

OREGON FLAGS FLY O'ER SITE AT FAIR

California Pays Rich Tribute to Her Neighbor When Site Is Selected.

SUN SMILES ON SCENE

Day Perfect as Governor West and Host of Beaver State Boosters Take Possession of Plat on Exposition Grounds.

(Continued From First Page.)

In San Francisco this morning to select the site for the Nevada state building and was glad to have the opportunity to be present.

The time has come, he said, "when, with the preparatory work accomplished, we ask our partners in this great enterprise to take an active share in it."

Then there were cheers for Governor Oddie and for Nevada, and the applause smothered the noise of the breakers on the beach when the Nevada executive said: "Nevada is glad to be second to Oregon, for she is our sister state, too."

Then there were cheers for Governor West and Oregon, after which the joyous spectators cheered everyone in sight who looked like he had anything to do with the fair of Oregon and Nevada.

When the tumult had in a measure subsided, Mayor Tolp, in a few happy remarks, lauded the Oregonians for their public spirit as manifest by the big delegation sent from the state to begin the work called for by the partnership of the commonwealth in the great enterprise.

Julius Meier, chairman of the Oregon exposition commission, concluded the ceremonies with a few words in which he explained the advantages of the site selected by the commission, and declared that the people of Oregon would raise thereon a structure of which the state and the position company should well be proud.

Aside from the ceremonies attending the selecting of the site, the Oregonians spent a busy and enjoyable afternoon, for the assembly at Harbor View was but the conclusion of the afternoon schedule.

Promptly at 1 o'clock the street in front of the St. Francis Hotel became choked with snorting automobiles desiring to bear the visitors on a tour of the city and the Presidio and to the fair grounds.

Efficient work on the part of the police and arrangements, assisted by the San Francisco police, got the procession away in good time. With the exposition bugler standing in a flying automobile in advance of the procession, trumpeting the advance of the visitors, the streets were well cleared and the San Franciscans lining the curbs cheered as the machines whizzed by.

Passing through the residence section of the city, the procession sped through the beautiful wood-bordered avenues of Golden Gate Park, striking the beach at the point below the Cliff House where the Dutch windmills moved their arms in lazy welcome.

Then the route lay through Lincoln Park, along cliffs overlooking the Pacific, where in half-hidden batteries the great guns guard the approaches to the Golden Gate.

Whirling through the Presidio grounds, the caravan reached the broad parade grounds, where a halt was made to witness the military review arranged in their honor.

The automobiles were ranged on each side of the square into which presently marched the combined bands of the Third Artillery and the Thirtieth Infantry playing a lively air. Following them with measured tread came soldiers, 3000 of them, speck and span in dress uniforms and white gloves. They were formed for review by Colonel Wieser, commanding the Presidio, who had ordered the big spectacle in honor of the visitors from the north.

With beautiful precision, the different regiments formed into brigade front to the music of the bands. Reviewed by the commandant and his staff, the troops marched briskly back to the barracks and, with cheers for the Army and the officers who had made the parade possible, the guests of the city passed on to the Exposition site.

flag of the United States and on the reverse side the name "Oregon," with the coat of arms of the state.

Accepting the emblem, the Governor, accompanied by Mrs. West, the Oregon State Comptroller and the exposition officials, found their way through the crowd to a spot some distance from the stand. Here, flag in hand, the Governor halted and said: "In taking possession of this site in the name of the State of Oregon, I do not plant the banner, however, for a flag already marked the spot and its emblem was carried back to the stand by Mrs. West."

President Moore seized the opportunity to make a short address in which he called the attention of his audience to the fact that the coming great exposition is not for San Francisco nor for California, nor for Oregon but for the entire United States.

He alluded to the approaching completion of the Panama Canal and its effect upon the development of the West and then introduced Governor Oddie, of Nevada, who, he said, had come to select a site for another sister state.
