

POWICE DRAW GUNS ON ABERDEEN MOB

Near-Riot Results in Arrest of Disturbers. Despite Protests of Strikers.

HOSE TRAINED ON CROWD

Western Coeprage Company Puts Up National Flag on Mill and Operates Its Plant With Full Crew of Men.

ABERDEEN, Wash., March 25.—(Special.)—The first evidence of rioting during the recent Industrial Workers of the World strike among the harbor millhands was seen tonight, when three men, two of whom were badly battered by non-strikers, were placed under arrest. The arrest followed a mob assembly at the Anderson Middleton mill tonight, when a net force was made by the strikers to attack a number of men leaving the mill.

Angered by the capture of one of their comrades, the crowd followed the officer to the City Jail, where it demanded the man's release. A squad of policemen drove the crowd back and it was not necessary to resort to violence.

At the Aberdeen Lumber Company three of the officers were forced to draw their revolvers to keep back the mob, when Joe Smith, a non-striker, was pulled from his bicycle. No blows were struck and the mills resumed work with a full crew.

Yesterday morning, when an effort was made to block the street leading to the Western Coeprage Company, two men were arrested and taken to the City Jail. During the melee the National flag was raised above the mill, three sections of hose were trained on the strikers and in less than 15 minutes the mill began operations with a full crew.

SUIT STARTED BY CITY

Case of Astoria Against Railroad Begun in Circuit Court.

ASTORIA, Or., March 25.—(Special.)—Trial of the case of the city of Astoria against the Astoria & Columbia River Railroad Company began before a jury in the Circuit Court this morning. The action was brought to recover \$4832.70, that being the amount of the judgment with interest and costs in the suit. In the latter case, Miss Anderson secured a judgment for \$1000 against the city for personal injuries sustained by stepping on the iron of an elevated street car at the corner of Eleventh street and leading up from the street grade to the railroad track. This judgment, which was obtained in the Federal Court at Portland, has been paid by the city.

The plaintiff, in outlining its case, contended that defendant company operated the railroad under a franchise from the city which provided that the company should keep the street crossings in repair. The city contended that the defendant company was negligent in not having a proper crossing and within one foot of the track, so it was on property owned by the defendant and which it was bound by its franchise to improve and protect. The plaintiff also contended that while the city could not escape the responsibility of seeing that the crossing was safe by delegating the power to another, still, as in this case, when an accident occurs on property that has been leased to another, the city can recover from the leasing parties any expense it may be put to, provided proper notice is served, which was done in this instance. The defendant asserted that the point where the accident occurred was not in the street and said the city so claimed in its defense of the action in the Federal Court. It is also said that even if the accident should be found to have happened in the street, the city and not the railroad company was guilty of negligence.

WOMAN'S ACT IS COSTLY

For Trying to Aid Prisoner's Escape She Is Sent to Prison.

BELLINGHAM, Wash., March 25.—Miss Georgia Allen, the young woman who, on Saturday night, made an attempt to gain entrance to the County Jail in this city with a revolver hidden in her bosom and a half dozen steel saws in her pockets, this afternoon pleaded guilty in court to attempting to aid the escape of a Federal prisoner and was sentenced to serve from one to ten years in the State Penitentiary.

Miss Allen, who says she came from Vancouver, B. C., admitted that she was trying to aid George Muir, alias Kid, who, she says, once did her a good turn, which she was trying to repay. Muir is being held in the jail with Paul Webster for attempting to smuggle a quantity of opium across the boundary line.

REGULATION SAID TO HURT

Howard Elliott Gives Reasons for Falling Off in Trade.

SPOKANE, Wash., March 25.—Howard Elliott, president of the Northern Pacific Railroad, declaring today that political unrest and the extraordinary mania for regulating business, big and little, was responsible for the falling off in trade. He declared, however, that the country was in a more healthful financial condition now than six months ago.

He declared the low return received by the railroads on their investments was responsible for the fact that the railroads were not extending their lines, and said that but 50,000 freight cars had been built last year, while 220,000 were needed to care for the business of the country.

Eugene to Have Suffrage League. KUGENE, Or., March 25.—(Special.)—A prominent club women of Eugene, has been issued for a mass meeting of women at the Commercial Club rooms next Thursday, for the purpose of effecting the organization of a Woman Suffrage League. Mrs. Frederick Egbert and Dr. Esther Pohl, of Portland, will address the meeting.

CEREMONY IS TODAY

Branch Asylum Cornerstone to Be Laid at Pendleton.

Following Parade Through Business Section Special Trains Will Be Taken to Building Site. Officials Will Attend.

CITY WILL HOLD HOLIDAY

Following Parade Through Business Section Special Trains Will Be Taken to Building Site. Officials Will Attend.

PENDLETON, Or., March 25.—(Special.)—Arrangements have been completed for the laying of the cornerstone of the Eastern Oregon State Hospital for the insane here tomorrow. All business will be suspended tomorrow afternoon that persons desiring to witness the ceremonies may do so.

A parade through the business section of the city, consisting of automobiles heading the procession, carrying the Governor and other officials, the Round-Up band, the school children of Pendleton, and the various Pendleton lodges in full uniform, will start at 1 o'clock. Following the parade the school children will be taken in special trains to the hospital grounds. Arrangements also have been made to carry practically all citizens to and from the ceremonies on special trains to be run during the afternoon by the O. W. R. & N. Co.

Many out-of-town visitors are expected to attend the ceremonies, 2000 invitations having been sent to members of the state Legislature, state officers and prominent citizens of the state. The programme arranged for the ceremonial ceremony follows: Master of ceremonies, Dr. C. J. Smith, chairman of committee on arrangements. Arrival at Asylum grounds. Music. Band. Invocation, Bishop Robert L. Paddock, D. D. Depositing of records, Ben W. Olcott, Secretary of State. Placing of cornerstone, chief contractor. Presentation of towel to Governor, W. C. Knighton, state architect.

SPOKANE PIONEER DEAD

JOHN J. BROWNE SUDDENLY EXPIRES IN OFFICE.

Millionaire Banker, Railroad Builder and Well-Known Philanthropist, Victim of Heart Trouble.

SPOKANE, Wash., March 25.—John J. Browne, one of the founders of the City of Spokane, millionaire capitalist and banker, dropped dead in his office today from a heart ailment. He came to Washington in 1875 and homesteaded a large part of what now is the residence section of Spokane. He established a chain of banks throughout the Northwest and took a prominent part in the building of railroads throughout the state. He promoted the first street railroad in Spokane and for seven years was owner of the Spokane Chronicle. He was prominent in Democratic politics, but held no public office. He was, however, a member of the Washington Constitutional Convention. Mr. Browne came to Spokane in 1873, when this city was a camping ground for bands of Indians. He took up a homestead of 160 acres, which is now in Browne's Addition, one of the best residence districts of the city. Mr. Browne donated tracts of land to the schools here and for 15 years was a member of the school board. He formerly was a trustee of Cheney Nor-

BRIEF SAYS FRAUD NOT UP TO COURT

Appellants Reply in University of Oregon Referendum Cases.

JURISDICTION IS STUDIED

Claim Made That It Is Not So Important to Prevent Law's Submission as to Prevent It Being Kept From People.

SALISBURY, Or., March 25.—(Special.)—The reply brief of the appellants in the University of Oregon referendum cases, which was the cause for a short delay granted by the court on the request of C. E. S. Wood, was filed today by attorneys for the appellant and centers to a considerable extent on the jurisdictional side of the cause, which involves more than \$500,000 worth of appropriations for the university. "Every doubt should be resolved in favor of the referendum," says the brief. "To decide against the petition deprives the people of an opportunity to express themselves upon it. The essential thing is that the voters should have a chance to pass upon the question, and they should not be deprived of it except upon absolutely compelling reasons. We think none exist."

Court's Jurisdiction Considered. "In addition to the foregoing, we submit that this court is without jurisdiction to prevent the question of fraud, for the reason that it is a legislative matter and is a proceeding by the people themselves acting as a legislative body, and all this court is empowered to do under the law is to examine the legal sufficiency of the petition. If the petition be legally sufficient on its face, the court cannot go behind the petition and examine into precedent or extraneous matters."

The Secretary of State, in receiving the petition, is acting as a part of the legislative machinery. He is a part of the legislative branch of the Government, and his every function is that of a co-ordinate branch of the Government, not reviewable by the courts except as expressly given by law. And, as above stated, we think the law only provides for a review of the legal sufficiency of the petition as it appears on its face.

The only case, as we think by his discretion is to prevent his stopping a law at the outset by refusing to file it. We think the whole purpose of the law is to prevent the Secretary of State from stopping a law at the outset by refusing to file it. We think the whole purpose of the law is to prevent the Secretary of State from stopping a law at the outset by refusing to file it.

Plaintiffs Said Not to Gain. "It is clear that to get a petition on the files any citizen ought to have the right to move. But a petition being accepted by the Secretary and filed, it is no mean feat to get it on the files to have the right to contest that petition, for it is not so important to prevent a law being submitted to the people as it is to prevent the county clerk from accepting it. Therefore, if it would seem that only those having some special interest and special knowledge ought to be allowed to strike a petition from the files. These respondents show no such special and particular interest. The only person of real interest in this case is the beneficiary of the law referred, that is, the university itself. And nowhere in the record can be shown that the particular individuals

TORNOW SEARCH WAITS

MOVE AGAINST MAN IN WOODS DELAYED FOR REWARDS.

Conviction Thought Difficult From Lack of Evidence—Tornow's Friends Giving Him Aid.

ABERDEEN, Wash., March 25.—(Special.)—Awaiting word from Governor Hay, in reference to the request of the County Commissioners concerning an additional reward of \$2000 for the capture of John Tornow, on behalf of the state and because the present office force of Sheriff Payette is disorganized, no immediate attempt will be made to lead a posse against the "Devil" of the Wynoochee. The names of John and Will Bauer and Deputies A. V. Elmer and Colin McKenzie.

Again the situation confronting Sheriff Payette is puzzling. The reward offered is \$2000 for Tornow, dead or alive, and \$2000 for the arrest and conviction of the murderer of the Bauer boys and the two deputies. Should Tornow be taken it is asserted it would be probably next to impossible to prove his guilt.

"Should John Tornow today appear before the Sheriff in his office in Montesano and say, 'I know I am being searched for; what do you want?' the chances are ten to one that the county would have a hard time convicting him," said an official tonight. Despite this assertion, there seems to be but little doubt that the uncle of the two murdered boys is also the slayer of the deputies.

The fact that two different guns were used in taking the life of McKenzie is established by the fact that both a 24-20 rifle and a 20-25 bullet were found in his body during the autopsy. This leads many to believe that two men were guilty of the crime, but others believe that the murderer, after shooting McKenzie the first time, used the gun of Elmer to finish his horrible job. It developed today that mail was received for John Tornow at Pacific Beach last winter.

There is a trail leading from the Oregon country through to Humpulpa and from there to the ocean beach, so that the trip from the headwaters of the Satsop or the Wynoochee to Pacific Beach would not be a hardship for Tornow. Tornow is supposed to have one or more friends helping him and who have furnished him with supplies and provisions from time to time.

To Remove First Signs of Old Age

"The infallible first sign of age is the sagging cheek muscles," says Mme. Cavallieri, whose fame as a beauty culturist is scarcely less than that of a singer. "These are more difficult and serious to treat than wrinkles," she continues. "The sagging muscles indicate they have grown too weak to remain in place; they must be assisted, strengthened." The best way to strengthen them is by using a wash lotion made by dissolving an ounce of powdered saxolite in a half pint witch hazel. This creates a freer circulation to the parts, besides causing muscles and skin to contract. Saxolite, procurable at every drug store, has long been known by complexion specialists to possess remarkable properties, valuable in treating flabby tissues and wrinkles.—Adv.

HOW TO TREAT PIMPLES AND BLACKHEADS

Successfully and Speedily With CUTICURA SOAP

AND CUTICURA OINTMENT

And Cuticura Ointment, at a trifling cost, is learned from the special directions which accompany these pure, sweet and gentle emollients.

Who are using in this cause will either gain or lose in any special capacity by the petition being stricken from the files. "But, if the court goes further than this, and holds that any citizen may bring a proceeding for injunction against the Secretary to prevent his filing the petition, or to prevent his putting it on the ballot, then it certainly follows that the rest of the act also must be taken literally, according to its terms, and any citizen must commence his suit within ten days from the time the objectionable bill is filed. When it is filed it is a public record to which everyone has access, the circulating of it has been in every county in the state a matter of public notoriety."

Time Limit Urged. "Every fraud and complaint against it must be well known long before it is filed, but there is no hardship in causing the law to mean that a suit for an injunction must be commenced within the same time as allowed by the act for a petition for mandamus. If not, then this court must legislate in the matter, and declare within what time 'any citizen' is allowed to bring his suit. In other words, this court must legislate a statute of limitations. But we reiterate this court can at the most examine the 'legal sufficiency' of the petition. It is the legally sufficient on its face, that is the end of the matter."

To our suggestion that only one proceeding was contemplated, in which the law sustained their work, and the court is asked to impute fraud to these men, merely from 'expert' testimony."

Two Trout Cost \$15. VANCOUVER, Wash., March 25.—(Special.)—For two trout, which he had caught in Burnt Bridge Creek yesterday, Arthur Langendorfer paid to the County \$15 today when he appeared before G. Lloyd Davis, Justice of the Peace. Langendorfer and a friend had been fishing but a short time when George B. Sanford, Deputy Sheriff, happened along. The other man dropped his rod and tackle and escaped. The fish were confiscated for evidence.

BISHOP TO ADDRESS MASONS

VANCOUVER, Wash., March 25.—(Special.)—Bishop Frederick W. Keator, of Olympia, has accepted an invitation to deliver an address on Knights Templars Friday evening, March 29, in the Masonic Temple in this city.

CLARKE'S PURE RYE

Nature's OWN Distillation A PURE WHISKEY

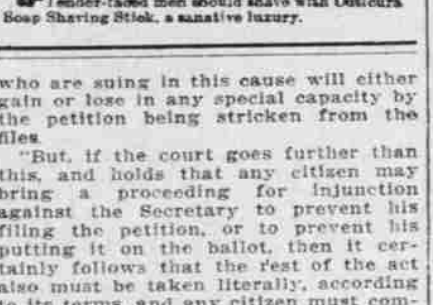

Clarke's Pure Rye may not be the smoothest whiskey, but it is the truest and best whiskey on earth. It gives the best satisfaction, because it is all whiskey and has nothing in it but the grain flavors from the finest rye.

The success of Clarke Bros. & Co., the largest whiskey distillers in the world, has been brought about by the distribution of this particular brand, Clarke's Pure Rye. It's uniform quality, pure flavor and downright honesty have been and always will be the foundation of our business. Clarke's Pure Rye is bottled in bond, guaranteed by the U. S. Government, 100 proof.

At clubs, the best bars and in particular homes.

CLARKE BROS. & CO., Peoria, Ill.

HUMMEL & HOCH Portland, Oregon, Distributors.

to be lightly imputed to anyone, but must be clearly, convincingly and overwhelmingly proven. "Applying these statements of the law to this case, we admitted fraud on the part of seven of the circulators for the reason that one of them admitted the fraud and conspiracy, and our own investigation led us to believe that such conspiracy did actually exist as to these seven. We deny fraud as to any other circulators, and call attention to the fact that 11 of them appeared in this case and by clear evidence sustained their work, and the court is asked to impute fraud to these men, merely from 'expert' testimony."

To our suggestion that only one proceeding was contemplated, in which the law sustained their work, and the court is asked to impute fraud to these men, merely from 'expert' testimony."

To our suggestion that only one proceeding was contemplated, in which the law sustained their work, and the court is asked to impute fraud to these men, merely from 'expert' testimony."

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcers, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body.

At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

The Toppo, Tasty Toast

Food science has taught us that there is much body-building nutriment in the whole wheat grain

which we do not get in white flour. The only question is how to make the whole wheat grain digestible. That problem has been solved in the making of

Triscuit

the shredded whole wheat wafer. It is the whole wheat, steam-cooked shredded, compressed into a wafer, and baked—the maximum of nutriment in smallest bulk. Many people prefer it to ordinary bread toast. Heated in the oven to restore its crispness it is delicious for luncheon, or for any meal, with butter, potted cheese or marmalades.
