How Nature Cures Constipation

And Why Drugs Are Being Used Less and Less For That Purpose.

The custom of Internal Bathing for keeping the intestines pure, clean and free from poisonous matter—curing constipation, biliousness and the more serious diseases which they bring on—has become so universally popular, and so scientifically correct in its application, as to merit the most serious consideration.

Drugs for this purpose have proven that their doses must be constantly increased to be effective, that they force Nature instead of assisting her, and, once taken, must be continued.

The J. E. L. Cascade, which is now being used and praised by thousands and prescribed by many eminent physicians, is now being shown and explained by Woodruff, Clarke & Co., Druggists, Portland.

Its action is so simple and natural as to immediately appeal to all common sense. That is the reason for its great and deserved popularity.
