BIG GROWTH FORESEEN

SAMUEL HILL POINTS OUT ADVANTAGES OF PORTLAND.

Good Roads Advocate at Realty Board Meeting Urges Culture of Soil to Meet Needs.

That Portland occupies one of the most important positions on the world's map was declared yesterday by Samuel Hill, of Maryland, Wash., pioneer in the good-roads movement in the Northwest, before the weekly meeting of the Portland Realty Board held at the McKittrick Hotel. Mr. Hill said that Portland was destined to become one of the greatest commercial and ship-

ping centers, as well as one of the largest cities in the United States. The speaker said that one of the greatest problems to be met today is that of inducing people to go back to the land, cultivate the soil and become actual producers. To make the country life attractive he said it was necessary to build good roads, install telephone lines and establish good schools.

In referring to the future greatness of Portland, Mr. Hill said that the geographical location of the city is greatly in its favor. "If you draw a straight line between Nome, Alaska, and Panama you will find that there are only three places on the Pacific Coast where there are natural outlets through the mountain ranges to the sea-coast," said Mr. Hill. "Portland is at one of these broken lines. This city is the most favorably located for shipping of any. The immense products of the Middle West and the great Inland Empire will find their way through Portland on their way to the markets of the Orient. The Colum-

bia is a great canal itself. The time will come soon when double tracks will skirt either side of the Columbia into Portland. The Columbia is the only river in the West where railroads can be built on water grades to the sea. "The Columbia River Basin will in time become the most densely populated district, the greatest agricultural and horticultural territory in the world. You have the soil and the climate, the shipping facilities and the markets in the Orient to make this possible. "The growth and prosperity of Oregon will depend to a great extent upon the construction of roads. You should build main highways to the California line and through Central Oregon. You should provide quick and cheap means of transportation for the producers on the farms. Tourists and travelers will be attracted here because the scenery of the Columbia River and other streams in this state is incomparable—Switzerland is a joke in comparison. "Oregon has a fine and progressive class of people. What you want to do is to keep up your high character of

citizenship. With all the great advantages and resources you have, your state is destined to become one of the greatest and Portland one of the first cities of the country."

Kelso Plans New City Hall.

KELSO, Wash., March 8.—(Special.)—The City Council of Kelso is planning the erection of a \$14,000 City Hall in that city. A bond election will be called immediately to raise funds for the building. The offer of a Seattle architect was accepted last night to draw the plans for the structure, no pay to be received by him unless the bond election carries.

BACKACHE ALMOST UNBEARABLE. Is an almost certain result of kidney trouble. Dr. Toomey, 503 E. Olive st., Bloomington, Ill., says: "I suffered with backache and pains in my kidneys which were almost unbearable. I gave Foley's Kidney Pills a good trial, and they done wonders for me. Today I can do a hard day's work and not feel the effects." All druggists.

CHICAGO MAN TO SPEAK

Methodist Church Educational Leader Goes to Astoria.

Dr. John W. Hancher, of Chicago, educational counselor for the Methodist Episcopal Church, will preach Sunday morning in the Methodist Church at Astoria, where a sub-district rally is being held today and tomorrow by the cabinet of the Portland District Epworth League. Dr. Hancher is in the Northwest at this time to assist in securing endowment for Willamette University.

This afternoon at 2:30 o'clock, the first session of the rally will be held at Astoria. Tonight there will be a special hour, given by the Astoria Chapter of the League. Sunday afternoon at 2:30 Miss Mary Hepburn, superintendent of the Methodist Deaconess' Home at Portland, will speak telling about the deaconess' work. She will explain

a plan that has been adopted, whereby the Epworth League chapters on this district will assist in supporting a deaconess nurse, who is to do work among the poor of Portland. Sunday night Dr. J. W. McDougall, superintendent of

Portland District, will preach and administer communion.

Austrians are liable to arrest for legal mistakes if they vary the position of the postage stamp on a letter.
