In speaking of this project, Mr. Thompson said: "With the rights acquired from the Mexican government I have organized the Mexican-Pacific Company, which is capitalized for \$30,000,000 and the stock of which has largely been taken up by capitalized for \$30,000,000 and inc stock of which has largely been taken up by English capital. GROWS HAIR ON BALD HEADS

Bald-beaded People May Get a New In these days when youth is the moving factor in business, when a man makes his mark at thirty-five and is ess houses pension the man we "middle aged" rather than allow his lagging influence to intrude upon the commercial rush, a baid head is almost fatal to any man's hopes. The

following must therefore prove inter-esting to people who are losing their hair or who are bald. Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the develop-

ment of new germs.

Pilocarpine is a well-known agent for restoring the hair to its natural olor, where the loss of color has due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects a most effective remedy for hair and scalp troubles.

The famous Rexail "92" Hair Tonic is chiefly composed of Resorcin, Beta Naphthel and Pilocarpine. It helps to make the scalp healthy, to nourish the hair, to stimulate the follicles.
