the same course it did hist year. Keen com-petition, resulting from a fight between the different buyers, has sent the price up to a point that has made Oregon the highest market in the United States. At Eddyville yesterday the third pool of the season was old to William Brown & Co., of Salem, and brought 38.45 cents a pound.

The pool sales in Oregon to date this car have been as follows:

The sext sale will be at Lebanon on Friday. On Saturday, at Dallas, the Polk County pool, the largest in the state, will be sold. The Hillsboro pool will be sold on Monday of next week. No date has been fixed yet for the sale of the Scie peol.

Local mohair dealers assent that the price
paid at Eddyville yesterday is out of all
reason, based on the Boston mohair quota-

ienz, In the Eastern city, Ovegon mohair a quoted at 28 cents, and on this selling basis, the hair would have to be bought here at not over 26 cents. The mobals growers, however, have no complaint to ake, and are overloyed to see the buyers

In the open market up to 26 cents was offered yesterday at various Valley points. The local mills are reported to have bought selections at this figure.

Ten tons of Cape of Good Hope mohair are on the way to Portland. The lot was sent to San Francisco by steamer, and there transferred to the Geo. W. Elder. This importation is due here today. The Cape hair is being imported by Balfour, Guthrie npany, and is for the Multnomah Mo-

## STOCK TONE HALTING

UNCERTAINTY OVER EASTERN ENGINEERS' POSITION.

Closing Is Irregular, but With Few Losses-Time Money Rates Lower.

NEW YORK, April 22.—Uncertainty respecting the outcome of the difference between the Eastern railway managers and the locomotive engineers was the foremost factor in today's business on the stock ex-

factor in today's business on the stock exchange.

There were other developments also that
served to check any manifestations of a
builtah character. Advices were that flood
conditions are graver, that Winter wheat
in Hilmols, Ohio and Indiana has been severely damaged and that general trade conditions are not quite up to the same period
of last year.

The adoption of a resolution by the United States Senate calling for a review of the
American Tobacco Company case decided
by the United States Circuit Court caused
an abrupt decline in some of the former
subsidiaries of the company. The Senate
also took a hand in the proposed dissolution
of the International Harvester Company and
the United States Supreme Court rendered
a decision, the effect of which makes for
more reasonable rates to shippers.

The market was dull and sugging for
the greater part of the day, except in the
first hour and the last. The closing prices
wiped out a majority of the more material
declines and net losses, except in a few
instances, were scarcely more than fractional.

Relaxation of demand for cash resulted in

Honal,
Relaxation of demand for cash resulted in
another reduction of time rates here, the
quotations for three and four months being
if per cent under last week's. The subtreasury was again the medium of a shipment of currency to New Orleans and San
Francisco.
The bond market was inclined to sag,
with some support in the better known issues. Total sales, par value, \$2.384,000.
United States Government bonds unchanged

Wheat Prices Up.

EXCITEMENT AT CHICAGO

Advices Are Later Contradicted and Close Is Irregular, With New Crop Months Making the Best Showing.

CHICAGO. April 22.—Alarming crop reports from Nebraska brought about buying today in wheat. The news was contradicted, however, and the market closed irregularly varying from %c lower to % % %c advance. What stirred up the wheat bulls was a statement from an expert that in Nebraska the crop loss was sensational in some countless and the prospect poor in nearly all. He added that there was enough damage already apparent in Kansas and Nebraska to put both in the doubtful class this yoar. It was declared the abandoned plantlings probably would reach 1,500,000 acres and that the condition may go below the average. These assertions later were denounced on good authority as false in part and misleading as a whole. Reports, too, of good rains having a widespread effect tended to wipe out most of the advance due to the sampede. Nearly all the strength and excitement was in the new crop deliveries.

Lenders in the corn crowd were positive in their views that the edge was off the big buil market of the last few weeks. Shipping call was limited and country offerings on larged.

Wet weather developed strength for oats.

Wet weather developed strength for oats.
It was a favorite theory that the rain means postponement of seeding and increased the proportion of fields that would go into corn.
Speculative demand absorbed the offerings of provisions and more than offset a decline due to large runs of hogs here and west. Lard led the advance.
