# MARKET FISHING **CURBED BY BOARD**

Season for Netting in Willamette Also Fixed to Agree With Columbia Opening.

### HATCHERY MAY BE BUILT

Benham Falls on Deschutes River Suggested as Place to Establish Plant--Egg Problem Is Held Important Factor.

All Oregon streams flowing into the Columbia River between Hood River and the sea, with the exception of the Willamette, are to be closed to commercial fishing, while the salmon fishing season on the Willamette is to coincide with that on the Columbia. This was the action taken yesterday by the State Fish and Game Commission at the meeting held in the office of State Game Warden Finley in the Yeon building.

This means that the Oregon City This means that the Oregon City fishermen will no longer enjoy the two weeks' handicap they have heretofore had over the Columbia River netters and that all other streams, including the tributaries of the Willamette, are

to be preserved for the angler alone.
The action of the Board was based on the law which gives the Commis-sion power to close all streams to com-mercial fishing in which fish are be-ing propagated. Fish have been planted in all of these streams.

Additional Hatchery Urged.

This action has long been desired by the anglers of Portland and other lo-calities, but it is presumed that the Oregon City gill-netters will not look with approval on the order. The Commission also gave favorable

consideration to the report of Super-intendent Wilson, showing the feasi-bility of establishing a hatchery on the Deschutes River at Benham Falls. He said this was a very favorable location and racks could be placed in the river and preparations made for the taking of trout from which to secure eggs for the Bonneville and other hatcheries. It was finally decided to postpone

definite action until better weather ar-rived when the Commission will go up the Deschutes River and make a per-sonal examination of the site and sur-Game Warden Finley, through his deputies, is to take the temperature of the stream and secure other data desired by the Commission before ordering the struction of racks.

Fish Eggs Scarce.

The great difficulty which the Compropagation of trout is the scarcity of fish from which to secure the neces-sary eggs. Superintendent Wilson be-lieves this difficulty can be largely overcome by the establishment of a plant at Benham Falls and the sportsmen of the state who have been co-operating with the Commission in this work probably will be delighted at the

Another action taken by the Commission which is of particular interest to Portland anglers was the appropriation of \$25 for the stringing of a wire cable across the Willamette, marking the deadline below the falls. The consent of the War Department must first be obtained, but the money is now available and the wire will be stretched has been at the hospital since early in across as soon as the consent of the July, department has been obtained and it is believed there will be no objection.

# GOVERNOR TO AID CHARITY

West Speaks Friday at People's Theater for Baby Home.

For several days past the People's Amusement Company has been exhibit-ing at the People's Theater, this city, an educational film showing the frip which the Western Governors made to An invitation was extended Governor Oswald West to attend a per-formance and see himself as others saw him through the medium of motion pic-

The matter was taken up by the Governor himself and Melvin G. Winstock for the theater, and yesterday arrangements were consummated by which Governor West agreed to appear at the People's Theater Friday evening, January 19, and to deliver an address on his remarkable trip. Before consenting, however, to com-

ply with the request of the People's, he named a condition, which was that he would do this if the People's Amusement Company would give a benefit performance for the Portland Baby Home. The management very promp-ly took the Governor at his word and has notified the committee of the Baby Home, consisting of Mrs. D. C. Burns, Mrs. Henry Ladd Corbett and Mrs. David Honeyman and other benevotent ladies of this city, of the arrangement and asked for their co-operation. Governor West has agreed to be at

the theater for the 5 to 9 o'clock show and arrangements will be perfected whereby a representative of the Baby Home will be in charge of the box office of the theater for the benefit performance. Not only will the affair be of interest by reason of the charity side of it, but the remarks of Governor West cannot fail to be of great interest to the public at large, as the trip East for Oregon was not only unique in Nafor Oregon was not only unique in Na tional history, but it did much to at-tract new interest in Oregon as one of the greatest and most prosperous com-monwealths of the Nation.

CARPENTER CONFINED TO BED WITH PARALYSIS.

Wife and Three Small Children Are Dependent on Help of Kind-

ly Neighbors. Bed-ridden for more than five months

with a form of paralysis that has baffled the skill of several physicians, his family and himself brought to the verge of destitution. O. A. Ratilif, a carpenter, living at 1105 East Twenty-seventh street North, is able to face the future bravely in the belief that before long he will be restored to health.

Through the help of neighbors and friends the family has been cared for

since their funds gave out. Mrs. Rat-liff, whose health is poor, is assisted in caring for the helpless man through the kind thought of several women living near by, and of their efforts and those of many other kindly disposed persons Mr. Ratliff is deeply apprecia-

The Ratliffs came to Portland las April from Oswego, where they had lived for the past seven years. Prior to coming to Oregon they lived in Illi-nois. Mr. Ratliff followed his trade continuously until last July, when he became afflicted with paralysis. Af-ter endeavoring to keep at work his condition was such that he was obliged to take to his bed in September. He was for a time in the Multnomah Hos-

pital but returned home a few weeks ago.

There are three children in the family, a girl of 8, another of 5 and a boy of 2. Mr. Ratliff's condition is thought to be in part due to overwork during a recent illness of his wife, when he attempted to care for the home in ad-dition to his work as a carpenter. Mr. Ratliff expressed his appreciation of Ratiff expressed his appreciation of the kindness of an anonymous donor who sent him \$10 yesterday. Members of Engine-house 14 have assisted the family by providing needed supplies, as has Patrolman Burstow, of the po-lice department, with a supply of fuel.

Committees Are Appointed. The committees in charge of the re-

union are as follows: Reception, C. A. Dolph, 23rd degree, honorary; General T. M. Anderson, 33rd degree, honorary; W. Lowe, 23rd degree, honorary; W. that no measure shall have my support which does not have their indorsement, and dates. B. G. Whitehouse, 33rd degree, which does not tend to their improvement. 

A feature of the reunion will be the address by E. G. Jones, on Saturday morning at 11 o'clock, before the as-sembled Scottish Rite bodies of Oregon. the visiting delegations from other states, and the new members of the class, on the "Higher Philosophy of the Scottish Rite Degrees." This lecture covers the symbolisms and the allegorical teachings of the degrees of the Scottish Rite, and in part of the de-grees of the blue lodge, and it will be made of great interest to Masons gen-

P. S. Malcolm at the head of the Scot-tish Rite Masonry in Oregon, directs that candidates for the degrees of the body report at the cathedral tomorrow morning at 9 o'clock for registry and for drill. The work of the session will begin promptly at 10 o'clock,

Programme Is Completed.

The programme in full, of the three ays' session is as follows:

Gaya seasion is as follows:

Thursday—9 A. M., candidates report to secretary for registration and to class conductor for organization and for drill; 10 A. M., fourth degree, J. Frank Drake presiding, to be followed by the sixth degree, Dr. E. A. Pierce presiding; 2 P. M., ninth degree. Adrian McCaiman presiding; 3 P. M., fourteenth degree, Colonel R. A. Miller presiding; 8 P. M., fifteenth degree. Thomas McCusker and Issae White presiding.

ing.

George T. Cochran, Candidate, Favors Irrigation Change.

RECORD RECITED

Experience in Philippine Islands Held as Qualification by Congressional Aspirant.

of his candidacy for the Republican nomination for Representative in Congress from the Second Congressional District, George T. Cochran, of La Grande, Water Commissioner for Eastern Oregon, yesterday issued a statement of principles on which he will seek his party's nomination for this office. Following his formal announcement

Briefly, Mr. Cochran advocates leg-Briefly, air. Cochran and Cate least is a tight on that will solve the irrigation problem of Eastern Oregon, a practical Alaskan policy, a more liberal public land policy and a continuing appropriation for the Cellio Canal and the opening of the Columbia River. Mr. Cochran's statement follows:

ran's statement follows:

I have definitely decided to seek further to serve the people of my state as their Representative in Congress from the Second District. My present position as State Water Superintendent has brought me in touch with the needs of this district, and I thoroughly believe I can render my constituency more beneficial service by this advancement.

Platform Set Forth. A solution of our National irrigation prob-lem, an Alaskan policy that will permit of present as well as future benefit, a more liberal public land policy for the develop-ment of our srid lands and the benefit of the home builder, and a continuing appro-priation for the Cellio Canal and the open-ing of the Celumbia River, will have my

priation for the Columbia River, will have my earnest support.

I am no stranger to public service. Three years were spent in the Government service in the Fhilippine Islands, which gave me personal knowledge of conditions on which to base a proper policy with reference to our insular possessions.

I have been over Eastern Oregon thoroughly, fuiffilling my duties as Superintendent of Water Division No. 2, and have carefully observed the needs of Eastern Oregon in the solution of the problem of its future development, the extension of its irrigated area, and the encouragement of further settlement of our public lands.

As I have been a progressive Water Superintendent and have sought to apply the public waters of the state so as to make two blades of grass grow where one before has grown, I am also a progressive Republican, and I pledge the people of my state that no measure shall have my support

which does not have their indorsement, and which does not tend to their improvement.

Homestead Ameadment Pavored.

The people of Eastern Oregon are aware of the difficulty of the homesteader upon the public domain, to earn a living from the homestead for the entire period of five years. I believe that the homestead law should be amended so as to permit each homesteader to enter at least 320 acres, and that the residence requirement should be reduced to three years. This is partially true of other sections of the Western states, and no good reason appears why Oregon should not have the benefit as well. Purther, every man should have a right by law to leave his homestead for six months out of every year, to work for the support of his family if he so desires.

I believe an Alaskan policy should be no framed as will develop that country at the expense of neither the present nor the feutre, but that the people of the present generation, as well as of the future, should have the moral right to enjoy the benefits derived from its vast storehouse of natural resources.

Personal Prosecution Urred. Personal Prosecution Urged.

I believe that guilt is personal, and when any man or class of men shall seek to corner the markets, and fix the prices on any commodity or article in violation of law, that such a man is a criminal and no distinction should be made on account of position, place or power. In my opinion, our present law against trusts, monopoles and combinations is entirely insufficient. You may dissolve the corporation, and in name "bust the trust." but the combination still remains, for the men who formed that combination still exist.

It is necessary, therefore, to have some

combination still exist.

It is necessary, therefore, to have some National regulation that will prevent overcapitalization, watered stock and the arbitrary fixing of prices, and all those things which render the trusts obnoxious to the rights of the common people. Experience has taught us that there is no philanthropy in monopoly, and that the distinction between good and bad trusts is a flotion only. A beneficent policy today may easily be an oppressive and injurious one tomorrow, and the law should be so framed as to be a constant protection to the people, and a plain definition of business rights.

## SEWER EXTENSIONS URGED

Adequate Facilities on West Side Important, Says Writer.

PORTLAND, Jan. 13.—(To the Editor.)—
As a citizen and taxpayer, and one who has had some experience in the operation of our municipal government, I desire strongly to commend to the favorable consideration of the citizens of Portland three proposals put forth by Mayor Rushlight in his recent message.

First—The purchase of Ross Island for general municipal purposes.

Second—The installation of a municipal repair plant for hard-surface streets.

Third—A trunk line sewer from the hills on the south to Nicolal street on the north, to take cure of the sewerage problem of the Wess Side.

to take cure of the sewerage problem of the West Side.

In this connection, I desire also to inderese Councilman Baker's proposal to build a concrete seawall on both sides of the Williamste from Ross Island to Swan Island. The only suggestion I would make in the premises is one that I made when a member of Mayor Simon's Executive Board: I would build the West Side trunk sewer recommended by Mayor Rushlight at the same time and in connection with and immediately back of the seawall proposed by Councilman Baker and I would install a similar trunk sewer on the East Side behind the seawall on that side of the Williamstet Biver.

To my mind, the problem of adequate sewerage facilities for the City of Portland transcends in public importance the problems of parks, auditorium, bridges, deepening of the Columbia River, the improvement of the Columbia River bar, the Oregon City looks, the Cellio locks, or any or all the great public questions that concern us locally. The sewerage conditions on the west side of the Willamette River today are a menace to the nealth of every resident of the City of Portland.

I have in my possession a map, prepared at my request by the City Engineer's office during Mayor Simon's administration, showing the length, size and character of materials of every sewer in the City of Portland on the West Side of the Willamette River. These sewers were built to take care of the sewage of a scattered residential city. There has grown a great metropolitan community, and it is worse than folly—it is suicide—to attempt to take care of the sewage of the great office buildings, apartment-houses and hotels of the present West Side with sewerage facilities that were constructed in the '80s and '90s. Just as sure as Mayor Rushlight's advice on this subject is not heeded the City of Portland will be inviting the pestilence which is sure to coms. The City of Baltimore has recently agent \$20,600,000 in the construction of a modern sanitary sewer system. The City of Portland should take some similar steps without further delay.

As to the purchase of Ross Island—this is simply a wise provision, not only for the present and the immediate future, but for the inevitable growth of this city into a municipality of a million people, which is sure to come. We must have a centrally located headquarters for all of the enginery of municipal administration, and no more economical or practical place could be selected. The construction of a seawall around the Island, in conjunction with Councilman Baker's seawall along the sides of the river, would enable all of the lewland to be reciaimed and such portlon of it as is not now needed could be utilized as a public park; and of public parks we have only too few for a great city. Not an inconsiderable portion of the expense of putting Ross Island into shape could be had from prison labor, both state, county and municipal.

As to a municipal repair plant for hardsurface streets—my experience on the street committee of the Executive Board absolutely convinces me of the windom and reasonableness of this recommendation of the Mayor. We have a wonderfully well-paved city at th

a great future? ROBERT TREAT PLATT.

Ad Club Luncheon Today. Edward Newbegin will be chairman of the day at the luncheon at the Portland Hotel today, where the Ad Club will hold its first meeting of the year. Speakers will be Tom Richardson, who will give an address on "Thirty Years of Community Advertising" and E. D. Timms, who will discuss "Reformation of the Business Man." A. G. Clark, the

# Charming Hair Every Woman Can Have It

by Using Parisian Sage There is a reason for the phenomenal sale of PARISIAN SAGE in the United States since it was first introduced into America, and the sales this year are

breaking all records.

And the reason is plain to all: PAR-ISIAN SAGE does just what it is advertised to do.

Woodard, Clarke & Co. will tell you that they rigidly guarantee it to do as

advertised or money back.

There is no reason whatever why any man or woman should fall to take advantage of the above generous offer.

But one thing that has made PARISIAN SAGE so famous is its peculiar
power to turn the harsh, unattractive hair that many women possess into lux-urlant and radiant hair in a short time Women of refinement the country over women of relinement the country over are using it and it never disappoints. Sold by leading dealers everywhere and in Portland by Woodard, Clarke & Co. for 50 cents a large bottle. The girl with auburn hair is on every pack-age. Mail orders filled, charges prepaid, by the American makers, Giroux Mfg. Co., Buffalo, N. Y.

# Thousands Now Use This Low-Cost Cough Syrup

A Family Supply for 50c, Saving You \$2-The Quickest, Best Thing You Ever Used, or Money Refunded.

The prompt and positive results given by this inexpensive cough medicine have caused it to be used in more homes in the U. S. and Canada than any other cough remedy. It gives instant relief and will usually wipe out the most obstinate, deep-seated cough inside of 24 hours. It quickly succeeds, even in whooping cough and croup.

50-cent bottle of Pinex, when mixed

A 50-cent bottle of Pinex, when mixed with home-made sugar syrup, makes a full pint—a family supply—of the most pleasant and effective cough romedy that money could buy, at a saving of \$2. Easily prepared in five minutes—full directions in package.

Children take Pinex Cough Syrup willingly, because it tastes good. It stimulates the appetite and is slightly laxative—both excellent features. Splendid for hoarseness, throat tickle, bronchitis, etc., and a prompt, successful remedy for incipient lung trouble.

Pinex is a special and highly concentrated compound of imported Norway White Pine extract and is rich in guaiacol and other natural healing pine elements. Simply mix it with sugar syrup

col and other natural healing pine elements. Simply mix it with sugar syrup or strained honey, in a pint bottle, and it is ready for use.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will gladly get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Pinex is fully guaranteed by Laue-Davis Drug Co., distributers, Portland.
