Buying Wool on Sheep's Back. Commenting on wool contracting in the West, the American Wool and Cotton Re-

West the American Wool and Cutten Reporter says:

For some time contracting has been under way in Newsda and Utah. This contracting is for wool on the sheep's back, and at the present time, about one-third of the new Utah clip has been taken. St. Louis dealers have been active in this, and four or five Boston firms have also contracted for considerable amounts. Prices in the country have been gradually raised until most of this contracting has been discontinued. One or two Boston merchants are still taking additional amounts, but neveral who have purchased 1,000,000 or 1,000,000 pounds are not making arrangements for more at the present prices. The litah elle has brought from 14 to 15 conts, and Neveds approximately the same amount.

County Cattle Sell at \$6.25.

HIDE PRICES ROLDING UP WELL.

Dealers Surprised at the Firmness of the Winter Market.

The hide market continues very firm for this time of year. Dealers are surprised that values have held up so well, but tanners seem ready to pay full prices for good hides. Some grabby hides are continued in now, but there is also a good supply of first-class stock, which gets the preference at higher prices.

The Bastern hide market for the past two weeks has been firm at slightly higher prices.

MARKET BECOMES STRONG

Buying Conducted on a Large Scale at Advancing Quotations-Hill Stocks Are a Strong Feature-Bonds Quiet.

NEW YORK. Feb. 13.—Professional traders in stocks began the day with an effort to put prices down, but they were able to make little impression on the list. Operations them were begun on the other side and these met with more success. In the last hour buying was conducted on a large scale and prices of leading stocks were advanced from I to I points.

Union Pacific, Reading, the Hill stocks, the Erics, United States Steel and the coppers were the leaders in strength and activity. United States Steel gave way to 55% for the lowest price of the year. The list cased off but losses were not large and it was soon evident that effective support was being offered. Prices rallied before the end of the first hour and trading became dult.

The upward movement was said to be due largely to covering of short contracts, although there seemed to be indications of renewed accumulation of some stocks.

Buying of Hill stocks was influenced by the testimony of James J. Hill before the Stanley investigating committee, implying that, in his opinion, the Great Northern one property was worth at least \$500,000,000. Great Northern one property was worth at least \$500,000.

The boom in this stock has suffered a definite interruption, it having lost more than 30 points on the recent reaction.

The bond market was quiet and irregular. St. Louis & Southwestern consols and Eric convariable B's were notably strong. Total sales, par value, \$2,078,000. United States bonds were unchanged on cell.
