

GOTHAM CHINESE ARE 'VELLY HAPPEE'

Not a Queue Is Seen; American Shoes Adorn Dr. Sun's Republicans.

PATRIOTIC ANTHEM SANG

Old Joss House in Mott Street, New York, Rechristened Public Hall, Rings With Voices of Celestial Children.

NEW YORK, Jan. 1.—A celebration of the establishment of the Chinese Republic, coincident with the inauguration of its first President, was held in Chinatown today.

Flag Brings Cheers. The hoisting of an enormous flag of the new republic on top of the old joss house was the signal for cheering which would have done credit to any American football crowd.

More than 500 of the new Chinese flags were displayed in the district, together with portraits of the new President. There was a parade through the district and speechmaking at the public hall. The shops contributed almost their entire supply of fireworks.

REPUBLICAN MAKES ERROR

Much Depends Upon Whether Fighting at Hankow Was Authorized. PERKIN, Jan. 1.—Dispatches from Hankow say the fighting there between the revolutionists and the imperialists, which began last evening, was renewed this morning by the Republicans.

More than 500 of the new Chinese flags were displayed in the district, together with portraits of the new President. There was a parade through the district and speechmaking at the public hall.

The Daily News, the organ of the foreign office, presses in an article printed today that the Republicans and imperialists save the country from anarchy by forming a united government, which shall control all the units.

It is said the reason the Imperial Princes have refrained from donating large sums of money to aid the government is that they felt the government is a hopeless one and also because some of them seriously distrust Yuan Shi Kai.

NOBLEMAN'S COIN DEMANDED

Commandeering of Princes' Wealth Is Sought by Imperial Generals. PARIS, Jan. 1.—A special dispatch to the Paris edition of the New York Herald from its Peking correspondent says that Yuan Shi Kai, the Premier, will present to the throne tomorrow a signed demand of all the commanders of the northern army that the wealth of the Princes and nobles be commandeered to continue the war.

The memorial characterizes the dictatorial attitude of the revolutionists as unbearable, expresses loyalty to the monarchy and a desire to fight the issue to a finish. It insists that unless the Princes contribute they shall be treated as traitors. It is said that if the memorial is rejected by the throne, Yuan Shi Kai will insist that his resignation be accepted.

Dr. Sun Goes to Nanking.

WASHINGTON, Jan. 1.—The departure of Dr. Sun Yat Sen, President-elect of the new republic of China, from Shanghai for Nanking, where his inauguration is to take place, is announced in dispatches received at the State Department today.

TIMBER GAMBLING IS HIT

Forest Service Would Put End to Speculation. WASHINGTON, Jan. 1.—Efforts by the Forest Service to prevent speculation in Government timber and to protect the public against monopoly prices are shown in a new plan which has been adopted for making timber sales in National forests. This plan provides for periodic revision of stumpage prices.

In view of the general upward tendency of stumpage prices, forestry officials say that long-continued contracts based on present prices would be a strong incentive to speculation.

The first bids advertised under the new plan are for 75,000,000 board feet in the Tahoe National Forest of California, with a ten-year period in which it all must be cut. This deal will involve the construction of 20 miles of railroad.

During the past fiscal year more than \$30,000,000 board feet of National forest timber were sold, and this year, it is estimated, will show a considerably higher total.

"DRYS" TO GET BUSY

CAMPAIGN WILL BE WAGED IN WASHINGTON AT ONCE.

Agitation to Continue Until Next November in Nearly 100 Cities in State Is Announced.

SPOKANE, Wash., Jan. 1.—(Special.)—Almost immediately after January 1 festivities have subsided and while New Year's "never again" oaths are still fresh and unbroken, the Anti-Saloon League will start a state-wide campaign to win the next November.

This year is different from all previous ones in that all local option elections will be held simultaneously on Tuesday, November 6, in November. A locality that votes "wet" this year must remain so until November, 1914, and the same applies to counties that may be added to the dry column this year.

Lewis R. Horton, Eastern Washington superintendent of the League, criticized a most interesting lecture to one of the classes, starting in with the round shot and charcoal powders, he traced the evolution of powder and shell to their present scientifically developed destructive possibilities.

HATES HANG ON DECISION

Controversy Over Government Control to Be Settled. WASHINGTON, Jan. 1.—To straighten out some of the kinks in the jurisdiction of the new Commerce Court and of the Interstate Commerce Commission will be one of the first tasks to confront the Supreme Court when it convenes January 3.

One of the ticklish problems for the Supreme Court to decide is whether the Commerce Court has power to review decisions from the Commission in which the complaining shipper is denied redress. It has been argued that the court is open only to a defeated railroad, though the court has ruled otherwise.

Another cause of contention is the Supreme Court's power to review the Commission's orders, while it reviews their merits. This particular point will be argued in the Supreme Court when it convenes January 3.
