SPOKANE, Wash., April 25 .- (Sperial.)-"Tack" Brown and his followers among the boy students in the high school at Palouse, Wash., have started a school row which threatens to give them a shock of their lives.

In order to humiliate Superintendent Elmer C. Jones and defy his authority, the gang yesterday spilled foul-smelling liquid in liberal quantities inside the building, made the laboratory room look like a kitchen on moving day, locked the superintendent in a room with "Tack" Brown and otherwise made living so unpleasant in the classrooms that all classes were dismissed. Public feeling is aroused and the school directors are working on the case and will be backed in whatever action they

The row started with friction between Superintendent and teachers and the pupils. Last Friday Superintendent Jones expelled a student for breach of discipline. Other students held a kangaroo court, acquitted the student and femanded that the superintendent shake with him and reinstate him in school, which was done. SALEM, Or., April 25,-(Special.)-That the initiative petitions directed at State Printer Duniway to place him or a flat salary as soon as the votes are counted in November this year, will find a place for the bill on the ballot, was the declaration of Harry H. Hill today. Hill is a prominent union labor man and has been largely behind the move to amend the act of 1911 in such

a manner as to make the flat salary ef-fective this year.

Petitions were held up pending a deeision in the University of Oregon cases, as the question was raised there as to the validity of petitions where several sheets of signatures are at-

tached to one copy of a petition.

The Supreme Court completely dodged this question in its decision on the referendum cases. Many of the Duniway petitions were so arranged as to make them invalid if the court had upheld Judge Galloway, but as no steps were taken in this direction, decision has been reached to put the Duniway bill on the ballot,
