W. W. REVOLUTION IS HELD IN CHECK

Strike Leaders in British Columbia Tire of Sleeping on Ground in Rain.

LUMBER MILLS ATTRACT

Because of Activity in Industry, Frequent Attempts Are Made to Tie Up Mills Socialists Refuse Aid.

SEATTLE. Wash. April i.—Dispatches from British Columbia and Washington points where the Industrial Workers of the world have undertaken to tie up the construction of two great transconsinental railways and the himber industry indicate that the "revolution." as their leaders call the strike, is not making progress.

The Grand Trunk Pacific men are still at work and rainy weather along the Canadian Northern has discoursed the Canadian Northern strikers, who sieep outdoors in blankets.

The strikers know that the projectors of these railroads are determined to build a certain amount of track this year in order to have the reads in operation on the dates fixed next year, and that the companies will not permit the contractors to lie idle for any iong period. Hence the strikers believe they can bring the contractors to learns.

Advantage Taken of Lumbermen.

The Washington lumber industry is sective than for a decade and the industrial Workers have taken advan-ings of the trade revival in their at-tempted tie-up. There is a supply of unemployed sawmill men to draw from in Graya Harbor. Some of the mills are in partial operation.

Efforts to induce the Grays Harbor

Efforts to induce the Grays harour loggers and the employes of a large mill in Tacoma to strike have falled. A mass maging has been called for sunday night in Seattle to denounce the action of Grays Harbor citizens in disting strikers out of the towns. The trouble on the harbor began last Winter with the campaign of citizens exainst street speakers in Aberdeen.

Many Adventurers Arrive.

Many Adventurers Arrive.

A call for velunteers brought adventurers from all parts of the West and those men undertook to organize the workingmen and call them out on strike.

The Industrial Workers are not armed as a rule and they are under a sort of rough discipline. Only a few tianadian strikers have arrived in Seattle and Vancouver, and it is believed that the most of them are in the towns of the region affected.

The industrial Workers are on bad terms with the regular trade unions and the Socialists, and are unable to cause strikes in any of the large Northwestern cities.

UNION IGNORES WORKERS NOW

bongshoremen at Astoria Refuse to Co-operate With Strikers.

ASTORIA. Or., April 4.—(Special.)—

cause any trouble at the local mills and none is expected. In fact the local mill workers have a union which does not recognize the I. W. W. in any way.

A couple of days ago the Astoria Longshoreman were requested by the I. W. W. to refuse to load steamers which were sent here from tirsys Harber and Willings liarbor for cargues, but the Lengshoremen's Union replied that its members would lead the vessels no matter where they came from.

Last evening a meeting that had been widely advertised to be a protest against the action of the people of Harmend and Hequiam in sending the strikers out of town, was held in the Finnish Socialist Hall in Uniontown. It was largely attended, many of the businessmen and others going out of curiosity. The meeting proved to be simply a Socialist gathering that was addressed by C. B. Ellis, of Portland, who made only a general reference to the L. W. W. strike.

At the close of the meeting, however, and after the greater portion of the audience had laft, a set of resolutions was adopted, asserting that the officials of Grays Harbor and Raymond have inaugurated a reign of terror and violated the constitutional rights of indiof Grays Harnor and keymone have inaugurated a reign of terror and violated the constitutional rights of individuals by dragging them from their hemes at night, forcing them into box cars and deporting them from the state. The resolutions protest these outrages as being subversive of law and good government and as tending to develop a spirit of anarchy and contempt for authority in the mass of citizens of which these workingmen are a part; and demand that Mayor Henderson, of Astoria, take steps to protect these refugees, who have been driven to this city in a pennilog condition, and that the Prosecuting Attorney of Paritie and Chebalis counties take immediate action for the protection of the personal property rights of these men and to punish the persons guilty of violating them. violating them.

Armed Napavine Citizen, However, Chases Him Out of Town.

CHEHALIS, Wash. April 1.—(Special.)—A lone I. W. W. cams to Chehalis today and after showing a gun to a number of persons, declared there was no one in Chehalis who cauld makes him leave the city.

The same man first stopped at the somerville Brothers mill in Napavine and there tried to compel some of the men to quit wask at the point of his gun. Sam Somerville had asme practice in this line recently at a Hou-Hou concatenation in Seattle and was the equal of the I. W. W. whom he ran gut of Napavine in short order.

following appeal to farmers:
"There is undoubtedly an organized effort being made by the express panies and merchants associations to panies and merchants associations to defeat any candidates for the office of inited States Senator or Representative in Congress who favors parcels post. All who have been asgressive in support of this "over due reform." have incurred the enmity of the above interests and it is now evident that a quiet and concerted effort is being made to defeat them at the primary election and secure the nomination of men who are in sympathy with the interests and apposed to parcels post. The usual tactics are resorted to, such as personal abuse in order to throw dust in the eyes of the voters and cover up the real issue, but their main hope is that a great many farmers will neglect to register for the primary election to be held April 19.

"We appeal to the farmers of Oregon and others who favor parcels post to register before the books are closed on April 3 at 5 P. M. then go to the poils on April 18 and vote for parcels post by voting for men who will represent you in this matter. We have no initiative and referendum as yet in National April 20 and 10 and defeat any candidates for the office of

"If we take advantage of this opportunity to do something for parcels post and show our appreciation of the work already done for this cause, it will probably influence the enactment of a parcule post law at the present session of Congress, but if we neglect this opportunity and the interests succeed in naminating their candidate, it will be some time before another Senator of Representative will dare to take a pronounced stand for parcels post.

"Six years is a long time to wait. Many of us will be dead before that time.

Explosion of Locomotive Near Roseburg Kills Engineer and Fireman.

BODIES HORRIBLY MANGLED

Dropping of Crown Sheet Held to Be Responsible for Accident. One Victim Leaves Wife and Three Children.

ROSEBURG. Gr., April 4.—(Special.)
—That the explosion of the Southern Pacific freight locomotive which occurred on Rice Hill, about 30 mises north of Reseburg early this afternoon, and resulted in the almost instant death of Engineer M. M. Bartlett and Fireman Hert Adderson, both of Roseburg, was caused by the dropping of the crown sheet was the opinion expressed by Assistant Superintendent Morris, of Portland, who returned from the scene of the wreck tenight.

According to the members of the crew, the ill-fated train was ascending Rice Hill, propelled by three lecomotives, when one of their humber suddenly exploded with a crash that could be heard for nearly a mile.

Bodies Horribly Mangled.

Bodies Horribly Mangled. Terrified by the impact of the explo-sion and the sound of escaping steam the trainmen, who occupied the caboose at the rear of the train, hastened forward to find the locomotive a complete

Well trained in the art of "first aid." well trained in the art of hist ald, the trainmen worked heralcally, but it was with difficulty they extricated the unfortunate enginemen from beneath the wreck. Bartlett was dead when taken from the debris, and Adderson expired 18 minutes later.

The bodies of the victims, which artical here together are horribly man-

rived here tonight, are horribly mangled.

Adderson had resided in Roseburg for nearly 26 years and for 15 years had been employed by the Southern Pacinc Company. He is survived by a wife and three children, of Roseburg, and his father, who lives at Myrtic Crock. He was 35 years old.

Bartlett was unmarried. He leaves a mother and father who live at Grants Pass. He had resided in Roseburg six years and was 32 years old.

Investigation to He Held Today. Local Southern Pacific officials de-clare that the ill-fated locamotive left the local shops this morning and at that time apparently was in the best of condition. It was of the "hog" variety and one of the largest in the local serv-ice.

Other than wrecking the locomotive, a car of oil was demolished and several cars of poistness were damaged. An investigation will be held tomorrow in hope of placing the responsibility for the accident.
