SPECULATORS ARE

Men Who Have Bought Up Orchard Bonds Meet With Check.

SEATTLE, Wash., March 26,-(Special)—An effectual block to the wholesale speculation, which has been going on in Seattle during the past month in Orchard Company bonds since the failure of the \$5,000,000 campanies floated by W. E. DeLarm and his associated by W. dates, was placed by Trustee Louis P.
Sichler, yesterday, when he declined to
beginter any claims for those bonds except at the actual price paid for them.
Word came to the trustee that bonds in the Columbia River Orchard Comin the Columbia River Orchard Com-pany, Washington Orchard, Irrigation & Fruit Company, and other concerns involved in the DeLarm deals were be-ing affered on the street as low as 25 cents on the \$100, and were being

cents on the \$100, and were being anapped up rapidly.

At the same time a well-known Seat-lie real cetate dealer came to Sichler with \$2000 worth of bonds, which he had bought for \$2.50, and boasted that he would enter his claim for the full amount. Trustee Sichler practically threw him out of the office, and after a little quite investigation decided to stop the speculation without further delay.

As a result those bondholders who have not already told what was paid for the bonds in either cash or prop-sity will be required to make such statement upon oath and the amount spent, rather than the value of the honds, will be considered as the true ciaim. It's believed that this step will reduce materially the amount of claims against the estate.

BOURNE IS IN ILL-FAVOR

Even Democrats Admit Senior Senator Is Not Choice for Re-Nomination-Lowell, Though First Choice, Loses Ground.

Hen Selling is not only the choice of he stockmen of Eastern Oregon for United States Senator, but he is being supported for that office by a majority of the Republican votors in that section of the state. This is the consensus of opinion among the stockmen from east of the Cascades who are attending the annual stock show in

This estimate of the Senatorial situation is not a partisan view in any sense, since it is concurred in by both Democrats and Republicans. The stockmen report that the senti-ment against Senator Bourne through-

it their section is pronounced with the result that in the pending campaign the senior Senator finds himself with but slim support. Some of the visitors admit that their choice for the Sen-atorship naturally was Lowell until they became satisfied that he would not oc able to land the Republican nomi-nation. "There is a strong anti-Bourne sentiment among the Republican voters of Union County," said J. F. Phy, of La Grande, at the Imperial Hotel yesterday, "I have found a great many Democrats who declare they would vote for Bourne if they only had the chance. Democrats in my county, however, have not acquired the habit of falsely registering as Republicans, and as a result will be obliged to vote their own ticket. The Republicans are pronounced in their support of Selling."

Selling Talk is Strong.

"I have never taken much interest in polities other than to go to the polis on election day and vote and then my vote is usually killed by a brother, who is a Republican," said Fred Kiddle, a prominent stockman of La Grande.

"In traveling over the county, however, I have come in contact with voters of all classes and have found a widespread sentlment against Senator Bourne. These voters look to Selling as a winner and are giving him their support. This is especially true among the Republicans."

"We have nothing but Democrats where I come from," said B. P. Anderson, Democrat and retired stockman of Halnes, "but there is a great deal of politics other than to go to the polis

Rheumatism is a favorite name for | Uric Acid Is Responsible for | pains that rack the back, the joints, the limbs, and almost any other part.

A good deal of the pain that is laid to rheumatism is really due to kidney weakness, and an excess of uric acid in the blood. When the blood is overloaded with uric acid, it forms into crystals, which are deposited in the muscles, joints, along the walls of the arteries, and in the sheaths of nerves.

The movement of a nerve or muscle that contains uric acid crystals causes sharp, intense, darting pains and in time starts inflamed swellings. Uric acid has a great liking for the

joints, and often combines with other chemicals into chalky or stony particles. These deposits stiffen the joints, making them extremely painful, and in severe cases changing the bones. Rheumatic pain in the thigh is called sciatica; in the muscles of the back,
