Trade is quiet, mainly because of the in-creasing demands of holders, who are not way satisfied with prices and will not, there-fore, enter into negatiations. The tone of the market is very firm and it seems im-massible for values to recede. Yourtings and olde are inquired for, but the apply is very limited. Americans maintain recent quotations and are not present for sale. At Worcester the trade is necessarily re-stricted, owing to the few lofs remaining in growers' hands. Rates Do Not Rise on Last Loaning Day of Year.

Funds Sent to New York From Interior in Expectation of Higher Terms for Call Loans-Strong Points in Stock List.

NEW YORK, Dec. 22-A few points of decliled atrength appeared in today's stock market. The movement, as a whole, was not large. In the fore part of the day Reading, Lehigh valley, St. Paul, Union Pacific and United States Steel in particular showed the effects of pressure exerted by the bears in the expectation of continuing the decline of yestorday. The list developed increasing strength as the day progressed.

the decline of yestorday. The list developed increasing strength as the day progressed.

The stocks which showed pronounced strength were issues which seidom take a prominent part in trading. Rock island preferred rose three points and New York Contrai nearly as much. The advance in the latter stock was streftsted to advance in the latter stock was streftsted to advance in the latter stock was streftsted to advance in the projected consolidation of the company with controlled lines.

Interborough Metropolitan stocks and bonds developed strength, owing to the belief that the company would receive additional subway franchises. Mackay companies were deddedly weak, although it resovered most of its loss of 4h points before the end of the day.

Conditions in the money market were of unusual interest, owing to the fact that this was the last loaning day of the year. There was no hint of the year-end flurry which is often experienced. Call money did not rise shows a per cent, as compared with 7 per cent on the last loaning day of 1919. In Berlin, from 12 to 20 per cent was paid.

The week's known novements of money point to a cash gain by the local banks of \$10,000,000 to \$15,000,000 to \$15,000,000 to stations of the pear. Virtually all of this money comes from interior points having been deposited here in expectation of siffer money rates at the close of this week's early in the coming year.

The bond market was irregular. Wabash as and local traction bonds were higher. Total sales, per value, \$5,041,000. United States 4s, coupon, declined hy on call.
