FESTIVAL SEEKS CRUISER

Navy Department Asked for Permission to Use Boston. Adjutant-General Finzer, of the Oregon National Guard, has forwarded to the Navy Department at Washington, a request from the Rose Festival Association that the cruiser Boston be assigned to participate in the marine parade the opening day. It is not improbable that, if a vessel from the Pacific fleet is sent here that she will also

take part in the exercises incident to the landing of King Rex.

The work of preparing the Boston for her Summer mission in the stream has begun at the City Lave. Her masts were partly painted Thursday, but rain interfered with the completion of the task. Her entire exterior will be painted white as soon as she shifts to the stream, which will be when arrangements can be made for towing her, because at her present berth there is such a mass of cinders carried from sawmill plants that it is useless to repaint her

BABY HOME IS CONDEMNED

Health Officials Assert Children Cared for Improperly. An investigation of a baby home conducted by Mrs. A. Miller at Twentieth and Raleigh streets, made up of State Health Officer White, City Health Officer Wheeler and County Physician Geary, revealed a shocking condition of affairs and an attempt probably will be made to have the children removed.

The doctors found four babies and three small children between 2 and 4 years.

The room where they were kept, according to the physicians, was filthy, their clothing was dirty and had not been changed for many hours, and the food was inferior and kept under the most unsanitary conditions. Although Mrs. Miller asserted that most of the babies were relatives of hers, it is known that she has applied to various institutions in the city to send babies to her place. An electric motor with a number of five-inch rods mounted at right angles to its shaft, has been invented in Germany for heating and insulating furn.

SCENIC PARK OPEN MAY 5

Council Crest Resort to Have Many New Features. Preparatory to the opening of the new Council Crest scenic amusement park, work is going on rapidly. The formal opening will be Sunday, May 5, though most of the attractions will be going full blast before that time. The management has installed a \$5000 pipe organ in the skating rink and it is so located that the music can be enjoyed by everyone in the park, as well as by those who are skating to the tunes. On top of the observatory there has been placed a huge searchlight which will sweep the country for miles around this Summer. All sorts of fun is forecasted for observation parties who go up on the tower during the Summer nights. Observation parties have come into vogue in the Eastern parks and white cities during the last two years, but this is the first opportunity for anything of the kind in the Northwest. The parties are attended by an operator, who works the searchlight in all desired directions, and no end of fun and amusement results.

Additions and improvements are being made to the scenic railway for this season.

and special accommodations provided for those who will visit the new park particularly for the view. Baseball will be an "added attraction" this Summer. West Makes Requisition. SALEM, Or., April 19.—(Special.)—Requisition papers were issued by Governor West today for Marion W. Deardorff, who is wanted in Umatilla County on a charge of assault with a dangerous weapon. He is under arrest at Pasco, Wash.
