DOCK JURY COMING

Three New York Engineers Are due Here December 8.

THEY WILL PICK SITE

Chairman Mulkey, of Commission, Receives Word—Board's Decision to Be Final in Municipal Wharf Planning.

Before another month passes Portland shippers may have a comprehensive idea of what system will be adopted in providing public docks with funds to be derived from the sale of bonds authorized at the last election. Chairman Mulkey, of the Commission of Public Docks, was notified by telegraph yesterday that Engineers Goodrich, Barney and Staniford, of New York, who were selected to act as a board of consultation, would reach this city December 8.

It is problematical as to what time the board will pass in the city, but preliminary arrangements have been made to expedite its labors. Engineer Hegardt, of the Commission of Public Docks, has assembled data bearing on the flow of the Willamette, currents, highest and lowest water due to freshets and backwater, and heights at different seasons, with soundings in various parts of the harbor, influence of eddies and other detailed information.

As Mr. Hegardt was formerly in the service of the Government here and has helped solve various engineering problems, he has been in a position to collect reliable pointers and has augmented his reports with statements of tonnage carried on the river, capacity of docks and features of marine commerce. Members of the Commission say they will abide by any decision of the engineering board as to sites selected for the municipal docks and if the board deems the East Side or West Side superior for the project, its recommendation will be regarded as final.

On the arrival of the board it will consult with the Commissioners and Mr. Hegardt and probably make a number of trips through the harbor. En route from the East they will peruse and discuss the data forwarded and may not agree on a complete report until their return to New York.

WASHINGTON LIBEL IS FILED

Steamer's Repairs Delayed by Proceeding Late Yesterday.

Repair work and the discharging of the steamer Washington has ceased at Supple's dock owing to a libel having been filed late yesterday in the Federal Court by the Puget Sound Tugboat Company, which asks the tribunal to fix the amount of salvage due the tug Tatoosh for having towed the Washington from a dangerous position on Pencock Spit, at the mouth of the Columbia, November 13, when she was helpless with 49 persons and a cargo of 500,000 feet of lumber aboard. Bondsmen are ready to qualify in any sum fixed today and the vessel will be released, but meanwhile she is in charge of United States Marshal Scott, with H. J. Young as keeper.

It is said that the Olson & Mahony Steamship Company, owning the Washington, offered $1500 as salvage, while the libelant fixed $7000 as a reasonable amount. It is asserted that the tug Tatoosh was not insured and grave chances were taken with her in reaching the Washington, as she is valued at $90,000, while the Washington is appraised at $40,000. The Puget Sound Tugboat Company also represents the crew of the Tatoosh in the proceeding. The Washington lost more than 200,000 feet of lumber and was damaged to the extent of about $2500. The steamer Johan Poulsen was engaged in loading the Washington's cargo from the disabled vessel to proceed with it to the Golden Gate, but when the ship was seized the Poulsen refused to suffer delay and sailed. Captain Winkle said last night that a bond could have been given had the step been taken at a reasonable hour.

LEAKS FOUND IN NEW MAIN

Bubbles on River's Surface Indicate Where Bull Run Escapes.

Three leaks in the new Bull Run pipe line that extends across the Willamette from the foot of East Clay street, were discovered yesterday by Harbormaster Speier through a distinct bubbling on the surface of the river immediately over the main. Soundings were made and the pipe was found in four fathoms of water at the dock line. The soundings showed but two fathoms where the nearest leak was discovered, near shore.

The Water Board was notified and it is probable that an investigation will be made at once to ascertain if the leaks are dangerous. Soon after the main was laid Harbormaster Speier reported one leak, but from the surface indications seen yesterday he thinks there are three joints requiring attention. Because of the pressure in the main there is no fear that river water will find its way into the pipe.

LUCK SAVES CHICKEN'S NECK

Negro Lands in Chilly Water When He Turns Hunter.

Louis Allen, a negro, lost a chicken yesterday and suffered a ducking because of his fondness for fowl. Allen plies in the local fishing trade and is usually abroad before the populace is astir. He was rowing along the waterfront while the fog was yet heavy yesterday, and under the Washington-street dock he spied a chicken, evidently one that escaped from a Front-street commission house in the night.

Allen headed his skiff under the dock and pulled vigorously on the oars a few times and then stood up in the bow to grasp the feathered prize. As he was about to clutch the chicken the skiff came to an abrupt stop because it had greater beam than could be accommodated between two piles, and Allen took a "header" over the bow. He dried out at the harbor patrol station.

KUMERIC'S FLOUR CARGO BIG

China Market Shows Activity in Spite of Fighting.

The Portland Flouring Mills Company will ship 5100 tons of flour on the Bank Line steamer Kumeric, due to sail the last of the month, most of it being billed to Hongkong. It is probable that a small part of the order will be moved from Puget Sound, but the bulk of it is to be loaded here.

Even in the face of the revolution prevailing in China, the flour market shows signs of life, and "nibbles" have been received by exporters for business to be shipped in February and March. Orders coming are for small lots and to Chinese coast ports, but it is believed that if the fighting ceases soon the Far Eastern market will be decidedly lively and regular tonnage will be insufficient to move supplies. The present heavy shipments were arranged for in advance of the outbreak of hostilities, and more of the same character will go forward in December.

The Kumeric will go out with 800 tons of hay for the United States Army in the Philippines, which she loaded on Puget Sound. The bales are much smaller than those compressed in the fields as used here. An electric compressor is used at Seattle for reducing the fodder to the smallest package possible as a means of saving space, yet the bales average in weight from 250 to 300 pounds.

Marine Notes.

Captain A. L. James is skipper of the steamer Leona, vice Captain Arthur Riggs. The Leona was steamed up yesterday for the first time since she was hauled off the Portland-McMinnville run.

E. J. Dodge & Company have chartered the steamer Hoquiam for a period of three months to operate between San Francisco, Portland and Puget Sound, giving that line five carriers in the trade.

Major McIndoe, Corps of Engineers, U. S. A., was advised from Washington yesterday that the contract entered into with Joseph Supple for the reconstruction of the tug Geo. H. Mendell for $25,700 had been officially approved.

To have her bottom cleaned and painted, the British tramp Strathearn was towed from the Pacific Coast bunkers yesterday afternoon to the Oregon drydock, and it is expected that she will be floated again this evening.

Last of the inward cargo brought from the Orient by the Bank line steamer Kumeric was discharged at the North Bank dock last evening and she will shift to the dock of the Portland Flouring Mills Company today to start outward cargo.

As the British steamer Celtic King called at Bahia, Brazil, a plague port, on the way from Europe, she will be fumigated on arrival here from Vancouver, B. C., where she is discharging. The vessel is to load wheat and tallow here in the Maple Leaf line.

Having finished discharging ballast the German bark Anna was towed from Linnton to the elevator yesterday and will commence loading wheat. The French bark Joinville was also moved into the harbor from Linnton, berthing at Irving dock.

Walter Buck, manager of the marine department of the Associated Oil Company, left for San Francisco last evening, after having investigated the sinking of the steamer Westerner by the tank steamer W. S. Porter. The latter was libeled by owners of the Westerner.

Entries at the Custom-house yesterday were the steamers Johan Poulsen from San Francisco, the Wasp from Seattle and the Geo. W. Elder from San Diego and way ports. The Poulsen cleared for the return with 300,000 feet of lumber, the St. Helens for the same harbor with 50,000 feet, and the Wasp for San Pedro with 700,000 feet.

Peoria, in Linn County, 121 miles by water from Portland, is the head of navigation this season as established by Captain Bluhm, of the steamer Pomona, which loaded 2000 sacks of grain there and brought most of it to Portland. She will probably make that point each Sunday as long as good water is available, stopping at Corvallis on other trips.

Collector of Customs Malcom has informed Captain Alexander, of the British bark Inverco, which was shifted from the stream to the Linnton ballast docks yesterday afternoon, that complaint was made to the effect that Monday evening at 5:45 o'clock the customs launch H. W. Scott passed the Invercoe lying in the stream without anchor lights and that they were not displayed until the launch ran alongside. As the same regulations apply to foreign vessels as American in such cases, the Inverco may be fined $200 and her master $50 and the fines can be mitigated on appeal.

Movements of Vessels.

PORTLAND, Nov. 22.—Arrived—Steamer Alliance, from Eureka and Coos Bay; steamer Shoshone, from San Francisco. Sailed—Steamer Wasp, for San Pedro; steamer St. Helens, for San Francisco.

Astoria, Nov. 22.—Condition at the mouth of the river at 5 P. M., smooth; wind southeast, 12 miles; weather, cloudy. Sailed at 6:30 A. M., steamer Elmore, for Tillamook; steamer schooners Patsy and Anvil, for Bandon and way ports. Sailed at 7 A. M., steamer Northland, for San Pedro. Left up at 8 A. M., British bark Crocodile. Sailed at 11 A. M., barge Amy Turner in tow of tug Daunt less for San Francisco; at 11:30 A. M., schooner David Evans, for Osaka; at 11:15 A. M., schooner W. F. Jewett, for San Pedro; at 11:25 A. M., British bark Arracan and French bark La Pacifie, for Queenstown or Falmouth. Arrived at 11 A. M. and left up at 1 P. M., steamer Alliance, from Eureka and Coos Bay. Arrived at 11:15 A. M. and left up at 12:50 P. M., steamer Shoshone, from San Francisco. Sailed at 1:15 P. M., steamer Breakwater, for Coos Bay; at 1:30 P. M., steamer Coaster, for San Francisco; at 2 P. M., schooner Selhome, for Antofogasta, at 3:30 P. M., barkentine Chehalis, for Aberdeen.

San Francisco, Nov. 22.—Arrived at midnight—Steamer Falcon, from Portland.

London, Nov. 21.—Arriver German bark H. Hackfeld, from Portland.

Auckland, Nov. 21.—Arrived — British steamer Anerley, from Columbia River.

Greenock, Nov. 21.—Arrived—British steamer Strathaven, from Portland.

Greenock, Nov. 21.—Arrived—Comedian, from Vancouver.

Yokohama, Nov. 22.—Arrived previously—Mexican Maru, from Tacoma.

St Vincent, C. V., Nov. 22.—Sailed previously—Collingham, for Portland, Or., from Cork.

Punta Arenas, Nov. 19.—Sailed—Serak, from Tacoma for Hamburg.

Yokohama, Nov. 22.—Arrived previously—Ningchow, from Liverpool for Seattle.

San Francisco, Nov. 22.—Arrived—Steamers Falcon, from Portland; Quinault, from Santa Barbara; Mayfair, from Willaps; Grays Harbor for Willaps; Watson, from Seattle; Croyden, from Pisagua; schooner Metha Nelson, from Kodiak. Sailed—Steamers Wilhelmin, for Honolulu; Toyo Maru, for Hongkong; Bear, for Portland; San Jacinto, for Grays Harbor.

Seattle, Nov. 22.—Arrived—Steamer Admiral Sampson, from Southwestern Alaska; steamer Curacao, from Skagway; steamer Atlas, from Tacoma. Sailed—Steamer Virginian, for Tacoma; steamer Humboldt, for Skagway; steamer Bertha, for Southwestern Alaska; bark Olivebank, for Quartermaster Harbor.

Chemainus, Nov. 22.—Arrived previously, Crown of Castile, Vancouver and San Francisco, for London.

Tides at Astoria Thursday.

STATE DEEMED LAX

Oregon Products Not Entered in New York Contest.

RAILROADS MAKE DISPLAY

L. J. Bricker, Immigration Agent of Northern Pacific, Back From Land Show, Says District Must Awaken to Keep Lead.

If Oregon is to maintain its position at the head of states most active in advancing their respective interests, it will be necessary to place a state exhibit at the big land shows in the East, declared L. J. Bricker, general immigration agent of the Northern Pacific Railway, who has just returned from the first annual land show in New York.

"The New York show was an unexpected success," said Mr. Bricker, "and Oregon received a lot of favorable advertising, but the cost of a state exhibit made either by the state itself or by the combined efforts of the commercial organizations in the state would have been money well invested.

"The New York land show was the most remarkable exhibition I ever have seen. For the first two days the attendance was poor, probably because there had been so many exhibitions at Madison Square Garden promoted purely for advertising purposes that people were somewhat suspicious of this one.

Charge Lowers Attendance.

"Especially was this true in face of the fact that for the automobile shows, food-product shows, machinery exhibitions and other functions of a similar nature the persons interested distributed tickets free, while for this one an admission of 50 cents was charged. At first New Yorkers looked upon it as a graft. But after the third day the garden would not hold them. It frequently became necessary for the police to close the doors and refuse admission to everyone until the hall had been partially emptied.

"Both men and women attended every night in evening dress, and this provided me with my first sight of men in full dress suits carrying away literature—Oregon literature and that of other states.

"Although Oregon had no state display, the state was well represented by the railroads. The Northern Pacific had a space 110 feet by 25 feet, facing the entrance, and in this the Oregon division was the most prominent. We had taken pains to gather fair-specimen products from various parts of the state, and all these attracted the admiring attention of thousands every day. Right in the center of the Oregon booth was a handsome hand-painted card advertising the Elks' convention in Portland next July.

Oregon Inquiries Many.

"The attendance was from the best element of New York business, professional and working classes, and many inquired discriminately of Oregon.

"The most lamentable feature of the exhibition, so far as this state is concerned, is the fact that no Oregon products were entered in the competitive events, thus eliminating the state entirely from the division of prizes.

"I believe that Oregon products are equal to those of any other state in the Union and I am sure that this state would have made a proud record in the prize-winning classes had it only induced some of its growers to compete for them."

Mrs. Ella D. Rowland, of Toppenish, Wash., won the $500 gold cash prize given by Howard Elliott, president of the Northern Pacific, for the best 25 boxes of apples. She was also given a $200 silver cup by the Hanour-Graves Company, of Spokane. Albert Johnson, of North Yakima, took second prize in this event.

The 160-acre farm in Montana, given by the Northern Pacific to the holder of the lucky coupon, one of which was given with every admission ticket, was won by Charles Itzef, of Haverstraw, N. Y. The land is in excellent condition, and Itzef, who is unmarried and the only support of his widowed mother, will take immediate possession.

RELIGIOUS TRAINING URGED

More Participation in This by Athletes of Y. M. C. A. Wanted.

More direct participation in religious activities by the physical department of the Young Men's Christian Association is suggested in a letter received by A. M. Grilley, physical director of the Portland association, from George J. Fisher, secretary of the physical department of the international committee. The letter was written to notify Mr. Grilley of his appointment as a member of the Religious Education Commission, authorized by the Physical Directors' Society, which includes physical directors of all associations in North America.

That the development of healthy bodies by physical training and the promotion of personal hygiene are to be considered important factors in religious endeavor is the assertion of Mr. Fisher. He further explains the objects of the movement as follows:

"The purpose of the Religious Education Commission is to plan a programme of religious education for the physical departments of the Y. M. C. A. This work will involve two things: First, to define the place of physical training through scientific muscular exercise and personal hygiene in religious education, thus to relate definitely the work that is being done by the physical department to the religious programme of the association. Second, the working out of a distinct programme of religious work, supplementing the technical work already mentioned with what is commonly termed distinctive religious work. This should include the suggestion and preparation of studies which should be used in Bible classes, in cultural classes and in other ways. Studies on the physical basis of character, the physical basis of the laws of God, need to be prepared, as there is crying need for such studies."

Electric Road Gets Backing.

MEDFORD, Or., Nov. 22.—(Special.) By negotiations closed Monday by representatives of the Southern Oregon Electric, a deal for accepting a deed of trust for $10,000,000 of the bonds was closed, the Northern Trust company of Portland placing them on the market. This insures, the promoters say, sound and substantial backing for the new electric line in the Rogue River Valley.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller." For sale by all druggists.

A STRAIGHT TALK TO MEN

By C. K. Holsman, M. D. The Leading Specialist

C. K. Holsman, M. D.

I am an expert specialist, treating ailments of men exclusively. I own my office and equipment, publish my true photograph and personally supervise the treatment of all patients from the time they come to me until they are discharged as cured. Although my time is fully occupied from early morn until late at night in looking after the wants of my patients, and in administering my special treatment for Blood Poison, Varicose Veins and other diseases, I always take pleasure in consulting with new patients.

In offering my services to the afflicted I am giving you the BEST that can be had anywhere. My reputation and experience for the past 15 years can leave no doubt as to my ability, honesty and integrity and should be sufficient to convince the most skeptical that I am the FOREMOST and LEADING Specialist in Portland. I possess skill and experience acquired in such a way that no other can share it and should not be classed with inexperienced doctors or specialists.

A thorough investigation should be made by every ailing man as to the specialist he consults. Duty and destiny to self and those who depend upon you demand the best medical attention. I have the ability and can give you this service. I have always charged a very reasonable fee, so that my services may be obtained by any man who sincerly desires to be cured. I make no misleading statements, false promises or unbusinesslike propositions. I would like to have you for a patient if you will come to me on a strictly professional basis, accepting inducements that I offer, which are my ability, 18 years' successful experience time-saving treatment and cure of certain diseases.

I daily demonstrate that varicose veins can be cured in nearly all cases by one treatment in such a satisfactory way, pain ceases, swelling subsides, a healthy circulation is rapidly re-established, instead of the depressing conditions. I guarantee you a cure to stay cured or refund the money.

KIDNEY AND BLADDER.

With these diseases you may have more complications than are presented by any other disease. By my searching illumination of the bladder I determine accurately the disease and by microscopic examination and urinalysis I make doubly sure the condition of the kidneys, thus laying foundations for scientific treatment.

SPECIFIC BLOOD POISON.

Scientific treatment only should be used in combating this loathesome disease. I cure Blood Poison by the new German Remedy which I introduce directly into the blood, purifying it, neutralizing it and expelling poison from the system. New blood thus formed supplies and rebuilds the tissues in such a way that the patient recovers his normal state of health, strength and soundness.

MY DIRECT TREATMENT FOR NERVOUS DEBILITY

That disorder commonly known as weakness has for years and generations baffled the efforts of physicians, yet to this very day a majority of doctors, specialists not excepted, are attempting to overcome it by methods that have been in constant use and have always failed for half a century. They dose the system with powerful stimulants and tonics, calculated to restore nervous force or strength that is not and never has been lacking, with the result that the functions are temporarily excited to the positive detriment of the patient. Weakness is only a symptom resulting from many local conditions and is curable by local treatment only, without the giving of a single internal dose, which demonstrates the absolute accuracy of my understanding and treatment of this disorder. In years I have not met with a single failure and I have entire confidence in my ability to cure all cases that come to me for treatment. I am equally certain that no treatment other than that which I have perfected can completely and permanently restore strength and vigor.

NO MONEY REQUIRED TO COMMENCE TREATMENT. Many patients have no confidence in their doctor, because he demands pay before a cure has been effected and there are many who have been misinformed about their condition or through unsuccessful treatment have become skeptical and think there is no cure for them. I want an opportunity to treat such men. It makes no difference about the financial part, as I accept pay for my services as benefits are derived; when I am satisfied the patient is reliable. Health is capital at interest. I will prove my ability to cure before asking pay for my services.

I Treat All Ailments of Men, and Cure to Stay Cured

I Offer Free Consultation and Examination

I invite you to come to my office. I will explain to you my treatment for varicose veins, hernia, nervous debility, blood poison, piles, fistula, bladder, kidney and all men's ailments, and give you FREE a physical examination if you write for free book and self-examination blank.

My office is open all day from 9 A. M. to 8 P. M. and Sunday from 10 to 12. All correspondence treated confidentially. Letters cheerfully answered.

DR. C. K. HOLSMAN 221½ Morrison St. Cor. 1st Street PORTLAND, OREGON

IRRIGATION PLAN FIXED

FINANCING OF COLUMBIA COMPANY IS EXTENDED.

Question of Construction of North Canal to Be Considered by Desert Land Board Today.

SALEM, Or., Nov. 22.—(Special.)—Discovery of a clause in the contract of the Columbia Southern Irrigation Company and Oregon-Washington-Idaho Finance Company, that a further extension of 90 days' time is required after the filing of certain reports by the latter company, resulted today in the extension operating automatically, and the finance company has three months from today in which to either make good with its plans to finance the Columbia Company or to relinquish all its rights, titles and interests therein.

On the advice of Governor West, which was readily acquiesced in by the representatives of the finance company, that corporation agreed to turn over in escrow all of the deeds and papers in connection with the transactions of the Columbia Southern, so that in event the company fails to make good in its plans to finance the project, these deeds and papers will remain in the hands of the state, while on the other hand, in event the company makes good, these deeds and papers may be used in connection with further financing of the plan.

With these facts in view, the question of whether the project will be rejuvenated or whether it will finally go the cancellation route, is held in abeyance for three months.

Tomorrow the question of the Central Oregon Development Company will come up. This is the largest Carey act project in the state, and the meeting of the Desert Land Board tomorrow promises to be the most important irrigation meeting of the year. Whether the company will be able to finance the construction of the north canal will be one of the vital questions; it is alleged that the company has disposed of a quantity of land under this canal for which there is no available water, and the Board is desirous of having this land furnished with water at the earliest possible moment.

Representatives of the water users and settlers are in the city to be present at the meeting, and their complaints probably will e heard along with statements from members of the company.

NEWSPAPER WAR IS OVER

Blethen Sells Bellingham Papers and Leaves Field to Perkins.

BELLINGHAM, Wash., Nov. 22.—(Special.)—A seven years' war, in which $500,000 was spent, between Colonel A. J. Blethen, of the Seattle Times, and S. A. Perkins, of Tacoma, owner of the Perkins string of newspapers, terminated today with the transfer of the Blethen papers of this city to a syndicate of local capitalists, leaving Mr. Perkins and his paper, the Herald, in control of the situation.

The fight has been watched with intense interest by newspapermen throughout the United States, among whom it was noted as the most exhaustive fight for a newspaper field in any city under the 200,000 class. The war started in September, 1904, when Colonel Blethen established the Puget Sound American, with the avowed purpose of wresting the control of the field from Perkins, who had acquired the Fairhaven Herald in August of the preceding year.

CAMPAIGN GROWS WARM

Interest Intense at Pendleton Over Coming City Election.

PENDLETON, Or., Nov. 22.—(Special.)—Interest in the forthcoming city election is greater than in any local municipal campaign in many years. The principal contests, aside from the adoption or rejection of the proposed commission form of government, will be on the offices of Mayor and Water Commissioner.

Ex-Mayor Matlock, a pioneer resident of the city and one of Pendleton's largest property holders, is opposed by Roy Raley, a young attorney. Friends of both are making a personal campaign. Considerable money is wagered on the result, the betting odds so far seemingly favoring the older and better-known candidate.

The contestants for Water Commissioner are Will Moore, encumbent, and James Johns, who is opposed to the Water Board's plan of giving the city mountain water.

CUPID MAKES HIGH SCORE

Ten Couples Get Wedding Licenses in One Day at Oregon City.

OREGON CITY, Or., Nov. 22.—(Special.)—Cupid scored a record here today, when licenses to marry were issued to ten couples. The largest number issued in one day heretofore was eight. Following are the names of those who obtained licenses:

Roxana V. White and F. M. Chester, Barton; Bessie Chester and Edward Douglass, Barton; Georgia Coates and Claude E. Layman, Portland; Ada Elizabeth Hastings and C. E. Day; Florence A. Ritenour and Harry L. Hubert, Springwater; Jewell Marquam and Roy H. Knight, Canby; Gertrude Shockley and Carl Simmons, Oregon City; Mabel Kocher and Dan Hepler, Aurora; Mae Johnstone and Arthur A. Hardin, Portland, and Otto Kraxberger and Augusta Henke, Aurora.

Roxana V. White and F. M. Chester were married in Portland tonight and Bessie Chester and Edward Douglass were united by the Rev. J. O. Staats, in this city. The Rev. S. A. Hayworth officiated at the marriages of Jewell Marquam and Roy H. Knight and Gertrude Shockley and Carl Simmons.

Marriage License, Vol. 13, Closed.

EUGENE, Or., Nov. 22.—(Special.)—Volume 13 of the book of marriage licenses in the office of the Lane County Clerk, was completely filled with records yesterday, and was formally declared closed, and was filed away. Immediately following the closing of the hoodoo book, and the opening of Volume 14, the license clerk was swamped with business. In quick succession he recorded in the new book the licenses of Karl Mills and Miss Libbie Howe, of Eugene; John R. Penland, of Albany, and Miss Mabel Tiffany, of Eugene; and Gale H. Bolles, of Portland, and Miss Lucile Addison, of Lorane.

CUTICURA OINTMENT HEALED BAD SORE

Scraped Flesh Off Bone Below Knee. Suffered So She Couldn't Sleep. Also Says: "I Believe Cuticura Soap Is the Best Soap Made."

"Some time ago I was coming up some steps when the board crushed under me like an egg shell, and my right limb went through to the knee, and scraped the flesh off the bone just inside and below the knee. I neglected it for a day or two, then it began to hurt me pretty badly. I put balsam fir on to draw out the poison, but when I had used it a week, it hurt so badly that I changed to ——— ointment. That made it smart and burn so badly that I couldn't use it any more, and that was the fourth week after I was hurt.

"Then I began to use Cuticura Ointment for the sore. It stopped hurting immediately and began healing right away. It was a bad-looking sore before Cuticura Ointment healed it, and I suffered so I couldn't sleep from two days after I fell until I began using Cuticura Ointment.

"Cuticura Soap is the best soap I ever saw. I have used all kinds of soap for washing my face, and always it would leave my face smarting. I had to keep a lotion to stop the smart, no matter how expensive a soap I used. I find at last in Cuticura Soap a soap that will clean my face and leave no smarting, and I do not have to use any lotion or anything else to ease it. I believe Cuticura Soap is the best soap made." (Signed) Mrs. M. E. Fairchild, 805 Lafayette St., Wichita, Kan., May 8, 1911.

Cuticura Soap and Ointment are for sale throughout the world, but to those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each together with 32-p. Booklet will be mailed free, on application. Address Potter Drug & Chem. Corp., Dept. 22A, Boston.

Cured in 5 Days

No Detention From Occupation, Family or Home

DR. A. G. SMITH, THE LEADING SPECIALIST.

I am a registered and licensed physician, confining my special practice to the ailments of MEN. I have more money invested in my establishment than all other Portland specialists combined, and I will give $500 to any charity if I cannot show this is true.

I publish my true photograph, correct name, **personally** conduct my office. I am the most successful and reliable, as medical credentials and press records prove. I make this statement so that you will know you consult a true specialist, who sees and treats patients personally. I possess EXPERT skill and experience, acquired in such a way that no other can share.

To all men who are sick and in trouble; to the men who feel they have lost the energy of youth, and that the strength they ought to have has been sapped from them; to those who are not sick enough to be abed but feel they must use all their will power to force themselves even to their everyday tasks—to all these I have a special message of hope and cheer. I can cure that lame and aching back. I can restore the lustre to the dimmed eye; I can make you realize that the youth of yesterday has not been buried in an age of several decades, and that your pitiful condition is now due only to damaged health. This health can be restored if you will act now. Come today, or the stage of neglect may get just past the stage that is curable.

NO SEVERE OPERATIONS, MANY CASES PERMANENTLY CURED IN ONE TREATMENT. MOST TIME-SAVING, MOST NATURAL, MOST SAFE, A RADICAL AND PERMANENT CURE. I GIVE MY WORD AND WILL CITE YOU TO OTHER MEDICAL AUTHORITIES THAT THIS IS A FACT. I AM CERTAINLY PREPARED TO CURE BY EXPERIENCE AND EQUIPMENT, WHICH ARE THE KEYSTONES TO SUCCESS. I HAVE THE BEST-EQUIPPED MEDICAL OFFICE ON THE COAST.

I invite you to come to my office. I will explain to you my treatment for Varicose Veins, Hernia, Nervous Debility, Blood Poison, Piles, Fistula, Bladder, Kidney and all Men's Ailments, and give you FREE a physical examination; if necessary a microscopical and chemical analysis of secretions, to determine pathological and bacteriological conditions. Every person should take advantage of this opportunity to learn their true condition. A permanent cure is what you want.

CONGESTED VEINS

Impair vitality. I daily demonstrate that varicose veins can be cured in nearly all cases by one treatment, in such a satisfactory way that the vital parts are preserved and strengthened, pain ceases, swelling subsides, a healthy circulation is rapidly re-established instead of the depressing conditions. I guarantee you a cure to stay, cured or refund the money.

NERVOUS DEBILITY.

Cerebro, where the mental forces are impaired. Spinal, where the spinal centers are involved. Vital, where the sympathetic nervous system and forces that govern the organs are deranged by reflex effects of ailments. I treat these conditions and all weaknesses induced by nervous complications and excesses and put you on the right track to health, restoring the conditions essential to your future life and happiness.

"606" FOR BLOOD DISORDERS.

I use Professor Ehrlich's wonderful new discovery, "606," in cases of Blood Poison. It cures in **one treatment**, and is the greatest marvel of medical science. This new remedy has been successfully used in thousands of cases. Let me explain it to you.

WRITTEN GUARANTEE—Dr. Smith's written guarantee means a cure or no pay for services. I guarantee to cure certain ailments or refund every dollar you have paid me for my services. My services cost you nothing unless I cure your Varicose Veins, Hernia, Piles, Fistula, Blood Poison, or any ailment I guarantee to cure. My terms are reasonable and no more than you are able and willing to pay for benefits.

Office hours—9 A. M. to 8 P. M. Sundays, 10 A. M. to 1 P. M.

Dr. A. G. Smith

234½ Morrison St. Corner Second PORTLAND, OR.

Law Will Be Enforced in Future.

SALEM, Or., Nov. 22.—(Special.)—The corporation department of the Secretary of State's office has declared that the law will be enforced in reference to the filing of annual reports of corporations. A fine of $100 is provided for in the law on failure to file such reports. There are numerous companies that are from one to three years behind with such reports, and the department intends to clean them up. All of the companies so delinquent are being notified, and after waiting a reasonable length of time, if the reports are not received, the matter will be taken up with the respective District Attorneys where the companies are located.

Portland Salesman Charged.

VANCOUVER, Wash., Nov. 22.—(Special.)—B. G. Magoon, a salesman, of Portland, was bound over to the Superior Court today, charged with larceny. Alton & Gall, oyster merchants, are complainants. They charge that Magoon would send in orders to the main house and collect his commission, when the goods were not sold to any customer and had to be shipped back or left to spoil.

TRUE SPECIALIST

I publish my own photograph and I am a recognized expert in all ailments of men, legally licensed to practice medicine and surgery. Every ailing man who comes to my offices is assured of my careful personal attention throughout the entire treatment. I realize that a cured patient is my best advertisement, and for that reason never accept a case unless I can give every honest assurance of prompt and satisfactory results. Rapid, certain, thorough cures for a small fee on easy payments have made my practice the most successful in Portland today. I will show you immediate benefit, cure you for half the expense and in less time than will be done elsewhere, or it will not cost you a cent.
