MYSTERY YET VEILS SITES FOR DOCKS

Public Commission Divulges Fact Only That Each Side of Harbor Is Considered.

ACQUISITION IS STARTED DUQUESNE LIBEL IS LIFTED

Condemnation Suits Will Be Put Underway by City Attorney Soon. Full Programme for Adequate Wharfage Means Bonds.

Yet another meeting of the Commision of Public Docks has been held without the public being any the wiser as to where the much-talked-of sites are located. At a special session held recterday Engineer Hegardt was in-structed to prepare abstracts of "Sites I and 2," to ascertain the owners there-of and, on finishing the work, to notify the chairman, Commissioner Mulkey, and a meeting will be called to consider

"Site No. 1" is located on the west side of the harbor. "Site No. 2" is situated on the east side of the harbor. That much information was divulged yesterday. Also the docks to be creed there, with the new fireboat stations of the present ed there, with the new irreboat sta-tion on the East Side at the present upper ferry landing, coal bunkers and the recreation pier, either at the foot of Stark or Washington streets, will require all funds that can be placed at the disposal of the Commission through the sale of bonds authorized.

Two Receiving Docks Assured,

Two Receiving Docks Assured.

That means there will be two docks built for the reception and distribution of merchandise and such cargo as can be handled over a municipal wharf, and later bond issues will have to be provided if the city intends providing more than one dock on each side of the harbor for general use. Commissioner Mulkey said yesterday that as soon as the abstracts had been prepared of the sites a tender would be made the owners as required and that it was the aim to push all work as rapidly as con-

ers as required and that it was the aim to push all work as rapidly as conditions would permit.

In connection with the matter of securing property he said that he had conferred with City Attorney Grant as to necessity of a special deputy City Attorney to devote his time to the Commission of Public Docks, and that Mr. Grant had told him there was no need for another deputy to handle condemnation suits, as his office could take care of such details without being burdened and that if the courts would expedite the trial of such cases there would be no lengthy delay in acquiring title.

Headquarters Are Promised.

Chairman Mulkey reported that in ne with authority delegated to him line with authority delegated to him at a previous meeting he had met with Mayor Rushlight and gone over the needs of the Commission as regards han quarters and Mayor Rushlight said he would endeavor to secure space for the office force at the City Hall and that the Commission could meet in one of the committee-rooms until larger quarters are vacated by county offiquarters are vacated by county offi-cials temporarily housed there. Mayor Rushlight was extended the courtesy of inspecting records of the Commission at any time and will be furnished with a complete report soon. The Commission arranged yesterday

to have an accountant open a set of books and the same system is to be fol-lowed as in handling books of the city. n as that is done a secretary probably will be appointed.

NAVY ENLISTMENTS SHOWN

Northwest Men Taken On in Various Branches of Service.

For the month ending yesterday Lieu-For the month ending yesterday Die-tenant Toax, in charge of the Portland Navy recruiting station, reports that enlistments were made as follows: M. F. Conrad, Silverton, Or.; W. T. New-ton, Bolse, Idaho; E. E. Martin, Joseph, or. Boise, Idaho; E. E. Martin, Joseph. Or., E. A. Wynn, Stevenson, Wash., and W. R. Tower, of La Grande, Or., as apprentice seamen and sent to the San Francisco Naval Training Station. F. R. Bobinson, of Portland, and O. F. Reeves, of Ione, Wash., were collisted as hospital apprentices and sent to Navy Hospital at Bremerton. D. D. Descietted of Portland, enlisted as

Purrington, of Portland, enlisted as landsman for electrician and was sent to the electrical class at Mare Island. W. J. Carroll, Z. Woodson and J. Ed-wards, of Portland, and W. E. Dent, of onnell. Wash., enlisted as coal passers and were sent to the receiving ship at Mare Island to be transferred to the Pacific fleet. E. B. Manley, of McMinnrill. Or, enlisted as a machinist's mate, first class. C. G. Brock, of Ta-coms, Wash, enlisted as seaman, and S. Groom, of Portland, re-enlisted as

JETTY ROCK DELIVERY LARGE

Hercules Tows Three Barges Each Day to Transfer Point.

Captain Sass, of the steamer Hercu-les, which operates from Fisher's Land, ing to Oak Point, towing barges of rock for the jetty work at the mouth of the Columbia, and whose day of rest is Monday, because of the weekly "lay over," says more than 3000 tons of rock is diumped along the jetty daily. The Hercules tows three barges carrying 2000 tons each day and in addition the teamer Kern delivers two barges three times a week at Fort Stevens, each holding 900 tons of rock.

The tug Samson operates from the transfer point, which is usually Cak Point and sometimes Eureka, to Fort Stevens, towing laden barges to Fort Stevens and returning with those discharged. Because suitable rock has not been found on the lower river it is be-lieved that when the construction of the north jetty is started material will have to be drawn from the same source and the system of river towing will be continued for several years longer, as there will be rock delivered for the south jetty most of next season.

BOATS FOR ALL ORDERED

Cubical Capacity System on Boatage Discarded on Ocean Vessels.

Before the liner Carpathia was in sight of New York with her load of refugees from the ill-fated Titanic, Portland mariners were speculating on whether it would be three weeks or a menth before new Government regulations concerning safeguards for pas-sengers would be received and yester-day the first amended rule was re-A meeting of the executive hassett.

inspectors, of the steamboat inspection service, was held at Washington, D. C., April 26 to make changes and George April 26 to make changes and George Uhler supervising inspector general, has sent out circulars as follows:

"Section 12, rule III, providing for cubical capacity of life-boats on passenger vessels navigating oceans, except vessels navigating oceans, except vessels of 150 gross tons and under, according to gross tonnage of vessels, was struck out and the following rule substituted therefore:

"Each and every steamer navigating on oceans must be provided with sufficient lifeboat capacity to accommodate every person aboard, including passengers and crew, except infants in

arms.
"Section 12—Cubical capacity of boats required on passenger vessels of 156 gross tons and under, navigating lakes, bays, sounds and rivers."

Ship Will Resume Work Today With Truckage Charge Unsettled.

On filing of a bond in the sum of \$5000 the French ship Duquesne was released yesterday from a libel instituted by Baifour, Guthrie & Company to collect \$70.92, sepresenting truckage charges in connection with loading 591 tons of wheat aboard the vessel at Oceanic dock. The ship is to resume loading today and it is said she will finish tomorrow.

Like others, the skipper of the Duquesne refused to pay the rate of 30

queene refused to pay the rate of 20 cents I ton for loading wheat, alleging that 18 cents was the proper figure. The exporters insisted on the additional 12 cents being paid to offset the truck-age charges and the filing of a libel caused the loading to be stopped. In similar cases the vessels have been permitted to load and the work was paid for at the rate of 18 cents a ton, the stevedore suing to collect the bal-ance and with the filing of a bond the vessels were released and the cases set for trial in the Federal Court.

Jetty Being Extended

WESTPORT, Or., May 6,—(Special.)— The north jetty, running west from Damon's Point at the mouth of Grays Harbor, is being extended at the rate Harbor, is being extended at the rate of 50 carloads of Tenino sandstone per day. It is expected the work will be completed by the close of the season. The beneficial results already attained in deepening the channel across the Westport bar encourage the Government engineers in the hope that Congress, upon the completion of the work on the north side will authorize the raising and extension of the south side jetty at Westport. This would confine the outgoing flood to a narrow channel for a good distance seaward and insure a substantial deepening of the bar, which, even at present, is accommodating with safety all shipping that has occasion to put into Grays Harbor,

Chapman Out of Sympathy With White Ribboners.

MERCHANTS BLED, HE SAYS

Christian Temperane Union Convention Is Drain on Business of City--Gipsy Smith Revival Disappoints Pastors.

"I am not at all in sympathy with the objects of the Women's Christian Temperance Union." verbal bomb which C. C. Chapman, manager of the publicity department of the Commercial Club, threw among the ministers at the Portland General Ministerial Association meeting in the Y. M. C. A. auditorium yesterday. Mr. Chapman was asked by Mrs. Ada Wallace Unruh, president of the Women's Christian Temperance Union, to speak on behalf of the National convention, which is to be held in Portland, Oc-tober 19 to 26.

which is to be held in Portland, October 13 to 26.

"The fact that this is to be a Women's Christian Temperance Union convention, and that several other conventions are coming," continued Mr. Chapman, "has caused a sort of spathy among the business men. They feel they have been 'bled' for as much as they can afford. But if Portland needs disinfecting and perfuming from your point of view, it is up to you to get in and do what you can to help out the Women's Christian Temperance Union convention. Personally I will not worry about it, for I could get along without a drink for the rest of my life. We have the best water on earth, and I could go on a water spree any time.

"While I am out of sympathy with the objects of the Women's Christian Temperance Union, I am in sympathy with the feeling that Portland should rise to the occasion and fittingly receive the organization at its great National convention, so the delegates will carry abroad a pleasant word about Portland's hospitality. I want to see the professional men and property owners arise to this occasion in a way that will do Portland credit. We had no trouble in raising \$83,42.23 for the Elks' convention, but we are more or less up against a condition of apathy

the Elks' convention, but we are more or less up against a condition of apathy now because this is a Women's Christian Temperance Union convention. I believe Portland will reap much benefit from the Elks' convention. The proposition of the p tian Temperance Union convention.

believe Portiand will reap much benefit
from the Elks' convention. The property owners haven't been reached in
the canvass for subscriptions as have
the merchants and bankers. They
should be reached. The increment which
comes to Portland goes ultimately to
the pockets of the men who own the
land. We want about \$3000. The women of the Women's Christian Temperance Union of the city intend to
spend about that much or more from
their own pockets."

Mrs. Unruh spoke briefly, urging all
the ministers to speak a word in their
pulpits in favor of the Women's Christian Temperance Union.

A resolution was passed urging the

A resolution was passed urging the Board of Education and City School Superintendent to have May 17 ob-served as Feace day in the public

Bible in Schools Favored.

W. B. Hinson, speaking on be half of the committee appointed to create sentiment in favor of Bible reading in the public schools, said the sentiment in Portland is overwhelming-ly in favor of this, and that portlons of the Bible will be read in Portland public schools in time without doubt. Dr. Hinson delivered an address on "The Spiritual Equipment of the Preacher." He deplored that while the machinery of young people's societies has increased they have not grown in spiritual force. Alluding to the Gipsy Smith meetings he said:

Smith meetings, he said:
"We had a great object lesson in
Portland a few months ago. I don't
believe I ever saw such elaborate prepbelieve I ever saw such elaborate preparation for evangelistic effort as I saw then. Personally I had a conviction that the windows of heaven would be opened, and that the outpouring of the divine blessing was to be received by this city. But such was not the

case. "We had the machinery. The wheels all turned, but somehow the power didn't crystallize into results in the lives of the Christian people or in the lives of those who were not Christian. I learned a great lesson from that. How would it do for us, as preachers. How would it do tor us, as preachers, to wait upon the Lord? Strenuosity is our characteristic. We know how to labor. But if we would learn the lesson of waiting there would be a revelation in our experience. It takes courage to tell the truth in the pulpit when, if we do, we know there is some is or woman in the audience who ill say things." Albert Ehrgott urged the co-opera-

tion of the ministers in behalf of the Rose Musical Festival, to be held Fri-Saturday and Sunday before the

LETTERS CONTAINING CHECKS GO TO WRONG ALBERT.

Arrest and Conviction Follow Refusal of Striking Machinist to Make Restitution.

For accepting and keeping registered letters and checks coming through the mail addressed in his name, though not intended for him. George Albert, a striking machinist, was sentenced to 30 days' imprisonment in Municipal Court yeaterday, on the complaint of another George Albert, who is out \$45 on account of the mistake. Albert No. 1 refused to correct the error, but stubbornly held to the view that people had no business sending him money if they didn't expect him to keep it. George Albert, complainant, an employe of Pisher, Thorsen & Co., is a stockholder in a lumber company in British Columbia and when the dividends, to which he is entitled, did not For accepting and keeping registered British Columbia and when the dividends, to which he is entitled, did not arrive he started investigation.

George Albert, defendant, out of a job and with a wife and six children to support, received notification from the Postoffice that there was a registered letter for him. It contained a check for \$30, which Albert cashed. That was in February. In March another check arrived, like the first, except that it called for \$15. Albert again negotiated the paper. Then the leak was discovered and restitution demanded. The striker refused to pay up and arrest followed. and arrest followed. In court yesterday the defendant ap-

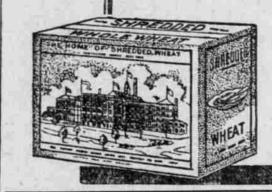

peared to think himself much abused. His wife does not share this view. A machine has been invented by which the magnetic deflection of a compass pro-duced by the metallic parts of a ship may be accurately measured. This is equivalent to removing the long-standing difficulty.

Denio Fire Alarms Will Not Fill Portland's Purse.

MAGUIRE ASKS 3 PER CENT

Councilman Calls Installation System "Rank Attempt" to Get City's Facilities Without Proper Remuneration.

its gross earnings and "a reasonable for the use of the City Hall, yesterday declared before the industry committee of the Council that he "never saw such a rank attempt to get the city's facilities for nothing." He lost his fight, however, but will put in a

minority report.

The majority members of the committee could not see that it was worth much to the parties who are financing the fire alarm project to get an exclusive right to use the lines of the Home Telephone & Telegraph Company and to charge 50 cents per month for each telephone using the alarm service. Councilmen Burgard and Wallace said they felt that an automatic fire alarm device, placed in thousands of homes, would give the city much better fire protection and that it would be a dis-tinct advantage to have such service. W. A. Robb. Portland manager of the Western Union, spoke in opposition to the proposition, saying that his com-pany is installing first-class service,

the proposition, saying that his company is installing first-class service, and while willing to compete with high-grade concerns, is "not able to compete with cheap business." He said that, from reports he had received, the Denio fire alarm had not been fully tested finywhere and that in Rochester, N. Y., it has proved unsatisfactory.

L. A. McNary, counsel for the Denio Company, said he believed if any points in the Denio system are bad they should be exposed, but he did not think "any selfish features should be considered."

Mr. McNary said that the promoters of the Denio Company, who are well-known bankers of San Francisco, have said positively they cannot afford to pay any ratio of per centum on their gross earnings, as they declare they will make nothing on their investment for a long time. They feel, however, that their system will be of great benefit to Portland and are willing to install it, provided the Council will give the manufacture of the state.

This arrangement was just complete dyesterday between Dr. Calvin S. White. Secretary of the State Board of Health, and William L. Finley, State Game Warden, who has issued permptory orders to game wardens to enforce to the letter the law governing the pollution of streams.

Warden Finley has 250 deputy wardens under him. These, together with the alth force.

Last Summer Dr. White made arrangements by which all state and Government forest rangers were required to enforce the law. Their work resulted in a decrease of typhold fever. Sections 2237 and 2238 of Lord's Laws forbid "the depositing of any dead animal carcass, or part thereof, or excrement, putrid, nauseous, noisome, decaying or offensive substance into, or in any manner which befouls, polstall it, provided the Council will give them the permit asked. A provision has been inserted making 50 cents a month the maximum rate that can be

charged to any individual.

Councilman Maguire tomorrow will make a minority report to the Council, insisting that the Denio Company be compelled to pay 2 per cent of its gross earnings direct to the city, if granted the permit. Unless this provision cartes the city will receive virtually ries, the city will receive virtuall nothing for the valuable rights given

COLLEGE TO LAY STONE

REED PLANS CEREMONIES ON AFTERNOON OF MAY 11.

Copper Box Containing Many Docu ments to Be Buried Under Masonry of Institution.

President Foster, of Reed College, for the ceremony of laying the corneratone of the coilege, at the Eastmoreland site Saturday afternoon, May 11.

The ceremonies will begin at 4 o'clock, and will be participated in by the faculty and students of the college and by members of the Masonic order, who will have charge of the cornerstone laying. Rev. Thomas Lamb Eliot, chair-man of the board of trustees, will pre-side at the ceremonies, and Rev. John

Boyd, paster of the First Presbyterian

Arrangements have been made

After the cornerstone has been laid by the grand master of the Masons, the student body of the college will sing the commencement hymn, "Ein Fest the commencement hymn, "Ein Fest Burg," composed by Martin Luther. This hymn has an historical connection with American colleges.

The copper box, which will be depos-

The copper box, which will be depos-ited in the cornerstone, will contain all of the publications of the college in its history thus far, photographs of the college campus, the buildings under way and the building at Eleventh and Jefferson streets, that is housing the first classes, and of the faculty and the students. It will also contain copies of the Portland newspapers of the date of the Portland newspapers of the date of May 11.

An exact and detailed account of one An exact and detailed account of one day in the life of each of the students of the present college, as students of Reed College, written by the students themselves, also will be placed in the copper box. In this way a picture of college life as it was today will be drawn for generations a century or more hence.

The ceremonies will be public, and

The ceremonies will be public, and Demanding that the Denie Fire Alarm
Company pay to the city 3 per cent of the gross earnings and "a reasonable desirous of attending the exercises distributed by the city of rectly to the college site.

STREAMS IS CRY

HEALTH AUTHORITIES WILL TRY TO STOP POLLUTION.

Deputy Game and Fire Wardens to Number of 350 Ordered to Enforce State Law

The pollution of streams in the mountains and forests throughout the state, which yearly has been prov-ing a greater menace to campers and others who pass vacations in the open, will be watched this season by 350 men

dead animal carcass, or part thereof, or excrement, putrid, nauseous, noisome, decaying or offensive substance into, or in any manner which befouls, pollutes or impairs the quality of any stream, well or pond of water which is being or may be used for domestic appropriate.

The State Board of Health is now preparing several thousand cloth pla-cards, which will be distributed throughout the state, warning campers and others of the law.

SAND ON STREETS BIG AID

Boon to Horses and Autos Alike and Helps Street Cleaners.

Since the sand-sprinkling machine was put in operation on the streets of Portland by the Oregon Humane So-ciety many letters have been received by the officials indorsing this means of saving horses from slipping on the steep grades. Not only is the spread-ing of sand an advantage to horses, but also prevents automobiles from skid-ding. Officials of the street-cleaning ding. Officials of the street-cleaning department have also discovered that the sand acts as a scourer and removes all grease and oil from the pavement. The latest letter commanding the use of sand on the streets was received by the Humane Society yesterday from the street was received by the Humane Society yesterday from the street was received by the Humane Society yesterday from the street was received by the Humane Society yesterday from the street was received. Samuel Hill. good roads advocate. His letter follows:

letter follows:

It gives me pleasure to unqualifiedly indorse the sand sprinkler now in use on the
streets of Portland. Without having seen
that, I had planned to build one, and just
as my plans were completed I saw the one
now in use on the streets of Portland. I
have ordered one to use on my roads at
Maryhill and intend to photograph the same
and use it for a lantern slide picture.

You doubtless are aware of the fact that
in some parts of England \$2000 per mile a

year is spent in spreading sand with shovels on roads and raking the same. Even on the wood block pavement in London sand is placed every morning; especially is this true in the business pair of London. I think with some slight modifications there is no reason why your method should not be universally adopted. You are also doubtless aware that on the streets and boulevards of Paris the horses are not allowed to wear calks and consequently the life of the horse is somewhat shortened. It is always somewhat starling to see a horse in Paris skaring. A fact (not known nowadays, because, unfortunately, the number of men and women who know how to keep house diminishes) is that sand scours. As sand is put on the asphalt street and is there covered with oil, the sandascours the streets and prevents slipping of pedestrians.

The Dalles High Wins Debate.

THE DALLES, Or., May 6 .- (Special.) Supporting the affirmative of the question, "Resolved, That Oregon should adopt the National Cabinet system in the executive department," The Dalles

eated Princville High, champions of the Eastern Oregon district, here Saturday night. BLOOD HUMORS

preserving its smooth, even texture, softening and cleansing it, and regulatpreserving its smooth, even texture, softening and dealing its and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S. S. S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acrid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write. THE SWIFT SPECIFIC CQ. ATLANTA, GA.

HEADACHY, BILIOUS, CONSTIPATED, TONGUE COATED? CASCARETS SURE

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets. Don't put in another day of distress. Let Cascarets cleanse and regulate

your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then you will feel great. A Cascaret tonight will straighten you out by morning - a 10-cent box

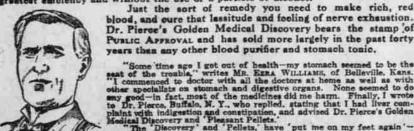

means a clear head and cheerfulness for months. Don't forget the children.

NATURE'S ESSENCE. ... Extracted From Forest Plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Os straight to asture for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone, Oregon grape root, queen's root, bloodroot and golden seal, make a scientific, nea-alcoholic extract of them with just the right proportions and you have

Doctor Pierce's Golden Medical Discovery. It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alterative of the greatest efficiency and without the use of a particle of alcohol.

Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years then any other blood purifier and stomach tonic "Some time ago I get out of health—my stomach seemed to be the seat of the trouble," writes MR. EERA WILLIAMS, of Belleville. Kans. "I commenced to doctor with all the doctors at home as well as with other specialities on stomach and digestive organs. None seemed to do say good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, M. Y., who replied, stating that I had liver complaint with indigestion and constitution, and advised Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets."

The Discovery and 'Pellets, have 'put me on my feet again'—seemed to be just what I needed. I could not have recovered without them."

Dr. Pierce's Pleasent Pellets are for liver ills.
