HARMON SIGHS FOR HOUR OF JACKSON

Democratic Candidate Criticises Taft for Signing Tariff Measure.

TRUST POLICY ATTACKED

Protected Manufacturers Declared to Receive Three Dollars for Every Dollar Paid to Government in Duties.

EAST ST. LOUIS, III., Jan. 12-"Oh, for an hour of Andrew Jackson." This slogan, figuratively a wish for the resurrection of the tariff and emic policies of President Jackson, ummarized the views of Governor Harmon in a speech tonight before the Democratic Club here. The occasion

was the celebration of the 100th an-niversary of the battle of New Or-

isans.

"Jackson urged a gradual reduction of tariff taxes," said the Governor, "especially on necessaries, at a time when they were levied mainly for revenue. When recently we saw a President led against his just inclination to sign and praise a tariff bill which broke his own and his party's promise of reform and then in the face of his express admissions, veto bills for reduction of tariffs by Congress under direct command of the voters of the entire country, people everywhere exclaimed, as they did in the days of the vaccilating Buchanan, 'Oh, for one hour of Andrew Jackson.'

Tax Power "Farmed Out."

Tax Power "Farmed Out."

The Governor attacked the financial policy of the last three Republican administrations as having increased the Federal outlay from \$1,000,000,000 every two years to more than \$1,000,000,000 and \$1,000,000 and \$1,000 Federal outlay from \$1,000,000,000 every two years to more than \$1,000,000,000 every two years to more than \$1,000,000,000 a year. He devoted most attention, however, to what he described as "one of the worst abuses known in history"—arranging tariff taxes so as to enable favored manufacturers to collect from the public a much larger sum than one billion dollars for their own benefit. "According to reliable estimates," he said, "for every dollar the Government receives on articles imported, the favored manufacturer collects \$3 above the normal prices of like articles from

"Now, we find the business of the entire country disturbed and halting because this system of favored taxes has brought its certain results. Unnatural competition was stimulated by those and their suppressed by the fornatural competition was stimulated by these and then suppressed by the for-mation of trusts and combinations in order that dividends might not cease on stock which was the capitalization of this special advantage. Instead of cut-ting off the source by reforming the tariff, it was sought to control the stream by forbidding these trusts and combinations.

Court Enforces Trust Laws.

"The Supreme Court first enforced the anti-trust law. It was in a pre-ceeding by the Government against the trans-Missouri Freight Association. Soon after it did the same in two other cases against the joint traffic association and the Addystone and other pipe companies. By these cases, the Democratic Attorney-General's office, which I had the honor to occupy, cleared the farming. ray for the enforcement of 1 way for the entertaint of the cases which preceded these. And the country was made to believe for a time that this state of things was prosperity. It is said that an ounce of prevention is worth a pound of cure. In this instance it would have been worth a top for the pound of cure. In this instance it would have been worth a ton, for the sherman law was distinctively a pre-
