

# LOS ANGELES IS TORN BY POLITICS

### Good Government Forces Hope for Fair Weather to Defeat Socialists.

## WOMEN ARE TAKING SIDES

### Alexander Campaigners Wage War on Harriman for Connection With McNamara Trial. Neither Side Confident.

LOS ANGELES, Nov. 26.—(Special.)—With the dawn of the last full week of the political campaign that has torn this city into bitter factions, both sides have given over the attempt to convince anybody of the merits of their claims, and are now concentrating upon getting out the vote.

In this the Good Government League and its allies are easily the best equipped, but the leaders of that party say that "all depends on the weather." A rainy day, it is believed, will ruin Alexander's chances and give the Socialist-Labor element the opportunity it is seeking. On the other hand, the coming of a clear and pleasant election day may mean an overwhelming victory for Alexander.

As illustrative of the extent to which the struggle has torn friends asunder, the Friday Morning Club and the Good Club, both organizations of women, are rent in twain over the recent and most prominent of the Socialist importations from the East, scheduled to speak on lines connected with the current campaign in the Friday Morning Club rooms.

### Local Features Cut Out.

With the coming of the big vote for Harriman, the Socialist Mayorality candidate at the primary, the existence of that speech on the programme of the club assumed dramatic proportions and the members of the programme committee at once began to suggest to Mrs. Gillman that she eliminate any local features from her address. This, after some talk, the speaker agreed to, much to the chagrin of a large section in the club. As a result there is now in the ranks of the club.

With the coming of the campaign days change has come over the spirit of the Socialist dreamers. From promising everything to a more subdued and modest attitude, was an exacting, but the recently published assertion by a member of Harriman's campaign committee that the "introduction of thousands of Eastern dollars has made things black for our man," was an even greater drop.

### McNamara Case Factor.

Another factor in the fight against Harriman to be taken up by the Alexander forces in the last few days has been that candidate's connection with the famous McNamara case, under trial before Judge Bordwell. Before the Women's Progressive League yesterday Attorney Dockweiler asserted, and was loudly cheered in the statement, that Harriman had no right to run for office while acting as a member of the McNamara defense.

"If Harriman was elected Mayor," Dockweiler explained to the women, "the women of the city would be the Socialist City Council back of anything that he deemed expedient. We have no right to prejudice this tremendously important trial by making a distance feel that it might happen to; they would not be afforded every protection."

Still another and even more important blow to Harriman's candidacy was the failure of capitalists, East or West, to bid for the issue of \$250,000 bonds for school purposes. For the great time in the history of this city the city offered bonds for sale and not a bidder came forward.

The need for school additions and improvements is urgent and the failure of the bond issue was a severe blow. The Good Government forces naturally were hot in pointing out what they assumed was the reason between that failure and the thrust of Socialism laborized in the city.

## PRISON ESCAPE GIVES UP

### Man Who Violates Parole Asks to Be Sent Back to His Cell.

SPOKANE, Wash., Nov. 26.—(Special.)—I have come from Odessa to surrender as a former inmate of the Walla Walla penitentiary, wanted by the officers for violation of a parole a little more than a year ago," said Frank Smith, 37, a neatly attired farmer who presented himself to Sheriff Brockman at Davenport and asked him to notify the Walla Walla authorities.

"I have never felt right running around and knowing that it was only a question of time till I would be apprehended," the man continued.

Smith was sent to the penitentiary from Adams County, where he pleaded guilty to burglary at Cunningham, in January, 1910. He was paroled, a rancher near Ritzville, Washington, for his parole until the conditions of the parole were removed.

"Despite poor food and inferior accommodations I stayed with the rancher for six months, leaving at intervals for a few days to get a full feed," said Smith.

## WHITES TRAIL REDSKIN

### SEVERAL POSSES ARE OUT TO GET "INDIAN MIKE."

### Grim Californians Determined to Avenge Death of Constable at Hands of Renegade.

BIEBER, Cal., Nov. 26.—With a posse of 45 citizens of Fall River Mills a few miles behind, "Indian Mike," a renegade, who yesterday killed Deputy Constable Blake, of Shasta County, when the latter attempted to arrest him for having shot and killed Roderick McArthur, is supposed to be heading for the lava beds of Lassen County, accompanied by his son.

Other posses from Susanville and Bieber and one from Shasta County headed by Sheriff Montgomery and Deputy Sheriff George are also scouring the country. It is believed that the Indians will be killed on sight.

Evidence obtained this afternoon shows that Mike and his son stayed in his cabin in Dixie Valley, 80 miles from the scene of the shooting, a part of last night. The cabin was found by searchers today who discovered two other children of the renegade, a crippled boy of 13 and a younger boy of 6 years in the cabin. They said that they had been brought to their home by their father and older brother.

At midnight Mike and a deaf and dumb son appeared at an Indian camp in the valley and asked for a place to sleep. They were directed to a hay stack but as soon as the other Indians were out of sight, they continued their way southward.

## AMERICAN & IDEAL RADIATORS & BOILERS

A feature which has made IDEAL Boilers so popular is their large fuel-holding fire-pots, and which are corrugated so that just the right volume of air is admitted to be burned with the fuel to produce the highest possible percentage of heat from every ounce of fuel consumed. This scientifically proportioned, correct ratio of air to fuel largely accounts for their remarkable heating qualities—just as air-mixing mantles yield highest illuminating power. It is this fuel-saving feature which causes an IDEAL Boiler to so soon repay its cost.

Besides, a large body of fire gives steady results and sure control. Once kindled the fire will not go out all winter, if fuel is added once or twice a day and ashes removed every other day. These and many other exclusive features make IDEAL Boilers and AMERICAN Radiators the most efficient and economical in the world, yet at prices now within reach of the humblest cottager and the family that has most need to economize.

A No. 2025 IDEAL Boiler and 375 ft. of 38-in. AMERICAN Radiators, costing the owner \$118, were used to heat this cottage. At this price the goods can be bought of any reputable, competent fitter. This did not include costs of labor, pipe, valves, freight, etc., which are extra and vary according to climatic and other conditions.

If you would enjoy every winter morning the joyousness and the angelic disposition of the little ones at their rising time, the only way is to warm the floors and corners of the rooms to summer softness by IDEAL Boilers and AMERICAN Radiators. ## BATTLE IS RAGING

### Italians Seeking to Drive Arabs From Oasis.

### FIRST ATTACK SUCCEEDS

### Movement Is Made to Extend Invaders' Front, and Hot Engagement With Turkish Regulars Is Reported in Progress.

TRIPOLI, Nov. 26 (2 A. M.)—An important movement is in progress, with the view of driving the Arabs out of the oasis and extending the Italian front. The action, which was begun at daybreak, was opened with an attack on Fort Meari by the Sixth Brigade, from Boumelala, on the west front.

After several hours' fighting, the Italians succeeded in dislodging the Arabs, and General Frugones, commander of the Italian forces, ordered the third division on the east front to advance toward Honni. Part of the Sixth Brigade joined the Third, taking a position so as to protect the division from attack in the direction of Ainzara and to prevent a junction of the Arabs and Turks.

At the time of filing this message, the Italian extreme right is hotly engaged against the Turkish regulars. The new front, if the movement is successful, will extend from Meari to Honni. As soon as the Italians are established, reinforcements will be rushed up to positions strongly entrenched by the engineers.
