

TAFT VICTORY NOW UP TO THE VOTERS

If President's Friends Register and Go to Polls, State Will Show Majority.

AYER SOUNDS WARNING

Chairman Declares Only Danger of Defeat Lies in Overconfidence of People—"Do It Now" Is Slogan Offered.

"Taft voters must register" will be the slogan of the Portland Taft committee, beginning today, and continuing until the registration books close on April 9, for the direct primary nomination election. Chairman Ayer said yesterday it would be the purpose of the committee to give every assistance towards encouraging a full registration of the Republican voters of the county.

"From the reports that reach Taft headquarters, I am convinced that the Taft sentiment in this state is very strong and that he will carry the state overwhelmingly," provided Taft voters register," said Mr. Ayer yesterday.

"This should be the slogan from now until the registration books close on April 9."

"Every adherent of President Taft should exert himself to help along this work. All the committee can do is to call this matter to the attention of the voters and if they are indifferent and feel that on account of the Taft sentiment, Ours, their efforts are not required, they will have only themselves to blame if the result after the primary election is not what they expected."

Voters Advised to "Do It Now."

"Let the cry be, 'Taft voters must register.' In order for them to vote it is necessary that they register. This is a matter to which the individual elector must give his personal attention. It is not a case of 'Let George do it.' Instead, it is a case of 'Do it now.'

County Clerk Fields will keep the registration books open every week day from 8 A. M. until 9 P. M. until April 9, and will co-operate in every way to bring out the registration. On April 18 days remain in which unregistered voters may attend to this important duty and qualify for participating in the primary election without going to the trouble of swearing their vote in. The impression prevails among many voters that since they registered two years ago they have voted every year on the former registration. This is incorrect, the registration law specifically providing for a new registration every two years.

Taft Sentiment Strong.

"I am not saying that there are not any supporters of Roosevelt in Tillamook County," said A. G. Beals, of Tillamook, at the Imperial yesterday, "but I have yet to meet the first Republican in my county who has not adopted the sentiment of the ex-President."

"On the contrary, there is a strong Taft sentiment throughout the county and Republicans are very generally giving their support to the President for a second term."

"The only opposition to President Taft among the Republicans of Marion County," said B. F. Meredith, of Salem, yesterday, "exists in the element of the party which always has opposed the President. This element represents the minority in the party, which makes it a reasonable certainty that Taft will carry the county by a very satisfactory margin. Republicans very generally endorse the Administration of President Taft and feel that he is entitled to a second term."

FIVE MORE CANDIDATES ENTER

Petitions Out for Republican Delegates to Convention.

Petitions are being circulated nominating five additional candidates for election as delegates to the Republican National Convention. The five candidates are: Phil Meacham, Sr., S. B. Huston and J. W. Minto, of Portland; C. T. Early of Hood River, and Fred Hause of Eugene. Each of the five has forwarded his declaration of candidacy to the Secretary of State's office.

The number of Republicans now seeking the 10 places as National delegates is 18, 12 having already entered the race. The other aspirants in the order of their filing are: John E. Pendleton, Charles H. Fry, Astoria; Charles H. Carey and Charles W. Ackerson, Portland; C. A. Applegate, Klamath Falls; Fred S. Byrnes, Salem; H. C. Campbell, C. M. Ryerson and Frank H. Reynolds, Portland; Edward Camp, Glendale; A. V. Pascual, Pocatello, and D. P. Hall, Moscow.

Twenty Democrats also are candidates for the same 10 places in their party as follows: Herman Wise, of Astoria; Mark Holmes, Kickrell; F. C. Burke, Baker; J. E. Godfrey, Salem; Stephen Jewell, Grange Pass; John Goss, Madras; Daniel W. Sherman, Enterprise; J. W. Maloney, Pendleton; Charles W. Sherman, Sr., Dairy; Leon R. Edmundson, Eugene, and Emil T. Roddant, Siletz; Alex Swank, John H. Stevenson, Ludwig Wilhelm, A. D. Cridge, A. A. Kaderly, R. E. King, E. V. Holman and Bartlett Cole, Portland.

EVANS AND WILSON INDORSED

Municipal Association Favors Choice as District Attorney and Sheriff.

Qualifications of a number of the Republican candidates for District Attorney and Sheriff are given in a circular letter which has been distributed by the Municipal Association. Through this medium, the organization endorses the candidacies of Walter H. Evans for District Attorney, and J. T. Wilson for Sheriff. These two officers were the only ones discussed. The circular letter is signed by D. A. Patterson, president, and John Bain, secretary, of the Municipal Association. In part, it is as follows:

Among the candidates for the office of District Attorney are George J. Cameron and John A. Alford, Jr.

Cameron is the incumbent. He has devoted all efforts at prosecution of social evils while in the general interests he has degraded his office, making it a byword and a farce.

Felts is notorious as the chosen counsel of the various elements of the community, and it is easy to imagine what the administration of the office will be should he be elected.

Jay has been alit in the City Council with the liquor interests, and he has failed to live up to his name, himself, which would commend him as a candidate for this office.

For all the other candidates, we are decidedly of the opinion that Walter H. Evans is the man who gives promise of highest efficiency, especially in the present circumstances, and who at the same time is most likely to defeat the worthy

candidates. Mr. Evans' record as United States deputy district attorney is excellent and in this connection we need only mention his success in prosecuting the white slave cases which have been under trial in the federal court. No one in the court only one was lost. Members of the United States grand jury who have been in contact with the work, speak of him in the highest terms.

For the office of Sheriff the following, among others, seem most promising. Hammill, the present deputy sheriff, he promises to carry out Sheriff Stevens' policies which include practically the same as those of the good old Oregonian roadsides which have disgraced the county. McAlister, who was the police chief here for a number of years, has been nominated. He is a well-known citizen, who for years has been in the service. He is identified here with movements which have made for better conditions morally and physically.

He has been successful, while his experience as a peace officer elsewhere assures his fitness for the office.

He has registered over 400 saloons, in addition to numerous blind pigs in this community. These will each contribute at least a dozen votes—say a total of

Charles Rice, Who Comes to Lyric.

Nearly 100 persons surrounded the woodsman on the stage as he performed his various feats and explained them. In many instances he made homely comparisons to convince his hearers that the woodsman's performances were merely the result of applied science known to the student world for ages.

His experiments in quenching flame, when tuning forks of great vibratory strength were futile, was proved by Charles Kellogg, nature singer, on the Orpheum stage yesterday morning in the presence of an assembly of city officials, prominent physicians, leading musicians, educators and others. Fire Chief Dowell and several members of his department were interested spectators, and paled the vaudeville scientist with questions in the demonstration.

Mr. Kellogg declared the time is

nearing when intense tuning forks on the stage will be used to quell city-mangling fires, and that one virtue of the quelling of fire by sound is that the vibratory force is just as effective through brick wall.
