

STOCUM IS GIVEN PLURALITY OF 113

Lead Is Increased 62 Votes When Complete Returns Are Announced.

OFFICIAL COUNT STARTED

Candidates Disappointed When Delay Occurs--County Clerk Fields to First Check Up on Precinct Committees.

SENATOR BOURNE SENDS CONGRATULATIONS TO SELLING.

Sen. Selling, Republican nominee for United States senator, yesterday received a telegram from Senator Bourne extending congratulations and assuring him of the senator's hearty support.

Complete unofficial returns give Dr. Sam C. Stocum a plurality of 113 over Dr. James C. Hayes for the Republican nomination for Coroner.

On Sunday, with five precincts missing, Stocum was 512 votes ahead of the East Side man, but the complete returns increase his lead to 113. Four of the five precincts gave Stocum pluralities aggregating 53. Hayes carried the other precinct by 3, with the result that Stocum had a net gain of 51 increasing his plurality to 113.

Delay Disappoints Candidates.

To the disappointment of anxious candidates as well as the supporters of the various Presidential candidates on both tickets, County Clerk Fields first tackled the official count on precinct committees yesterday. It was necessary for him to do this in order to determine the newly-elected members of the County Central committee and certify their election before tomorrow, when the law requires that the committee, as newly constituted, shall meet and effect organization by choosing officers and selecting members of the state and Congressional committees.

The count as to precinct committees on both tickets proceeded smoothly, but so many tickets cannot be completed before tonight.

With the precinct committees dispatched to the canvassing, the candidates nominated in Friday's election.

The result on any of these offices, with the possible exception of Coroner, will probably not be changed sufficiently to insure the nomination of any other candidate than those now in the lead.

The unofficial count gives County Commissioner Lightner a lead of 646 over T. J. Kreuder, whom he has defeated for the nomination of County Commissioner. Complete unofficial figures give W. H. Fitzgerald a plurality of 412 over Harry C. McAllister for Sheriff. The vote stands: Fitzgerald, 522; McAllister, 111. Hollingsworth finished in third place with North fourth and Wilson fifth.

The complete unofficial count on Assessor gives Henry E. Reed a plurality of 583 over B. D. Sigler, candidate for a third term. The vote stands: Reed, 13,134; Sigler, 12,551.

DOLL ACT IS FEATURED

MICHIGAN GIRL TO APPEAR IN "CAMPUS MOUSER."

Orders for Flowers to Go for Bidding The plans on opening night will be received today.

"Oh, You Beautiful Doll" the orchestra will play with appropriateness and sincerity when Ralph Hurlbert, the pantomime artist, unties the blue ribbons from the Dresden box and discloses to the audience, Geraldine Scottford.

ford, of Jackson, Mich., who appears in the "Campus Mouser" in a mechanical doll specialty. Miss Scottford is visiting her sister, Mrs. W. F. G. Thatcher, and consented, when plans were made by the committee of the Fruit and Flower Mission, to produce Miss Grace Gerber's play under the auspices of the mission, to present her mechanical doll act, in which she has won marked successes, as one of the entire act novelties which are to be introduced.

Mrs. E. C. Giltner has called a meeting of all the committees appointed by her to have charge of preparations for the play, to be held at the Day Nursery of the mission at 10 o'clock this morning to report the progress in their various departments. The play is to be produced on April 23 with a matinee on May 1st, and every committee will be actively engaged on preparations almost constantly from the present time. An interesting feature today the flower committee, Miss Mabel Beck chairman, will receive orders for flowers to be sent to the actors on the first night and at the matinee.

The ticket committee will have tickets on sale every day at the Multnomah Hotel, which will be exchanged for the box office at the Hellog with the theatre on April 23. Up to 10 o'clock to be on the exchange of tickets purchased in advance. Up to date the ticket committee reports very successful sales, practically all of the higher priced reserved seats having been taken.

The proceeds from the play will be applied to the extension of the various charities in which the Fruit and Flower Mission is active. In addition to maintaining a day nursery for the children of working mothers, the work of the mission includes visits to the sick, distribution of food and clothing among the needy, visits to the county hospital once a week with delicacies and magazines for the patients, and many other forms of charitable activity.

OFFICER KILLS INDIAN

Drunken Bravo Resents Arrest; Police Shoots in Self-Defense.

KLAMATH FALLS, Or., April 22.—Chief of Police Sam L. Walker shot and killed George Smith, an Indian, this noon. The Indian was drunk and caused trouble. He resisted arrest, took the officer's club away from him and beat Walker over the head. Walker fired, and the bullet lodged just below the heart. Bystanders disagree as to whether the killing was justifiable or not.
Smith was to be married to Lottie Bell this afternoon. He had been drunk for two days and came here to attend the circus. He is aged about 30 years. Walker is the Democratic nominee for Sheriff.

CANVASS IS SLOW

Republican County Committeemen Not All Known.

MANY MEN ARE NAMED

Voters Cast Ballots at Random on Committeemen and Time Is Required to Check Over List on Candidates.

With the canvass of the vote on committeemen not half finished, the result in a number of precincts shows a tie in many precincts, the voters voted at random on committeemen. The result was a scattering vote. In a number of instances six or eight men in a precinct each received one vote. In these cases it will become necessary for the County Clerk first to check over the list of candidates with the registration blanks to ascertain if the candidate resides in the precinct in which he has been named. If not, his name will be eliminated. When this has been done and a tie remains between two or more, it will become necessary for those candidates to draw lots to determine the winner. All vacancies on the committee will be filled upon vote of the other committeemen. The official count discloses one unusual thing and that is that the name of J. H. Stanley, probably a union man, has received one or more votes for committeeman in fully 25 per cent of the precincts. The same is also largely true of Charles Conroy, of Precinct No. 1. Mr. Conroy was elected committeeman from his home precinct, but was also the choice of an occasional voter in other precincts throughout the city. Votes for committeemen, however, are counted only when cast in the precinct in which the candidate resides. With no committeemen elected in Precincts No. 7 and 62 1/2, the official count so far as it has progressed shows the following result as to election of precinct committeemen:

CITY TO CHANGE GRADES
Railroad Viaduct Plans Now Under Consideration.
 To eliminate the danger of grade crossings along the main line of the O-W. R. & N. Company on the East Side, a plan is being worked out by the street committee of the City Council and members of the engineering force of the railway company for viaduct or underground crossings on all the main thoroughfares.
 At a joint meeting yesterday of the Council committee, City Engineer Hurlbert and chief Engineer Foschke, of the company, the problem was investigated in detail and immediate steps will be taken to complete plans for the work in the near future.
 Ways and means of financing the proposition is one of the factors in the proposal as it stands at present. The railway company has signified its willingness to meet its end of the expense, but the Council committee has been unable as yet to decide how to finance the city's part of the work. District assessments have been suggested, but are not so greatly favored by the committee as a special railway crossing appropriation or the general fund.
 It is proposed to change the grades to either overhead or underground on the following streets where they cross the railway tracks: East Thirty-third, Sandy boulevard, East Forty-seventh, East Fifty-third, East Fifty-fifth, East Sixty, East Seventy-fourth, East Eighty-second and perhaps at one or two other points.
