Eastern Hop Dealers Operate in Southern State.

PURCHASES ARE EXTENSIVE

Cheaper Class of Goods Available There Than in Oregon-Local Trading Is Light-Conditions in England.

Eastern hop dealers have turned their attention to California. A wire received yes-terday reported the purchase of 1000 bales of mediums at prices averaging 41 cents. or measures at prices averaged of a simi-lar quantity on Tuesday. These extensive transactions have reduced the stock of hops in growers' hands in California to about 7000

counted for by the fact that a cheaper grade of hops is available there than in Oregon. Here, nothing of a marketable quality is to be had under 43 cents. The transference of the market to Call-fornia will have no had effect on the situa-tion locally. The best grade of hape is to

be had only in this state, and when the poerer California hops are out of the way, the Oregon market should be stronger than Bents hought a 20-bale lot from Otto Knorr, of Aurora, at 45 cents. An 80-bale lot of choice independence hope was sold at 45

ents.
Market conditions in England are reported

Imports of hops last week, 5685 cwt.; In

erresponding week 1910, 6900 cwt. Exports ast week, 1623 cwt. corresponding week 1910, 0900 cwt. Exports last week, 1622 cwt.

The supplies of new hope are getting more restricted every week, and holders are syking still higher prices. Some will not entertain present offers, even though these show an advance of quite 10s per cwt. on the week. Where sales are effected the range of values is from \$12 13s to \$11 for East Kents; \$11 15s to \$12 for Mid-Kents; \$11 to \$12 for Weides; \$11 to \$11 lis for Sussex; \$10 15s to \$11 15s for Farnhams; and \$11 5s to \$12 5s for Worcesters. There is an active inquiry for Beiginas and old English or anything that can be obtained at 10s figures. English yearings are offered at \$6 15s to \$19 16s, and old olds at the figures.

misrbury on Saturday factors quoted ers \$11 15s to \$12 10s as the price for hest qualities.
There was no new feature at Worcester,
where very few hops were on offer, merchants having great difficulty in meeting
their requirements. Full prices were readily
paid for all grades.

REPTNERIES LOWER SUGAR PRICES Yet Down to the Local Jobbing Quotation.

effnery prices of sugar have been duced another 10 cents, but the refinery list is still a dime above that quoted by the ecal jobbers. It is expected there will be another cut of 10 cents in refinery quota-lors today, and after that the local market will follow closely any changes an-nounced by the refiners. Some interesting figures on the European

rugar beet situation are given in the November bulletin of the international insti-ure of Agriculture. They show an increase the area planted this year over last year in the area planted this year aver last year, the acreage in 1010 being 1.251.146 hectares and in 1911, 1.357.128 hectares. The pro-duction this year, however, is only TL3 per cent of last year's. The yield, in quintals, of the several countries follows:

Condensers Cut the List in Order to Work

Off Surplus.

This would seem to be a good time, no early for the retailer, but also for the consumer, to lay in a supply of condensed milk A series of price cuts has been made hithe manufacturers, which has brought th market down to a very reasonable basis One brand was offered yesterday at \$3.5 in single cases and \$3.45 in ten-case lots

and no kind was held over \$1,40.

The reduction was made in order to wor off the surplus held by the condensors. The perduction in October was unusually heaven't he manufacturers found they wer carrying more stock than convenient.

JAPANESE ORANGES AGAIN PLENTIFU Large Shipment Arrives and Is Quote Lower Than Pirst Lot.

A large shipment of Japanese oranges about a car and a helf, was received yes tarday. They were quoted lower thus the first shimment, at \$1.40 a bundle, first shipment at \$1.40 a bundle.

Ripe bananas were scarce, as only three cars arrived this week. No more are due until Monday, owing to the delay in forwarding at the gulf port.

There was a good demand for apples of all grades at firm prices. Citrus fruits also moved well. Navels were firmer in California.

Active Issues Close the Day With Losses of a Point or More-Wabash Securities Touch New Low Records Bonds Heavy.

NEW YORK, Dec. 7.—The movement of nearly duplicated those of the previou days of the week that the market appeared to have fallen into a rut. Trading was listless and without initiative.

Towards the close bears repeated their earlier tactics, bringing the session to an end with a sharp attack, which depressed notices.

end with a sharp attack, which depressed prices.

Among the active stocks—Union Pacific. Reading, Lehigh Valley and Amalgamated Copper—were forced a point or more below the previous day's close.

Maintenance of call money rates at higher figures was regarded as an important factor in governing trading. The ruling rate for call funds was six per cent, although some loans were placed as high as 5% per cent. Time money was also firmer. The rates for 60 and 80 days equaled the highest rates of a year ago this month, while call money did not rise above 3% per cent in December of 1910 until the last week of the month, when it louched T per cent.

Further selling of inactive industrials, such as has been in progress for several days, resulted in some substantial losses. After Allis Chalmers preferred had established a new record today by declining to 7, it became known that the first step had been taken looking to a possible reorganization. RELIABLE SPECIALISTS MEN'S MISTAKES

Many a bright and promising career has been blighted by injurious habits before the age of knowledge and understanding, and many have been cut short by the unfortunate contracting of some poisonous special silment, which through neglect or improper treatment has completely undermined and shattered the physical strength and manly faculties. No. greater mistake can be made than to consider lightly the first evidence of the introduction of any special aliment into your system or to neglect the first symptoms of weakened mind and approach of Nervo-Vital Debility, caused by improper habits, excesses, dissipation, etc.

Such indifference and neglect of the first symptoms are responsible for thousands of human wrecks, failures in life and business. Men, why take such desperate chances? The manifestations of the first symptoms of any aliment or weakness should be a warning to you to take prompt steps to safeguard your future life and happiness. You should carefully avoid all uncertain, experimental, dangerous or half-way treatment, for upon the success of the first treatment depends whether you will be promptly restored to health again, with all taint of the poisonous alliment removed from your system, or whether it will be allowed to become chronic and subject you to future recurrences of the ailment, with the various resulting compilentions, etc.
