Affront to American Prestige Is Detected in Threat to Dispatch Cossacks to Teheran to Enforce Ultimatum.

TEHERAN, Nov. 29 .- Russia's ultimatum has been delivered to Persia. She demands the instant dismissal of Morgan Shuster, the American Treasurer-General of Persia, whose administration of the department has resulted in the present complications, and indemnity for the expenses incurred in sending Russian troops to Persia.

Should the dismissal of Mr. Shuster not be carried out within 48 hours, Russian troops will march on Teheran, and the additional expenses will be added to the indemnity. It is said confidently that the National Council will not comply with the demands. Mr. Shuster in an interview today said the cancellation of his contract rested entirely with the Persian National Council. Treasurer-General of Persia, whose ad-

\$40,000 DAMAGES ASKED

Hammond Lumber Company Made Defendant in Jury Suit.

ASTORIA, Or., Nov. 29.—(Special.)
—A suit was filed in the Circuit Court today by A. E. Baker against the Hammond Lumber Company to recover \$40,mond Lumber Company to recover \$40,-900 damages for personal injuries. The complaint alleges that on June 20, 1916, the plaintiff was working for the defendant in its sawmill as an electrician, and while passing under a convoyor in the performance of his duties, several heavy glabs fell out of the conveyor, one of them striking him on the head, fracturing his skull and inflicting injuries which have incapacitated him for work since that time.

Negligence on the part of the de-fendant company in keeping its ma-chinery in proper repair is alleged. The plaintiff filed a similar action several months ago, but at the trial a non-suit was granted for the reason that in the former complaint Baker as-serted that he was working at the time for W. O. Pinger, who, the testimony showed, was not a contractor, but was merely a foreman for the company.

SEVERAL REASONS WHY THE CREDIT ORDERS ISSUED BY OUR COMPANY ARE AS GOOD AS GOLD

FIRST-Both manufacturers and dealers spend enormous sums of ney in newspaper, magazine and other advertising. For instance, a half-page advertisement in a daily paper will cost several hundred dol-lars; in a popular magazine probably one thousand dollars. In fact, a short time ago one concern paid \$1800.00 for a single double-page advertisement in four colors, in one issue of a popular magazine. So it can readily be seen how the cost of maintaining advertising for months at a time runs in fabulous sums, and why this offer can readily be made to the public. The manufacturers and dealers, combined, are satisfied that, using the same amount of money that others put in magazine and other expensive advertising, and distributing this cost in the form of Purchasing Orders among a few prospective piano purchasers, not only will we be benefited by direct results, but the customer is also benefited by this large saving which would otherwise be paid for advertising.

at an expense of possibly two or three thousand dollars per month, we only employ two or three salesmen, as we depend entirely upon customers coming to our store. We have thus been trying the experiment of dividing the savings we effect among purchasers of our pianos. We also save you the dealer's profit. We sell only direct from factory to home.

THIRD-We invite you to come and test our every statement, as to the savings we claim. Come on a tour of inspection-even if only out of curiosity-and you will find yourself well repaid for your time and trouble in proving our claim to be absolutely true. We ask you, in justice to us and to yourselves, to test the selling methods and val-ues that may be obtained in our store. No matter what inducements and terms may have been offered to you elsewhere, no matter who tells you that our Credits are not beneficial, just remember, you have your own bills to pay, and "a dollar saved is a dollar earned," so SECOND—Using the old-style selling methods, a large force of outside solicitors are employed and large amounts paid in commission every unnecessary dollar is cut out of the selling expenses at this time, to teachers, agents, etc. Also, instead of employing 15 or 20 salesmen | causing you a positive saving of at least one-third of your piano money.
