More Care Urged in Reporting Cases

of Tuberculosis,

The quarterly report of the State Board of Health for the last quarter in 1911 was insued yesterday. For the first time since the board was consti-tuted, in 1903, a report from every county in the state is submitted. In referring to tuberculosis, the report traces more activity in reporting cases and a greater use of the State Tuber-culosis Sanitarium at Salem. The re-port shows that although in 1911 603 deaths from tuberculosis were report. port shows that although in 1911 603 deaths from tuberculosis were report-ed, only 212 cases of the disease itself were reported. The death rate in 1911 from this disease was 10.3 per cent, while in 1910 the rate was 10.96. This light decrease the board regards as light decrease the board regards as

The report urges that all cases be reported, that state, municipal and county officials may bave knowledge of the cases and that they may be able to send the patients literature from which they and their friends might reap benefit. The portion of the report devoted to smallpox shows that, while there were all cases of this disease in 1911, there was but one death. "An interesting fact to note," mays the report, "is that of 160 cases noted by the State Health Officer, not more than eight were in people who had ever been vaccinated, and in all of these the disease was so mild as almost entirely to escape deild as almost entirely to escape de-otion, frequently being limited to a half dozen papules. We believe that the amount of vaccination, voluntary and compulsory, that has been done during the past 30 days, will have a very salutary effect in forestalling future outbreaks."

CHARTER PLAN SUBMITTED

George L. Myers Would Have Convention Work Out Problems.

A charter convention or committee similar to state constitutional conven-tions, as the solution of the problem presented by four commission govern ment charters before the people for adoption. is the plan submitted by George L. Myres, private secretary of Guy W. Talbot, in a communication to

Guy W. Taibot, in a communication to Mayor Rushlight. That the public may have ample time to consider the question, Mr. Myers recommends that the subject of Four Arrested on Charge of Selling ommission government be delayed un-

commission government be delayed un-til after the state and county elec-tions. He also recommends that mem-bers of the proposed body be elected by the people, and that funds suffi-cient to defray their expenses, includ-ing the expenses of a sub-committee to investigate commission government in other places, be appropriated by the Council. The charter finally reported by the committee or convention would be the only charter to be submitted to the people, according to Mr. Myers' plans.

Mr. Myers says this will eliminate ar, supra says this will eliminate the submission of other charters and defeat the commission government, and is the only way to make possible the adoption of a commission form of gov-

The various Portland civic clubs have joined in the movement and are doing what they can to make the affair of next Monday a success. The Ad Club has taken the position that it will not appeal to the clitzens by means of a subscription pa-per to pay the expenses of the meeting and preferred to give a regular theatri-cal entertainment with the prices charged for admission no different than those charged upon any other night. The tickets which have been sold will be exchanged at the box office on Thursday morning. February 22.
