck companies have arrived with every one of their new ones this week to Burns. Bill Hanley, the millionaire ranchman of Harney County, has a large shipment of freight that will go out on the first train. A line also will be operated from Bend to Silver Lake and other Lake County towns.

So many new residents have come to Bend that every one is now occupied. To meet the demand, contractors are rushing work on new houses, and others are being planned. New business houses also are rising. Plans for three stone buildings have been completed, and work on one was started last week.

BOND ISSUES APPROVED

MINNIEVILLE HOLDS ELECTION OF ABSORBING INTEREST.

Sum of \$75,000 Will Be Spent for Municipal Improvements—City Officers Are Chosen.

MINNIEVILLE, Or., Nov. 6.—(Special.)—Three charter amendments providing that the city issue bonds to the amount of \$75,000, be passed by large majorities at the city election here today. City officers also were elected. The election here today was held as a result of the previous election being declared void and was of absorbing interest.

Arthur Phillips was elected Mayor. Other officers elected were: A. C. Chandler, Recorder; Peter Peterson, Chief of Police; Edward Briedwell, J. R. Mardis and J. J. Eckman, Councilmen from the First, Second and Third wards, respectively.

The charter amendments passed following: Authorizing a bond issue of \$25,000 for replacing wooden water mains with iron; authorizing bond issues of \$30,000, respectively, for street improvements and extension of the water and light systems; and a line empowered also to become a bidder in all street improvements.

CHEHALIS PRIMARY IS HELD

commission form of government, the result was as follows:

For Mayor, Dr. J. T. Coleman, received the highest vote, 336; W. C. Green, 123; Harry Gabel, 129, the first two winning out.

For Commissioners, William Brunwig led with 357; Edward Deggeiler had 243, A. E. Judd, 181, John H. Gubel, 123; these four winning places on the official ballot. J. A. Baker had 111, William Cohee 90, S. F. Townsend 84, Gabel, for Mayor, who had the backing of the Socialists, came within three of defeating Councilman Green for a place. Baker and Cohee, for Commissioners, had the backing of the Socialists. In all 600 votes were cast out of a total registration of 1068. Dr. Coleman is a physician of this city and the other candidates chosen are all well-known business men.

RIDGEFIELD TO HOLD ELECTION. RIDGEFIELD, Wash., Nov. 6.—(Special.)—As the city election is drawing near, the names of several men are mentioned as possible candidates for Mayor. James A. Smith, the present Mayor, says he does not wish to be a candidate. Others who are mentioned favorably for the office are: George Funkhouser, George D. Hale, S. H. Blackburn, N. C. Hall and Frank Gilbert. It is rumored there will be a woman candidate, but as yet no names have been mentioned.

Suit Affects Timber Tract. MARSHFIELD, Or., Nov. 6.—(Special.)—A tract of 1400 acres east of this city is involved in a suit begun by Mrs. Ojeda, of San Francisco, against the Chambers estate and others in behalf of a son whose power of attorney she holds. It is asserted that the plaintiff's husband died the administrator illegally sold some of the property and the title to the large

tract is thus affected. The land has valuable timber on it.

Roseburg Is Redistricted. ROSEBURG, Or., Nov. 6.—(Special.)—In order better to protect the ballot box against illegal voting in city elections, the County Court Saturday authorized the redistricting of Roseburg into four voting precincts. In the past the precincts or districts extended far into the country and it was almost impossible to obtain an accurate registration of the legal voters.

Lewis County Offices Examined. CHEHALIS, Wash., Nov. 6.—(Special.)—Ben R. Fish and L. A. Roberts, of the state accountability board, arrived in Chehalis this morning to make an inspection of the officers of the County Auditor and Treasurer of Lewis County and attend to other official duties. They will be occupied about a month here.

Germes in Her System

Every Woman Should Read This Advice and the Generous Offer That Goes With It

The number of diseases peculiar to woman is such that we believe this space would hardly contain a mere mention of their names, and it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of catarrh in her system.

Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all cost in every instance where it fails to give satisfaction or does not substantiate our claims. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to test.

There is only one way to overcome catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh in general is a diseased condition of the system that shows locally most frequently in discharges from mucous membranes. Local treatment should be assisted by internal treatment for the general diseased condition if a complete cure is to be reached. That internal treatment should be scientifically devised and faithfully administered.

Rozall Mucin-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made catarrh his specialty. This remedy is admirably adapted to the treatment of the catarrhal ailments of women. It purifies and enriches the blood, tends to stop mucous discharges, aids in removing impurities from the system, soothes, heals and strengthens the mucous tissues, and brings about a feeling of health and strength.

We want you to try Rozall Mucin-Tone on our guarantee. If you are not benefited, or for any reason not satisfied, simply tell us and we will hand back your money. Rozall Mucin-Tone comes in two sizes, 50-cents and \$1.00.

Sold only by the Owl Drug Co. Stores in Portland, Seattle, Spokane, San Francisco, Oakland, Los Angeles and Sacramento.
