The demand asks from 25 cents to 50 cents per day, with a minimum wage of \$2.35 per day. At the former mill the men wrre-heard but they were given little salis-faction. At the other plant Manager Al Kuhn refused to listen to the men, declaring he would not have anything to do with allens, the committee which called upon him being made up prin-cipally of Greeks and Austrians, none of whom, he says, have made any ef-fort to become American citizens. Only the two mills mentioned are af-fected thus far by the strike.

Americans Now to Be Employed. One thing developed today as a re-suit of the strike and that is that here-after only American-born or naturalafter only American both of Januara-ized men are likely to be employed in the mills. Managers of both plants have declared they are of the opinion they will hereafter refuse to give em-ployment to allens. This will result in eliminating the Greeks from em-ployment in the plants.

No of-fert will be made to close the Grays Harbor Company's plant, as that com-pany is paying a scale of wages cor-responding to the demand of the strik-ers.

SURGEONS BID FOR CASES

Spokane Physicians Accused of "Criminal Traffic."

SPOKANE, Wash., March 15 .- (Spe-cial.)-That surgical patients are sold to the highest bidder in Spokane and to the highest bidder in Spokane and other Northwest chies, is the declara-tion of the North Pacific Surgical As-sociation, which was formed in Port-land this week, for the purpose of stamping out fee-splitting between physicians and surgeons and of pre-venting "criminal traffic" of the sick. The association goes further and de-clares that none of the unethical, dis-reputable and disbonest surgeons in the Northwest, who practice the fee system with physicians or with young surgeons, shall be allowed in the as-

ons, shall be allowed in the association.

According to Spokane charter members of the association and others who have announced their intention of joining the association, this vicious system of selling patients to the high-est bidder has reached the point where a 60 and 40 per cent basis is pretty generally the custom.

It is alleged that patients are rought here from Inland Empire brought prought aero from inland Empire towns and taken to surgeons, who work on either a half and half or a 69 and 40 per cent basis. These patten's, without their consent or knowledge, it is alleged, and when they are in sore need of surgical aid, are disposed of like so much merchandisy.

Since our first announcement Sunday nearly two carloads of

carloads of pianos arrived and must be unloaded at once. This is a shipment that had been delayed over two months. Our present quarters are crowded to the limit right now. What to have done with

these two carloads was a problem. There was only one thing to do, and that was to sell them, and sell them quickly. To do this we
