Federals and Rebels Maneuvering

Near Jimenez. JIMENEZ April 7.-The movements

of both federal and rebel forces today indicated that the campaign in which the rebels won the victories at Jimener and Escalon must be fought over again, virtually on the same ground. Authentic information received here anys that General Huerta, at the head of a body of federals, was moving rapidly north along the railroad line and that Generals Aubert and Telica were

moving parallel with the railroad some miles to the west.
General Oresco, with a military escort of 200 men, went to Chihushus today to pay a farewell visit to his family before embarking in earnest on the southern campaign. PHOTOGRAPHS OF PERSONS FIGURING IN PURSUIT OF VIRGINIA

Warrant for Man in Texas Follows Disclosures in Case of Utah Concern - Loopholes in Contracts Disclosed.

SALT LAKE CITY. April 7 .- Although te suspected that many persons were being victimized by unreliable loan ompanies, County Attorney Willey, of this county, has been amazed at the revelations in his mail since the report was published a week ago of his pro-ceedings against J L. Wyatt, secretary of the Equitable Loan & Investment Company, on the charge of obtaining money under false pretenses. At the close of business yesterday Mr. Willey had received an even hundred letters from patrons of the Egultable Company

alone, telling of payments on loans that had not been made. The letters came from persons in Colorado, Texas, Wyoming, Idaho, Ne-

vada and Arizona, as well as Utah. Additional Warrants Issued. Men who were dealing with other loan men who were dealing with other foun-ompanies also took notice. Their com-plaints led to the arrest of A. J. Crosler, president of the Salina Orchard & Lean Company, a Utah corporation, and the issuance of a warrant for J. J. Metcalf, of Dallas, Tex., president of the Stand-ard Real Estate & Loan Company.

Mr. Willey's mail bears testimony that thousands of dollars have been paid by farmers and others in many states on loan contracts that brought no return. On close examination these contracts are found to contain many loopholes, through which the loan com-panies can postpone indefinitely the de-livery of the loans.

COUNTY ROAD IS SOUGHT

Cleone Citizens Want Private Thor oughfare Made Public.

CLEONE. Or. April 7.—(Special.) —
A petition addressed to the County
Court is being numerously signed, asking that a private thoroughfare, known
as the Wilkes road, be made a county
road by due process of law.

The road has been in use for nearly
30 years, but is not improved, although
a part of the Cleone rural free delivery route, and is the only road leading to the public school in District
No. 7.

The action to have the road made public property is caused by the fact that the school district wants to build ing is old and almost beyond the days of its usefulness. The district owns an acre of land, which is the most cenan acre of man, which is the most cen-tral and convenient, but the school law frowns upon the erection of a new building unless it is on a public road, hence the eagerness of the people to have it designated as a public thoroughfare.
The matter will come before the

court on May S, when a large delegamatter with strong hopes of success in their undertaking.

HOBSONS OF JAPAN SAY NAVY IS WEAK Just Try Nature's Cure

Jingoes Would Add 500,000 Tons to Sea Strength at Army's Expense.

HOPE OF LEADING GONE

Rasis of 76 Per Cent of Foreign Rival Taken, Which Would Need Addition of 58,000,000 Yen

to Appropriation.

BY P. BECKWITH DAVIS.
TOKIO, April 7.—Peace is the last thing thought of by a certain group of Japanese statesmen, who remind one from the United States of Richmond P. Hobson when he raised his voice in Congress crying for a greater Navy to repel the Oriental invasion that he saw in his mind's eye. Representa-tives of this coterie of agitators are found in every center and their cry is that Japan is not ready for war-although no war is impending. The great mass of people, high and low, in Japan is for peace, and the greatest statesmen have no desire to plunge the nation again in war with any coun-try, East or West.

try. East or West.

The truth in the cry of the Japanese lingoes is that the Mikado's navy is not relatively as strong as it was up to and after the Russo-Japanese war. After the war with China 45 per cent of the nation's revenues were appropriated toward the development of the army and navy, more than half being expended on the navy.

Naval Position Weakened. Because of this, the navy was rapidly developed and at a bound forged ahead of the navies of the United States and Germany. It was out-classed only by England, France and Russia. The carrying out of this programme enabled

carrying out of this programme enabled the Japanese to win signal victories in the war with Russia.

A prominent member of the minority that is urging upon the country a much more liberal policy for national defense has recently outlined some of their arguments. He said:

"Seven years have elapsed since our victories over Russia and since we showed the world that Japan is a nation to be reckoned with. But after

tion to be reckened with. But after these seven years we find our position among the naval powers far in the rear. The United States and Germany, among the naval powers far in the rear. The United States and Germany, once inferior, are now more than twice as strong as we, and there is a probability that by 1310 they will be five times as atrong. No matter how clever and determined our officers and men may be, with such odds against them it would be impossible for them to gain a victory. Without discounting the importance of strategy and courage, it would be hopeless to engage an enemy without a navy possessing 70 per cent of the strength of the one engaged. The ideal navy for our country's defense would be three squadrons of the newest and most powerful type and ilke number of aquadrons of the battleship cruiser class, with some in reserve. But since this is proposing what we would have and have no prospect of getting, we should take as a standard either the United States or Germany and build and equip a navy equalling 70 per cent of the one taken as a standard. Reducing this to figures, there should be two squadrons, each composed of eight battleships and four battleship cruisers. The carrying out of this programme calls for an outlay of

this programme calls for an outlay 58,000,000 yen annually to be added the present naval appropriation.

Army Sacrifice Suggested. "Our army consists of 19 divisions

but when first and second reserves are added the strength is more than 40 di-visions. Should this force be put in the field one year in Manchuria, the the field one year in mancharia, the total expense would be 2,000,000 you at the lowest estimate. During the war with Russia a little more than 400,000 soldlers were kept in the fight, the expense of which was 1,500,000,000 yen for 12 months. The tonnage of our navy at that time was about 300,000,000 but the total expense on this bea-900, but the total expense on this head from the beginning to the end of the war, was 220,000,000 yen. We could easily use a navy of 1,000,000 tons at the comparatively small expense of 1,000,000,000 yen, whereas our whole army could not be equipped and sent to the front for less than the enormous sum of 3,000,000,000 yen. An army of 400,000 and a navy of 1,000,000 tons would be the proper proportions. 000, but the total expense on this head

WILSON PAPERS STOLEN

BURGLARS RANSACK ROOM OF CANDIDATE IN CHICAGO.

Pact That Other Valuable Property Was Untouched Shows Activity of Political Foes.

CHICAGO. April 7.—(Special.)—Burgiars with undoubted political affiliations today raided the rooms of Governor Wilson in the Sherman House while he was absent and stole all his private letters, vouchers and other papers. That it was the work of political enemies is shown by the fact that valuable silver and other property in the room was unroughed.

Two men did the work and escaped in a taxleab. Governor Wilson tonight said the contents of his suitcase would be a disappointment to the thieves and those employing them, as any of the letters could be published without

William C. Nibiack, president of the Wilson Club of Illinois, was more outspoken. DON'T USE DRUGS FOR CONSTIPATION

We all know that constipation brings on countless other complaints if not taken in hand, appendicitis among them also that any drug will lose its power after being taken for a time—but we should also know that every drug forces Nature instead of assisting her, and will, if continued, make us slaves to

them. There is now a method of Internal Bathing which will keep the intestines as clean and pure and free from waste as exacting Nature can demand—which, taken occasionally, will prevent constipation, biliousness with its depression, and the countless more serious discases which are caused by the blood taking up the poisons from the intestines and carrying them through the system.

That method is the "J. B. L. Cas-cade," which is being enthusiastically used by many thousands, is prescribed by the most enlightened physicians everywhere and is now being shown and explained by Woodard. Clarke &

Co. Druggists, Portland.
Everyone should at least investigate

TAFT LEADS IN BENTON

HEAVY VOTE IS EXPECTED TO FAVOR PRESIDENT.

Registration Shows Republican Enrollment Strong With Democrats Leading in Three Counties.

CORVALLIS, Or., April 7.—(Special.)
—Of the 1647 voters now registered in Benton County, only nine were unable senton County, only nine were unable to write their names and of these three were prevented by failing eyaight and not illiteracy. The Republican enrollment totals 976, Democratic 542, and other parties and independents 129. The Democrats have a majority in three of the 17 precincts.

If, as is expected, a heavy primary vote is polled, Taft probably will have a clear majority of about \$80, with Roosevelt in second place. La Follette does not speak in this county, but many Benton voters will go to Albany to hear him, and it is possible that his Oregon tour will result in putting Rooseveit in third place here. Most of

the new support he develops will be at the expense of the ex-President. A conservative estimate gives Seil-ing a plurality of 150 over Bourne in this county. Bourne has undoubtedly lost ground locally by the kind of plea for re-election he makes in the candidates' pamphiet issued by the state. His statement that his nomination and election will be the test of the intelli-gence of Oregon citizenship and his exgence of Oragon chisenship and his ex-planation that his efficiency as a Sen-ator was acquired by the expenditure of several times \$50,000, have been the subjects of general adverse comment. Clark will apparently lead in the Democratic primaries in Benton, Har-mon has many admirers in the party, but most of them will vote for the Missouri man. Walter Pierce, for the Dem-ocratic Senatorial nomination, will re-ceive most of the votes of Corvallis Democrats and probably of the entire
