Two men, each carrying one-half of the shelter tent, which is rolled around the outside of his blankets, form a team. Colonel McGunnegie attended the field law that was evidently the intention of the lawmakers to cover up. The law puts the burden of proof on the pos-sessor of optum to show that it was rightly in his possession, but then it tells how optum may be imported into the country and in the concluding paragraph of the law speaks of "such" opium. It is contended that the use of the word "such" refers to that legally imported and that it is the daty of the Government to show first that it was not legally imported, as otherwise its possession is at once evidence of guilt. Judge Cannon has taken the matter under advisement until he can find some authority on the subject, but as far as known this question has never before been raised.

IN THE THICK OF THINGS OR THE THIN OF THINGS?

It takes the steady nerve, the elastic step, the energetic body to meet modern conditions, and the quick mind grasps the fact that body and nerves must be properly nourished.

Weak, hesitating, doubting natures are those who lack vitality. Their kingdom is the crust or outer edgethe thin of things.

SCOTT'S EMULSION

is the vitalizer for all ages. It feeds nerves, body and brain with pure, wholesome food-tonic. It does not stimulate___it nourishes.

That awful sourcess, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nauses, bloating after eating, feel-ing of fullness, dizziness and sick headache, means indigestion; a disordered stomach which cannot be regulated until you remove the cause. It isn't your stomach's fault.

Try Cascarets; they cure indigestion, because they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning.
