GEVURTZ & SONS WE SELL CHEAPER BECAUSE WE BUY IN CARLOAD LOTS FIRST SECOND & YAMHILL STS.

VISITORS SEE MEAT FROM HOOF TO CAN

Even Portland Residents Are Amazed at Modern Packing Houses.

CLEANLINESS IS PLEASING

Four Thousand Persons Are Guests at Union Stockyards—Sandwiches Served After Every Process Is Explained.

Cleanliness Is Impressive.

"Oh, yes, I have visited the packing-houses in Chicago," said one woman, "and I don't suppose they have anything here like them." However, when she was persuaded to make an inspection of the local establishment, her surprise was keen and emphatically expressed at every department.

Government scale of standard purity the entire animal is condemned. While the regulations that make it necessary for each piece to remain in the cooling vaults for 18 hours after being killed precluded the possibility of a person watching the same pig, the same steer or the same sheep from the time it went into the plant until it emerged in the shape of meat ready for the table, the entire course of preparation could be followed from beginning to end.

Other packing plants on the Peninsula are doing is cited as an example of the further development possible, a development that is bound to come as fast as the livestock industry of the Northwest builds itself up.

Portland Now Recognized.

Among the livestock men who attended the show yesterday Portland is recognized as the only livestock market on the Pacific Coast. It is the only competitive market west of Denver. This fact makes it advantageous for both buyers and sellers.

In this particular the Portland Union Stockyards Company is aiding materially in developing the local industry as it offers an opportunity to every purchaser to secure stock at the prevailing market prices.

Organizations Visit Show.

The present show is aiding in large measure to educate Portland people with the importance of the industry. Many prominent Portland men visited the show either individually or as members of the organized parties which included the Rotary Club, the Progressive Business Men's Club, the Horse-Owners' Association, the Madison and others. The Ad Club will attend this afternoon.

Colleges Provoked Discussion.

The colleges were a bone of contention at the international at Chicago and to paraphrase the Breeders' Gazette in this particular, I may say, that if the Pacific Northwest Livestock Show is a mere agency for distributing money among individuals who have not the ability to breed the best, nor the means to buy the best, nor the skill to feed the best, it would be well to bar such enterprising colleges as Idaho which has set the highest standard at the Pacific Northwest Livestock Exhibition. If this show aims to teach lessons that flow from the exhibition of the highest obtainable ex-

cellence, then serious-minded men ought not to waste time in discussion of the subject.

A closed competition means an inferior standard. That is its object. It is closed against the best in the Pacific Northwest Livestock Show was not established to set a false standard. It would be recreant to its obligation to the animal breeders of the world if it closed its competition to the best.

MAIN-STREET SITE URGED

Oregon City Live Wires Discuss Location for Library.

OREGON CITY, Or., March 19.—(Special.)—A site for the proposed Carnegie library was discussed at the weekly luncheon of the Live Wires Tuesday, and the majority of the members favored locating the building on Main street. One or two members who live on the hill argued in favor of having the structure erected on Seventh-street Park or McLoughlin Park.

Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes.

Estacada Big Poultry Center. ESTACADA, Or., March 19.—(Special.)—A recent canvass of Estacada and vicinity reveals the fact that Estacada is rapidly becoming one of the great poultry centers of the state, as on March 15, there were within a radius of five miles of Estacada, 98 incubators in operation, with a total capacity of 16,000 eggs.

Derelict Not the Randolph.

MARSHFIELD, Or., March 19.—(Special.)—It has been learned positively that the derelict which was sighted floating bottom side up off this coast yesterday was not the gasoline schooner Randolph, of this port, as was feared last night.

Waldo Hall Girls to Entertain. OREGON AGRICULTURAL COLLEGE, Corvallis, March 19.—(Special.)—The girls of Waldo Hall are completing the arrangements for the second reception and dance of the present college year, which will be given April 12. Mrs. Clara H. Waldo, of Portland, a regent of the college, is the patroness of this entertainment.

entertainment. The girls having charge of the several committees are Miss Margaret Morehouse, of Eugene, refreshment committee; Miss Della Mays, of Hillsboro, decorations; Miss Lois Wilson, Salem, entertainment; Miss Hortense Epply, Salem, post facto.

GOOD NEIGHBORS

Should be cultivated locally, as well as in a broader field. Our sister state to the east has just shown a friendly and neighborly interest toward Oregon by her "Booster Special." There is something about a hearty hand-clasp from a social or business friend that strengthens our confidence in mankind.

Our cities should also pull together to obtain best results. It's high time for Portlanders and Astorians to stop their selfish squabbles and to recognize that EACH is an ADVANTAGE to the OTHER. We need to use the mouth of the Columbia River to keep pace with Washington on a BUSINESS BASIS.

We can't afford to sleep on their \$5,000,000 terminal proposition. The Panama Canal great ships will all go there, "IF WE DON'T WATCH OUT."

"THERE'S A REASON" So let's get busy at the GATEWAY. And, Mr. Neighbor, the logical thing for you to do—and do it quick is to plant a few dollars in inside lots at

WARRENTON, OREGON

before the multitude gets wise. You'll be helping Oregon develop, and incidentally helping yourself to riches. See

SUNSET REALTY CO. Ground Floor Commercial Club Building PORTLAND, OR.

Barber Asphalt The two vital essentials of the street pavement are durability and economy. They're a certainty in Barber Asphalt Pavement construction.

CATERPILLAR Gasoline Traction Engine. Demonstration at Livestock Show. Holt Manufacturing Co. Stockton, Cal. J. W. Hill, Agent, 617 Lumbermens Bldg., Portland, Or.
