STREET ORDINANCE URGER.—The street emmittee of the City Council yesterday afternoon recomm nended that an ordinance, assessing the cost of hard-surfacing Corbett street and paying for a deep cut at one point in the contract, be passed by the Council. There were several remonstrances, but the com-mittee decided that the city should proceed to clear up this situation, which has been hanging over for many months. There was considerable extra expense over and above the original ost of the improvement as estimated. The committee also voted to continue with the improvement work on East Fifty-third stret, where the O.-W. R. & N. Co.'s track crosses the street. A deep cut will be made there under the present plans and a grade crossing will A. C. EXCESS FARE PROPOSED

Southern Pacific May Install Luxurious Coaches This Year to Make Run in 24 Hours-Shasta Limited Overburdened.

On account of the constantly-growing passenger traffic between Portland and San Francisco a new 24-hour train with luxurious appointments at excess fare may be operated over the South-ern Pacific before the end of the pres-

Travel on the Shasta Limited, the fastest train now-running between the two cities, is so heavy at certain seasons that reservations are sold fre-quently for two weeks in advance. In the Winter and early Spring the heaviest movement is southward. Late in the Spring, during the Summer and in the Fall the principal traffic is northward—from San Francisco to Portland. However, the normal business at all seasons is such that the Shasta Limited probably is the best patronized train on the Pacific Coast.

Plan Suggested Long Ago. Although the question never has been made the subject of official utterance by Southern Pacific traffic men, it has been suggested to them time and again and it is believed that they have given serious consideration to the plan. John M. Scott, general passenger agent of the Southern Pacific lines in Oregon, now is in San Francisco and it is possible that he will discuss this subject with E. O. McCormick, vice-president in charge of traffic, and other offi-cials of the system before he returns. The Shasta Limited now makes the The Shasta Limited now makes the run in 26 hours. When the Natron-Klamath cutoff is completed it will be able to make it in 22 hours. It would be possible to run between the two points in 24 hours on the present main line, railroad men say.

Palatial Service in View The plan suggested by those who have been agitating the shorter service for the past few years is to provide more luxurious service than any now in vogue in the Northwest—to install the usual maids and men servants, barber shop, tailoring facilities, bath, telegraphic facilities and all the appurrenances of a fast, metropolitan train, similar to those recently inaugu-rated over the Southern Pacific and the Santa Fe to Chicago. For these extra services an extra fee would be asked. The Santa Fe charges \$25 additional for accommodations on its fast Chicago train and the traveling public has made no objection.

It is believed that business men who want to make a quick trip between Fortland and San Francisco will favor the plan. The Shasta Limited would be retained for the regular tourist and ordinary business traffic.

With the rapid development of both Portland and San Francisco the inauguration of such a service is only a matter of a short time anyway. There has been a certain clamor for it for several years and it is probable that this clamor will be satisfied within

News of his recupture leaked out yesterday, through a visit to Portiand by an officer of the penitentiary. The information in possession of the

state officers is that Houghton, a few weeks ago, stole \$400 from his father, who is totally blind, at his residence on Portland Heights, and fled to California. He was traced to that city and taken back to Salem without publicity. Houghton has a criminal record in this city extending back many years and is held to be incorrigible. He was arrest-

A BLOOD MEDICINE WITHOUT ALCOHOL. Recently it has been definitly proven by experiments on animals that alcohol lowers the germicidal power of the body and that alcohol paralyzes the white corpuscles of the blood and renders them unable to take up and destroy disease germs.

Disease germs cause the death of over one-half of the human race.

A blood medicine, made entirely without alcohol, which is a pure glyceric extract of roots, such as Bloodroot, Queen's root, Golden Seal root, Mandrake and Stone root, has been extensively sold by druggists for the past forty years as Pierce's Golden Medical Discovery. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an ALTERATIVE EXTRACT of roots, without a particle of alcohol or narcotic.
