MRS. EDWARDS FUNERAL HELD.—The funeral of Mrs. Jane Edwards, of Eugens formerly a well-known resident of Portland, who died in Eugene Monday, January 8, was conducted yesterday afternoon at the Sellwood Crematorium. Mrs. Edwards was a native of Milwaukee, Wis., and with her husband, Captain R. L. Edwards, came to Portland in 1858. Captain Edwards was identified with the American Book Company. The Edwards home on Portland Heights was the scene of many social and musical entertainments. Mrs. Edwards was prominently identified with the Patron Home and the hospitals and other chariffies and philanthroples. Eight years ago the family removed to Alameda, Cal. Mrs. Edwards was in San Francisco at the time of the effithquake and the shock sustained at that time is thought to have been indirectly the cause of her death. For the past year the family has made its home in Eugene. Mrs. Edwards is survived by her husband, a daughter, Miss Elouise Edwards, and son, Gordon Edwards. They will make their home in California.

LIVELY GAME LAW TALKS EXPECTED.—At the dinner of the Oregon Fish and Game Association to be held at the imperial Hotel Monday evening, several amendments to the fish and game laws are to be discussed. A number of suggestions have been made to the State Pish and Game Commission, such as a proposed law prohibiting the use of salmon eggs for bait, which, it is expected, will be opposed by fishermen throughout the state. Other suggestions include the forbidding of baiting ducks and a reduction of the week's limit from 35 to a smaller number. Among the changes proposed is the making unlawful of the use of pump or automatic guns for the shdoting of ducks, while the maximum number of ducks proposed under the new law may ducks, while the maximum number of ducks proposed under the new law may be 15. Applications for tickets have exceeded any former effort on the part of the association to get the sports-men together for the purpose of dis-cussing game conditions with the mem-bers of the commission.

Standard and Union Agents to Raise Prices--Companies Likely to Build South or East of City-90 Days Grace Are Given.

Mayor Rushlight has not yet deided whether he will sign or veto an rdinance passed by the City Council last Wednesday virtually driving the Standard and Union Oil Companies out of Portland by its stringent terms. He said yesterday that he has not yet read

the measure, but that he will give it his attention as soon as it is laid be-fore him by the City Auditor. If the Mayor signs the ordinance, it will become effective in 30 days from the date he signs it. It gives the com-panies 90 days in which to comply with its provisions, but it is probable they will take action at once to obtain new sites outside the city. It is understood that neither of the companies will make any effort to locate inside the city limits, as it is said each feels that the city has the right to force it out if it

Price Advance Due. As was announced officially by th agents of the Standard and Union Oil companies before the passage of the ordinance, in the presence of the members of the Council, the price of oil will be advanced to meet the increased cost of delivery, in case the law becomes effective and it is necessary to transport the oil from some outside point. The rate of increase per gallon has not been made public as yet, but it will become effective, it is understood, within a short time after the Mayor signs the ordinance, if he does sign it. agents of the Standard and Union

nign it. The provisions of the ordinance, which the Council passed at the recommendation of Councilmen Watkins and Maguire, members of the health and police committee, are so stringent that they are said to make it impossible for the oil companies to do business under them. One requirement is that all stor-age tanks must be 3000 feet from the present harbor line.

Act Forces Firms Out, This 3000-foot provision alone, it is said, is sufficient to drive the com-panies out of the city, as no location on rallroad tracks can be had without conflicting with another provision which prohibits tanks within 500 feet of any residence and 200 feet from any other

building.

As it seems probable the city limits will be extended within a comparatively short time to take in all the territory to the north between Linnton and the Columbia River, it is believed the oil companies will locate either to the east or south of Portland. From their new plants they will haul the supply into the city and, to defray the extra expense, will add to the prices of all grades handled by them.

CHILD'S DEATH QUESTIONED

Suspicion Aroused by Condition of Little Girl's Body.

Broken bones in the bedy of a dead child, 10 months old, whether fractured by violence or through a diseased condition of the bone, have led Coroner Norden to delay the burial of Dorothy Linton, daughter of Walter Linton, a machinist living at 735 Brooklyn street, and an inquest will be held today to determine the cause of death.

Dr. R. C. Yenney, who made an autopsy for the Coroner, while deferring judgment, finds nothing in the condition of the child's body to show beyond a reasonable doubt that it suffered from violence.

Soon after the child's birth she was entrusted by the mother to a woman friend. Recently the child was returned, but, according to neighbors, the mother has repudiated her, saying that another babe was brought back in Broken bones in the body of a dead

mother has repudiated her, saying that another babe was brought back in place of her own. These reports are refuted to a degree by the pitiful display of grief made by the partents in the presence of undertakers.

Coroner Norden reported his findings to detective headquarters and Detective land.

Hyde made an investigation. He scouts the idea of foul play. Coroner Norden, on the other hand, is dissatisfied with the efforts of the police, and will press the investigation vigorously.

SMYTHE AWARDED \$1600 Jury Sets Balm in Sult Against Rail-

road for \$60,000.

Dan P. Smythe, who sought \$50,000 damages from the Northern Pacific for personal injuries received while conducting a stock car from Athena to Tacoma, was awarded \$1500 by a jury in the United States District Court yesterday.

The case went to the jury at 4 o'clock Thursday afternoon, with instructions for the deliberators to return a scaled verdict if they had agreed by 5 o'clock. After the first discussion in the jury-room and before a ballot had been taken it developed that all the jurors were satisfied the plaintiff was guilty of contributory negligence and carelessness, and several thought there should be a clean verdict for the decarelessness, and several thought there should, be a clean verdict for the defendant. A little later the opinion prevailed that as the plaintiff had been crippled permanently he should be at least given sufficient to pay his doctors, hospital expenses and the costs of the suit. On this basis the amount of \$1600 was agreed upon, and at 5:15 e'clock the sealed verdict was placed in charge of the clark after the verdict had been of the clerk. After the verdict had been read, the counsel for the plaintiff was granted 30 days within which to pre-pare a motion for a new trial.

TRADE COMMITTEE TO MEET

Portland as Receiving Port for Alaska Held Profitable.

G. F. Johnson, C. S. Jackson, Phil S. Bates, C. C. Chapman and J. F. Kinder who, with Mr. Larson as chairman, con-

who, with Mr. Larson as chairman, constitute the committee which the Progressive Business Men's League has appointed to work on the project to secure a steamship line between Portland and Alaska, will meet in the Governor's room at the Commercial Club Monday noon to begin work.

E. H. Dedge, vice-president of E. J. Dodge & Co., of San Francisco, says that he believes Portland business men could, if they combine and send representatives to Alaska, secure enough business to warrant the establishment of a line for direct service to Alaska from Portland. If Alaska is opened to development he believes that Portland, by securing a boat line now, can be in a position at that time to step in and make itself the principal receiving port make itself the principal receiving port for Alaskan coal and oil products. Mr. Dodge intimated that if 200 tons of freight could be guaranteed for every trip north, his own company might be willing to undertake the establishment of the steamship line.

EMPRESS PLANS SHOWN

Architect for New Theater Says New Playhouse Will Be Best Possible.

Lee DeCamp, supervising architect for Sullivan & Considine, arrived in Portland Thursday night from Seattle with a set of drawings for the new Empress Theater. Mr. DeCamp an-nounced that the plans for the new Playhouse will be ready soon and that

the contract for the construction will be let some time this month. Present plans show that the theater will be one of the finest and largest in the Northwest and will cost approximately \$250,000. The site for the theater is at the northwest corner of Seventh and Yamhill streets, purchased recently for \$325,000.

Mr. DeCamp expects to remain in the city for a few days, but when the contract is let he will return and make his headquarters here until the building is completed.
