THE MORNING OREGONIAN, SATURDAY, APRIL 27, 1912.

Captain Lord said that at the Callfornian's position, 1915 miles away from the Titanic, it would have been

ing, when the Frankfurt reported that the Titanic sunk after hitting an ice-

CALIFORNIAN SEES ROCKETS

Donkey Engineman Says Vessel Was

Less Than 20 Miles Away. The affidavit of Ernest Gill, a don key engineman on the steamship Cal-ifornian, who said that he say distress rockets from the Titanic and tried to organize a protesting party among the crew when the officers failed to give attention to them, was read in the early part of the hearing. Gill was placed on the witness stand immediateafter Senator Smith, the chairman sworn, "some time before midnight. She was about 10 miles away and went past us apparently at full speed. She lights. The California and I saw two tiers was a big ship and I saw two tiers of lights. The Californian at the time was caught in the field ice. Her en-gines were stopped and she was drift-

this-Lower, lower: lower'-lowering the boats. He stood right by the davit with one hand on the davit and one hand in motion to the officer to lot him know how far he wanted him to go in lowering the lifeboat to the wa-ter, 70 feet below." "Did Ismay do anything besides help regulate the lowering of the boat?" "He helped the women and children into the boat and told the men to make way." way." Wheelton told of putting into the boat a woman who did not want to

George Thomas Rowe, a quarter has ter, examined by Senator Burton, com-manded the lifeboat in which Ismay escaped from the sinking ship. Rowe was ordered in charge of the boat, the ninth to leave, he said, by Captain Smith. He said no one asked Ismay to

When Chief Officer Weyl asked if there were any more women and chil-dren, there was no reply," said Rowe, "so Mr. Ismay came aboard the boat."

SEAMEN WARNED OF DEATH

Men Skylark as End Approaches,

An interesting bit of testimony was that of Samuel S. Hemming, a seaman, who said he was asleep when the ship struck, and after he had looked out he went back to bed. A storekeeper did the same. Later the boatswain came

"Turn out, you fellows, you have not half an hour to live. That is from Mr. Andrews. Keep it to yourselves and let no one know

Andrews, Hemming said, was of the firm of Harland & Wolff, builders of

W. H. Taylor, of Southampton, fireman on the Titanic, said a majority of the crew did not realise that the Ti-tanic was sinking.

"How do you know?" asked Senator Newlands. "Because they were all skylarking

Taylor said he only realized the Ti-nic was sinking when he observed er going down by the nose.

Frank Osman, a seaman who was in the lifeboat with Fourth Officer Box-hall, added another strange chapter to

from the Titanic, it would have been impossible to see either Morse signals or the distress signals. "The first news that reached me of the disaster," said the officer. "was shortly after 5 o'clock Monday mornpart and the after part came up right again and, as soon as it came up, down it went again.

"The steerage passengers were all down below on the Titanic and after she sank a certain distance it seemed she sank a certain distance it seemed to me all the passengers left on board, first, second and third classes, climbed to the top deck, the top poop." "Did you see them?" "It looked black. It looked like a big

crowd of people."

MESSAGE SENT TO ENGINEER

Quartermaster Tells of Carrying

Word From Titanic's Captain. Alfred Oliver, standby and quarter-master on the bridge at the time of the crash, told of taking a mysterious mes-

"What he did not read. "What kind of a message was it?" asked Senator Burton. "I cannot say as to the message. It was on a piece of paper and the paper was closed." "Where did you find the chief engi-near.""

The lookouts, as well as the rockets which she sent up later. From the rockets, Gill judged the described the rockets, bis descr

An Attractive Assemblage of Misses' and Girls' Apparel at Special Removal Prices for Saturday

New Arrivals in Girls' Coats \$5.95-\$8.95-\$12.95-\$6.39-\$4.69-\$13.59

-A season was never more joyfully welcomed than this, as it brought styles for young girls of the difficult age-not only one model from which others are copied-but a variety of models so the young miss can now have just as delightful a time in choosing and selecting her apparel as the older girls.

-The coats mentioned are noticeably original and youthful in their conception.

The materials are black satin-black moire-black and white stripe hairline cloth-plain white basket woven cloth and the new canvas cloth.

Made in the loose box styles with large shawl revers and sailor collars with cuffs to match. These collars and cuffs form the trimmings and are combination materials such as king's blue and white-black and white stripe, and self materials with new stitchings.

-Coats in shades of apricot, tan, white, black, navy and browns. -Sizes for girls from 8 to 14 years.

Jaunty Hats for Misses and Children Styles That Sell Regularly at \$1.50 Removal 98c

-For Saturday we are specializing in our millinery department Ten Distinctive Models in Children's Hats at 98c Each. Every one of these models sells regularly at \$1.50

-Becoming misses' hats of patent milan straw trimmed with a band of velvet around the crown and finished at the side with a large bow effect of the same material. -Another dainty little model is for a small child. This hat is made of rough braid trimmed around the crown with a band of shirred chiffon and held at the side with a rosette of chiffon and dainty small roses.

cial reference to their bours, to whom

they reported and by whose authority they left their post. "I think these things are regulated by the company and no; by the ship," said Franklin,

Senator Smith referred to the delay

the necessity of placing the operators

-Then, there is a charming poke shape that is always so becoming to the little girls. This model is of a rough straw trimmed with folds of silk in many colors.

-Another little poke hat is of rough chip braid; around the crown is a band of shirred ribbon and small ostrich tips at the side. -Another misses' hat is of patent milan straw; is a rather severe

tain:

tailored style, trimmed with silk.

Tailored Suits THREE-PIECE STYLE Removal Prices \$12.95 \$9.35, \$11.89, \$7.65 -Again we have styles in tailored suits for girls that closely resemble

-They consist of box coat and a one-piece dress made with kilted skirt. The waist has elbow length kimono sleeves and round, collarless neck. Very effectively trimmed with braid and buttons.

-Made of stripe cloth in tan, gray or reseda, and tan or navy blue serge, with white serge trimmings. Also black and white check cloth with silk trimmings and buttons. -8 to 14-year-old models.

Miss Wells

Our new Embroidery Teacher is now conducting

Free Lessons in Art Embroidery Every afternoon from 1 to 4.

Saturday's Removal of Girls' Tub Frocks 75c and 85c Wash Dresses, Removal 59c -These little frocks are most charmingly made of plain colored chambray or striped and checked percale. Trimmed with bias folds, pipings or bandings of a plain colored material. Made with the youthful long French waist with side or back openings.

\$1.50 White Frocks, Removal 98c -Dresses for children from 2 to 6 years of a fine white lawn. These dresses are also in the long French waist style with wide embroidery ruffle forming the skirt. The waist has a square cut neck finished with an embroidered band. Short puff sleeves, also finished with an insertion band.

crowns, rolling or drooping brims. Some with rows of lace forming the crown combined with straw brims. Prettily trimmed with shirred ribbon bands, velvet bands or bows, flowers and wreaths.

Every Article in the Store Reduced

those for grownups

cigarette. Ten minutes later he saw a white rocket 10 miles to starboard and remarked to himself: "That must be a vessel in distress."

Gill did not notify the bridge or lookout because, he said, it was not his business and they could not have belped but see the rockets and he suped they would pay attention. Gill ore that he then turned in and at 6:40 A. M. was awakened with orders to turn out to give assistance because the Titanic had gone down. The Cal-ifornian then was proceeding at full speed, clear of the ice field, but with plenty of icebergs about. He heard Second Officer Evans telling Fourth Officer Wooten that the third officer

Officer Wooten that the third officer had reported rockets on his watch, and Gill said he knew then it must have been the Titanic that he had seen. Gill said the captain had been noti-fied of the rockets by the apprentice officer, thought to have been named Gibson. The captain ordered Morse signals to the distressed vessel sent up. No reply was received. Gill said the next remark he heard Gill said the next remark he heard

Gill said the next remark he heard Evans make was: "Why in the devil did they not wake ward for News of Disaster.

up the wireless man?

The entire crew, said Gill, talked among themselves about the disregard of the rockets. Mr. Stone, the second navigating officer, was in the Cali-fornian's bridge at the time of the the rocket signals. Gill declared that in making his affidavit he had no ill will toward any officer of the Californian; that the Californian certainly was less than 10 miles from the Titanic, which he Californian's officers had reported position

He said that the captain and the rescale that the captain and the quartermaster who was on duty during the discharge of the rockets had a three-quarters of an hour consultation a day or two before the Californian reached port, and that the quarter-master declared that he did not see the rockets. the rockets.

TESTIMONY FAVORS ISMAY

Director Declared Not to Have Forced Himself Into Boat.

One sailor whose affidavit was read today said that J. Bruce Ismay, man-aging director of the International Mercaptile Marine, aided women and children into the boats.

Mercantile Marine, ander women and children into the boats. George Rowe, a quartermaster in charge of the lifeboat in which Mr. Ismay left the Titanle, said in his state-ment that Mr. Ismay did not get futo the boat until women and children had failed to respond to a call. Ismay, he declared, was not ordered into the boat, but stepped in just be-fore it was lowered. Ismay, he said, issued no orders in the lifeboat, leav-ing the witness in absolute charge. The evidence brought out by the in-dividual method of examination was said to have disclosed the fact that the lifeboats on the Titanic were not only difficult of access when swung out on the davits, but that they were not on the davits, but that they were not fully equipped. Senator Newlands examined Edward

Senator Newlands examined roward Wheelton, first class steward of the Titanic, who testified that J. Bruce Ismay "stood up by all the boats that I saw get away." He corroborated pre-vious testimony that Fifth Officer Lowe told Ismay to "get to hell out of here," when they were working on lifeboat No. 7

What was Mr. Ismay doing?" asked

"He was standing aft and going like

"Do you know what it was? "I do not, sir." George Frederick Crowe, of South-ampton, a steward, gave a new version of how the Titanic went down. "After we got clear of the ship, her lights were still burning very brightly," said Crowe. "But as we got away she seemed to get lower and lower and she element stood up nernendicular and her

line. ness read the cable message which he sent to the Liverpool office telling of the accident and declaring that the

the accident and declaring that the Virginian was on the way to the Titan-ic's ansistance. The cablegram was sent at 6:15 Monday morning. "Do you not think," asked the Sena-tor. "that if the information you cabled abroad was worth reporting to Liver-pool it certainly was important enough to give to the public?" Franklin said he based his report en-tirely on a telephone communication

seemed to get lower and lower and she almost stood up perpendicular and her lights went dim and presently she broke clean in two, probably two-thirds of the length of the ship-two-thirds in the water. the third of the aft finnel sticking up. She broke and the after part floated back. Then there was an explosion and the after part turned on end and sank." Crowe told of the Titanic's impact with the leaberg, saying the shock was so slight that after going on deck he went back to his bunk and that "the stewards were making quite a joke of it; they did not think it serious." tirely on a telephone communication with the line's agent in Montreal and on reports received by the Associated Press and the newspapers.

Franklin said he lost no time after teceiving telephonic reports from Mon-treal in informing Liverpool of the Senator Smith suggested Franklin had received the information from Montreal at 2:30 and did not send a

Montreal at 2:30 and did not send a disputch until 6:15. "I had to wait until I get to the office before I cabled," said Franklin. "It was a matter of expediency." Senator Smith inquired of Franklin what authority his company had over wireless operators on their ships. "I presume if any one was objection-able he could he removed." "Do you approve of the custom that has been revealed by Binns, Cottam and Bride receiving pecuniary reward for information of disasters?" "I think it is rather unfortunate." Senator Smith questioned the witness as to the rules governing the duties

P. A. S. Franklin, vice-president of the White Star line, who was the first witness this morning, denied that he had enjoined secrecy with reference to

had enfolmed secrecy with reference to the news of the disaster. Senator Smith had read into the rec-ord a description of the disaster pub-lished in the Anaconds, Mont, Standard, April 15. He did so, he said, to bring out the fact that outside persons seemed to have had more information than the officials of the White Star
