With the opening today of headquarters in room 420 Selling building, Ben Selling, State Senator, will commence an active campaign to further his interests in the United States Senatorial race, which he entered Tuesday in response to a state-wide demand for a percentally "orogrestheroughly representative "progres-sive" Republican to succeed Jonathan Bourne, Jr. Mr. Selling says he intends to carry

on a lively campaign of publicity in getting before the people his ideas on various subjects of importance. He will pass much of his time in his cam-

Howerman for Selling

Among his supporters will be Jay Bowerman, a Republican leader and former Republican candidate for Governor. 'I shall support Senator Selling in his campaign for United States Senator.' said Mr. Bowerman yesterday. "His long residence in the state and his intimate knowledge of the affairs and needs of the state and citizens, together with his local legislative experience, give him a good working knowledge of what to do and how to de it.

WEATHER CONDITIONS.

A moderals high pressure field is moving inland over the North Pacific States, while a new low-pressure area has made its appearance over the South Pacific Stope. The Eastern disturbance has developed unusual intensity for one not of pure tropical origin. It has however, all the characteristics of a tropical storm, and is central this evening over Lake Erie, where the unusually low barometer readings of 28.98 inches at Buffalo and 28.89 inches at Toledo and Washington occurred. High winds have accompanied this disturbance, a thunderstorm occurred at Atlantic City, and moderately heavy to heavy precipitation has occurred east of the Missasippi River, snow falling as far south as Tensessee. Light precipitation has also occurred in Oregon. Washington, idaho, British Columbia. Sastatchewan, Montana and Utah. The weather is cooler on the South Pacific Slope and generally from the Plains States eastward to the Atlantic Coast. Temperatures are 20 degrees or more lower in Southern Louisiana, Mississippi and Alabama. Generally warmer weather obtains in other sections of the country.

The indications are for showers Thursday in this district, with no marked temperature changes, and shifting winds, becoming southeasterly, and increasing in force along the Washington coast.
