MINNEAPOLIS MAN TELLS HOW

Acting Secretary of Bridge Workers Association in Consultation With Prosecutor in Charge of Work.

INDIANAPOLIS, Dec. 15 .- Government officials who are co-operating with United States District Attorney Miller in conducting the investigation of the dynamite conspiracy before the Federal grand jury learned from two sources today, the details of explosions in which it is said others than the McNamaras were implicated.

McNamaras were implicated. W. E. Griffin, chief of police of Kan-sas City, Mo., who had knowledge of five explosions in Kansas City, was questioned about certain facts, which, it is said, had not heretofore been re-vealed. These explosions, all directed against structures erected by firms emploging non-union men, occurred from 1968 to 1910. As not more than two of them were confessedly the work of Ortic McManigal, Chief Griffin's information was sifted to ascertain who else might have destroyed the property.

#### Records Prove Important.

Much important testimony bearing on the records taken from the headquarters of the International Association of Bridge and Structural Ironworkers was obtained from Miss Mary Dye.

Until several years ago, Miss Dye was confidential accretary of the Iron-workers' headquarters, and as such had much to do with the correspondence of J. J. McNamara, the secretary-treas-

urer. Mrs. Andrew J. Hull, former book-keeper in the McNamaras' office, also visited the Federal building. Many hotel clocks from various parts

Many hotel clerks from various parts of the country have been subpensed to tell what they know of the movements of McManigal when he was on his ex-ploding expeditions. The hotel men are expected to corroborate McManigal's confession, wherein he described cor-tain visits to towns with a suitcase filled with dynamite or nitroglycerine.

#### Union Officials Not Opposing.

Enton Officials Not Opposing. It was intimated that the Ironwork-ers' Association officials were not op-posing the Government's efforts to ex-pose all implicated in the dynamiting, the fact being pointed out that H. S. Hockin, acting secretary of the asso-ciation, again conferred with United States District Attorney Miller. It was while Hockin was absent that were taken from the beadquarters. Hockin refused to say they were there with his consent. About 5000 pa-pers are to be digested for the benefit of the grand jury. NEW YORK. Dec. 15.—Theodore Roosevelt has an editorial article in the current issue of the Outlook, relat-ing to the McNamars case, entitled "Murder Is Murder." The article says: "Not only laboring men, but business men and capitalists, have at times shown the worst form of class con-sciousness—that of sinister and brutal class selfishness in standing by crim-inals simply because they were of their own class. Plea of Apologists Monstrous. "Since the startling outcome of the McNamara trial certain apologists of these men have made themselves con-spicuous by asserting that these de-praved criminals, who have on their seared souls the murder of so many in-nocent persons—all of them laboring people, by the way.—are 'victims' or at worst 'fanatics,' who should receive sympathy because they were acting in what they regard as a 'war' on behalf of their class. Yet, great though the menace is to the community, the menace to the cause of honest organized labor is still greater; and no duty is more

Four nights later a vinduct being built by an "open-shop" iron concern at Hoboken, N. J. was blown up. In McManigal's statement submitted
