little more than \$600,000,000 was cred-

all satisfied with the verdict of ac quittal in the case against H. C. Phil-Hps.

The committee certainly will ask that another charge against Phillips be brought, that of fraudulent entry that another and report to the State Bank Exam-iner." said Mr. Sugg today. "In the last case I suppose that there was such a huge mass of evidence, and there were so many technical questions in-plyed that the jurors could not possibly grasp their true meaning. The very nature of the case would be diffi-cult to make elear to a jury." Dr. J. M. P. Chalmers also a mem-

ber of the committee, when asked for his opinion about it, said: "T have not set recovered from the shock I suffered when I heard the wordlet. I cannot conceive how the jury could possi-bly arrive at such a verdict. Yes, I am in favor of continuing the prosecution and of bringing additional charges against Phillips. I have failed to find any one here who is in favor of the verdict. verdict."

Judge W. W. McCredie said: "I think that now is the time for the lawyers to say nothing at all."

Captain Alfred Alos, the only other tember of the committee is in Texas.

- 1 STUDENTS SHOW SUCCESS

Annual Event at Corvallis Attracts

Record Crowd.

AGRICULTURAL COL-OREGON LEGE Corvallis, March 17.-(Special) -The third annual students' engineer-ing show closed last night with a recard-breaking attendance of college and

is year's show was the most exyet undertaken by the stu-The exhibits were arranged in ical hall, the wood-working dents. mechanical hall, the wood-working shop, blacksmith shop, pattern shop and power plant.

The light exhibit of the electrical angineering department attracted a large crowd. The exhibition room of the forestry department was filled with the odor of the firs and plnes, which transformed the spartment into the a typical camp. The exhibits of the Architectural

were attractively arranged in gallery form, showing comparisons of the work of the O. A. C students with that done at the Massachusets Insti-tute of Technology at Boston.

A complete biplane, built after the Curtis model, was exhibited by A. M. Jepperson, of Bacona, and George F. Hess, of Corvallis. The machine, con-structed by these student, birdmen, attracted much attention.

Mrs. J. L. Smith Dies in California.

OERVADS, Or., Marell 17 .- (Special) -Word man received here today by telegram from Monrovia, Cal., of the death of Mrs. J. L. Smith, where home is at Parkersville, where she has a husband, J. L. Smith, and quite a large family. Mrs. Smith went to California several months ago hoping to get relief from tobercular trouble. She was taken suddenly worse and died Saturday merning. The body will be sent to Gervais for burial.

factures for further use in manufacturing, the remainder being for foodstuffs and crude materials. From this it will be seen that the bulk of the export. trade is not acquired on account of any extensive selling effort on the part of the United States, but is due to the fact that foreign buyers buy those things which they must have and cannot buy

einewhere, such as cotton, corn and Economic Conditions Changed.

wheat.

In the past, American manufacturers, have been busy supplying the he market. It was only when a surplus existed that the foreign markets were Conditions, however, have entered. of agricultural products is greater than ever before and the surplus of man-ufactured goods is also greater and is acreasing at a tremendous rate.

Consequently, if the United States is hold its balance of trade, manufac-Consine tured exports must, to some extent, take the place of raw farm products, and if this country is to keep its mills running, the large surplus of manufactured goods must be disposed of through foreign channels. To invade and occupy foreign markets requires a thorough knowledge of the existing opditions in those markets and a

villingness to adjust American methods to them. The tastes and peculiarities of the people must be considered, and, above all. American manufacturers must reduce articles adapted to the foreign market which is sought by toem. To do this, organisation and co-operation between the business men of the country, the trade organizations

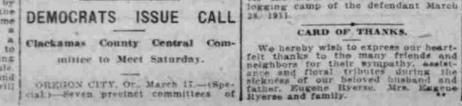

and the Government are necessary. Germany ranks as the best equipped nation of the world today with regard to organization in connection with trade development. She makes use of every national force to aid and fester

Special rates her foreign commerce. are made for exports over transporta tion lines; her commercial agents, banks and steamship lines are found in every corner of the globe; her systems of commercial education are witnost equal; her trade and commercial or-ganizations are semi-official, and all these efforts are as one unit in the service of building up Germany's forsign commerce.

Trade Agents Well-Equipped.

In some foreign countries America's greatest trade rival as a nation will spend \$40,000 annually on a consulate, where the United States spends \$10,000 or less. In New York one foreign gov-ernment is as well equipped to report to its home government on trade con-ditions in the United States as the Bureau of Manufactures of the Depart-ment of Commerce and Labor is to re-

post on trade conditions throughout the

cial.)-The suit of Julia Drewancak against the Wallville Lumber Company son trial in the Lewis County Superior Court. Son asks \$15,000 as damages for the death of her husband in the for the death of logging camp of the defendant March 28, 1915.

CARD OF THANKS.

Hood River Firemen to be Anded. HOOD RIVER. Or., March 17.-(Spe-cial.)—The city council has taken ac-tion to protect the members of the Hood River Volunteer Fire Depart-ment in case of accident and injury happening during fighting a fire. The city authorities have made arrange-ments with a Hood River hospital. which provides free medical and surgi-cal attention. In addition to use of the hospital for the firemen. The fire de-pariment is composed of business men of the city, and plans are under way to establish a well-equipped clubroom for establish a well-equipped clubroom for the use of the members.

THE GOVERNMENT CONSTRUCTS TELEPHONE LINES.

With regard to telephone lines, the Premier said that a large amount of extension was under order, and all ma-terials for work had been requisitioned.

A RUSH OF NEW SETTLERS.

CALGARY ALHERTAN, March 7.-The rush of settlers to Western Canada began resterdar, when twenty-seven cars of settlers' effects ecosed the border at North Portal.

Railway agoncies are daily receiving notice of unusually large shipmonia of effects, and the prospect is that the year 1912 will see the largest immigration from the United States into Western Canada in the history of this country. Espacially noticeable is the increase in tomigration from the Western Status. Three days ago 38 carloads of settlers' effects were started from Colfax and Indianola, lows, for Canada.
