ANTI-ROSS ISLAND REPORT WAITE-The Sellwood Board of Trade postponed consideration of a report adverse to the purchase of Ross Island submitted by J. W. Campbell, chairman of the committee, at the meeting of the club Tuesday night, for two weeks until larger attendance is assured. J. F. Kertchem said it would not be good form to adopt the report in opposition. form to adopt the report in opposition to Mayor Rushlight's plan. He favored the purchase of the island for future use by the city, and said that the whole the of the city, and said that the whole City of Portland will be the jury to decide whether the isle should be bought. The report, which was signed by only two members of the committee, sets forth that the bonded indebted-ness of Portland is \$15,200,000, nearly is to the report that on the same set. up to the 7 per cent limit, and to take over Ross Island meant a great ex-pense. It was urged further that to use the tract for the incinerator, as a place for dumping debris, and to provide emfor dumping debris, and to provide em-ployment for city prisoners will de-tract from the value of the surrounding property. Ex-Councilman Wills de-clared against purchase of the island.

SELLWOOD WANTS REINFORCING MAIN. -J. F. Kertchem, A. N. Wills and Peter Hume are a special committee from Sellwood to appear before the Water Board to urge that immediate pro-visions be made to reinforce the water supply south of Holgate street, before supply south of Hoigate street, before there is another shortage. A water main has been ordered laid, but there is difficulty in getting right of way through Midway, as Milwaukle is the only street that is opened into the dis-trict. Proceedings are under way to open East Seventeenth street, but it may be months before it can be de-band around and a main hid clared opened and a main laid.

Are you a booster for the Pacific Coast? Do you remember it when you have tools to buy?

Or don't you know that the best tools and cutlery made are sold under a Pacific Coast trade mark-and under a guarantee backed by a strong Pacific Coast concern?

There's every argument in favor of buying only TRADE-MARKED tools and cutlery.

It's better economy-the added service they give more than makes up for the difference in cost. And it's more satisfactory, too-they do the work you EXPECT of them-they don't fail you at the most critical time.

The maker of trademarked tools guarantees them - gives his promise to you and your dealer that his goods will give satisfaction.

Ordinary tools are sometimes good-our Stiletto tools are always of an unvarying standard of quality.

The cost is so little more for the guaranteed kind that you can't afford to buy questionable quality.

And-

All arguments that apply to any trademarked tools hold good on Stiletto Brand—with this additional feature:

Stiletto Tools and Cutlery are Pacific Coast goods-every article sold means employment to a Pacific Coast worker-means expansion of Coast business.

It means, too, that if a fault occurs in a Stiletto tool or piece of cutlery, you needn't have it sent East to be replaced-your dealer only needs to phone our local branch-we'll be glad to replace the defective article instantly.

Wouldn't you rather have a guarantee from nearer home?

Your dealer can supply home-guaranteed goods.

How a Woman May Retain Her Youth

"The woman who wants to look young must taboo massage creams and liquid must taboo massage creams and hudid rouge. She will only harden the structure of her face and destroy the fine texture of the skin," said Mrs. Margaret Holmes Bates, the well-known author, to a Chicago Journal representative.

"Reputable physicians have declared that if she induiges in artificial meth-ods she risks losing her health." she continued. A perfectly natural meth-od of treating a bad complexion is by using ordinary mercolized wax; this adds nothing to the complexion, but removes it instead. This wax, ob-tainable at any drug store, flakes off the sallow or blotchy outer skin in fine particles, gently, without harming the skin beneath, which gradually makes its appearance. The brilliantly beautiful complexion thus obtained is a new one-quite different from a patched-up old complexion. This is one way to retain youthful looks. An ounce of mercolized wax is sufficient.
