Eastern Engineers Vote in Favor of Walkout.

50 RAILROADS AFFECTED | Falls.

Drastic Move to Be Taken if Pay Is Not Bettered-Managers to Coning April 15.

NEW YORK, April 12,-By a ma ority of more than 23,000 out of 25,000 votes cast, lecomotive engineers on 50 railroads east of Chicago and north of the Norfolk & Western have authorized a strike should further ne-gotiations with the railroads for in-

soliations with the railroads for increased pay fail.

The count was completed at noon, and the result announced by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, to J. C. Stuart, chairman of the General Managers' Association of the railroads.

The general managers have called a meeting here for April 15 to consider the result. The engineers' officers have notified Stuart they would remain here for "a reasonable time," to await the counter proposition. The original demands of the engineers for increased pay aggregating 15 per cent, recently were rejected by the railroads.

Stone announced that 32.1 per cent of the engineers had voted to authorize a strike.

ize a strike.

In his letter Stone asks if the rallroads have any counter proposition to
make and notifies Stuart that if none

is received a strike on the 50 roads is subject to call at any time. In addition to the 25,000 members of the Brotherhood, Stone said approximately 15,000 members of the Brotherhood of Locomotive Firemen also had voted. Their vote, he said, was overwhelmingly in favor of a strike.

"The result speaks for itself," Stone said. "The next move is up to the railroads."

"If the railroads do not make a coun. ter proposition, will you call a strike?" he was asked. "That is not a fair question at this time," he replied. "I cannot answer."
