CLUBMAN'S SLAYER

Jury Accepts Plea That Samuel J. Timothy, Chauffeur, Was Fired Upon.

VICTIM'S STATEMENT AIDS

Daughter of Woman Who Figured in Divorce Case of Which Tragedy Was Sequel, Is One of Witnesses at Trial.

REDWOOD CITY, Cal., Feb. 27 .-Samuel L. Timothy, slayer of John J. Moore, the wealthy coal dealer and clubman, of San Francisco, was acquitted here today of the charge of murder. The jury sustained the chauffeur's plea of self-defense. Moore in his dying statement, shortly after the shooting in front of the Moore residence. idence in San Mateo, January 27, re-lated that he fired several shots at Timothy before Timothy drew his own

The tragedy was a sequel to the sensational divorce case in which Mrs. Moore charged her husband with cruelty and he, in a cross-complaint, ac-cused her of intemperance. This case, which brought in the name of Rear-Admiral Thomas S. Phelps, availed nothing to either complainant.

Wife's Presence in Auto Denied. Moore, who was living in San Francisco, on the night of January 27 went to San Mateo and was standing near the gate of his wife's residence when an automobile drove up. Moore opened fire on Timothy, the driver, and in the duel that followed Moore was fatally wounded, dying the next night in a San Mateo hospital. In his dying statement he declared that Mrs. Moore

was in the automobile with Timothy.

This was denied by Timothy, who said that his machine broke down while it was passing the Moore resi-dence and that a man, whom he did not recognize, sprang out of the dark-ness and opened fire on him.

Child Is Witness. On the stand today Timothy repeated his first account of the shooting. Lillian Moore, the little daughter of Mrs. Moore, and a Mrs. May Cooper, a music hall singer and a former sweetheart of the chauffeur, also testified.

Mrs. Cooper's testimony was not admitted, however, the judge holding that

she was too initmate with Timothy and Mrs. Moore was in court.

RIVER ICE ON RAMPAGE

Rush of Cakes Into Ohio Causes That Stream to Rise.

FITTSBURG, Feb. 27.—Ice 24 inches thick, frozen to the bottom of the Allegheny Biver for two months, began legheny River for two months, began to break up at several points above this city today and started to the Ohio. The heavy cakes struck a gorge at the mouth of the Kiskiminetas River, carrying it out and relieving more gorged ice several miles back.

The Monogahein, too, poured out huge cakes of ice, most of which came out of the Youghlogheny River and both streams, with the unusual feeding, caused the Ohio to rise with alarming rapidity.

arming rapidity.

The stage of the Ohio was officially reported at 13.6 feet and rising two

porary, came in the afternoon. Judge flutton at that time reversed his own former ruling that the District Attorney need not provide the indicted attorney with a full transcript of grand lury testimony. In reversing himself, the Judge said that since he made his former decision he had had time for more study of the matter and had come the conclusion that changes and diffications in the statute since the Supreme Court ruling, upon which he had based his own ruling, were such that he could disregard the decision of the higher tribunal. His last opinion nullified the appeal from .is former ene that Darrow's attorneys had made to the District Court of appeal. Fredericks Takes Charge.

Judge mution's reversal of himself floe and caused John D. Prodericks.
District Attorney, to assume personal charge of the Darrow cases. Fredericks greeted Darrow in a friendly manner when he first entered court, which was an hour or so after Judge Hutton's ruling. Fredericks shock which was an hour or so after Judge Hutton's rulins. Fredericks shook hands with the indicted lawyer, and they later had a confidential talk with their hands on each other's shoulders. Judge Hutton, in response to questions from Fredericks, orfered to reverse himself again and let the transcript question be settled by the Court of Appeals. Later he decided to hold his latest ruling in abeyanc, until tomorrow afternoon, by which time the

morrow afternoon, by which time the District Attorney said he would have decided what course to take. Fredericks said he had three possible plans to pursue as the result of Judge Hutton's decision. One was to offer the Darrow defense, ir addition to the present partial transcript in lis pos-session, all the notes taken by one of his deputies, who also was a stenog-rapher, and who was present at the grand jury sessions when the official reporter was absent. The second plan was to resubmit the entire case to the grand jury, and the third was to file informations before a mariety. informations before a magistrate, as is done in the majority of criminal

QUEBEC DISASTER HELD PLOT

Blowing Up of Bridge, Killing 74, Laid to McNamara Ring.

MONTREAL, Quebec, Feb. 27 .- That MONTHEAL Quebec, Feb. 27.—That the Quebec disaster, August 17, 1997, which killed 74 men and caused a loss of millions of dollars, was due to an explosion of dynamite placed there by agents of disastisfied bridgeworkers, is the theory on which detectives are now making exhaustive investigation here.

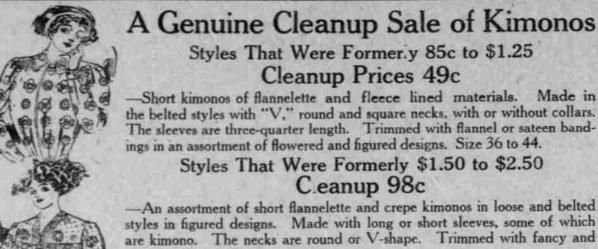

The bridge, which was to be the longest cantilever span in the world, was being erected by the Phoenix Bridge Company, of Philadelphia, on whose work in different parts of the United States some of the worst McNamara atrocities were committed.

About August 1, 1907, there was a strike of bridgeworkers, and work was practically at a stanstill for a time the Unity a part of the regular force was at work on August 17, when the bridge fell, killing 40 Italians, 19 Canadians and 15 Americans. The bridge, which was to be the

OFFICIAL DEFENDS COURSE

Service, Says Vice-President Brad-

ley, Justifies More-Elimination

of "Double Graduate Charge"

Costs Million a Year.

WASHINGTON, Feb. 27.-Rates of the

American Express Company are sub-stantially three times the first-class rates of rallroads. This was devel-oped today at the investigation by in-terstate Commerce Commissioner Lane into the rates and methods of express

J. H. Bradley, vice-president of the company, testified that his company never had made a rate less than two and a half times the first-class rall freight rate.

Commissioner Lane.
"I do not think two and a half times the first-class freight rate is enough

for the service we give," replied Mr. Bradley. "All in all, our rates the country over are approximately three times the first-class freight rate."

Mr. Bradley said that in his opinion a flat express rate would be too high

for short distances and too low for long

"What would you do if Congress should authorize the parcels post?"

should authorize the parcels post?"
asked Commissioner Lane.
"I do not know," Mr. Bradley replied. "Such a law, in my judgment, would be destructive to our business."
Waiter D. Hines, counsel for the express companies, submitted a statement showing that in the past 20 years the companies had made 3298 increases in their merchandise rates and 42,735 decreases. In their general, special and

decreases. In their general, special and commodity rates, the increases had been 1275 and the decreases 5052. In the elimination, at the suggestion of the Commission, of the double graduate

charge, Mr. Hines said, the reduction of the revenue had aggregated \$1,000,-

President W. H. Chapin has appointed the following remembers of the Portland Senators Will Not Consent to Secretary's Substitute for Clause in Homestead Bill-House Committee Will Act.

OREGONIAN NEWS BUREAU, Washngton, Feb. 27 .-- If Congress passes the Bornh-Jones three-year homestead bill, President Taft will sign it. This pre diction was made tonight by Senator Borah after he and Senator Jones had concluded an hour's conference with the President at the White House

The conference was arranged in order that the two Senators might discuss with the President a number of the important land bills pending including their joint measure, referred to. They also discussed the Borah bill which provides for the issuance of a patent to homesteaders on Government irrigation projects as soon as they comply with the residence requirements of the Twelve Schools, Two Hospitals, 140 with the residence requirements of the homestead law, and other measures.

President Is Interested. Both Senstors declared after the conference that the President had been deeply interested in what they had to say about the necessity for the enact-ment of the various pending land bills and was impressed by the Western view of the various questions. While no definite conclusion was reached, the President's attitude was entirely friendly and both Senators were satisfied.

two colleges, six apartment-houses, 26 hotels, three department stores, two jails, 140 flat houses and 1600 Gwellings isils, 140 flat houses and 1500 dwellings every week of the year."

This summary of the fire waste in the United States was made by F. W. Fitzpatrick, of Washington, D. C., secretary of the National Builders and Inspectors Association. In an article published here today. There are barely 10 buildings in the country that are fully and completely fireproof, he says. There were 11,450 persons burned or killed in fires last year and 5600 seriously injured, white day after day 25, might be advisable to diminish the ously injured, while day after day 36. might be advisable to diminish the soo persons narrowly escaped from time allowed for absence from six to four months in each year and it was
