Former President Claims 206 Now: Taft 125 Delegates in Washington.

355 ARE REQUIRED TO WIN

Race in Second District Is Close, With Executive Leading by Small Margin; Contests Hardly Sufficient for Nation's Chief.

SPOKANE, Wash, May 19.—(Special.) With only four countles in the state ret to select delegates to the Republican state convention and with primaries having already been held in those four counties indicating the probable result, there seems little doubt but that the Roosevelt forces will control a good majority of the uncontested delegates in the state convention, which meets at Aberdeen next Wednesday.

Of the delegates actually selected the result for the state follows: Roosevelt 206, Taft 125, La Follette 5, doubtful 198.

8. doubtful 198.
All but eight of the doubtful delegates are contested. The eight are from Douglas County, which probably stand a majority for Taft.

Close Contest in Skagit.

The four counties that have not selected delegates are Lewis, Pierce, Skagit and Snohomish, Pierce and Snohomish are practically assured to Roosevelt. Lewis will in all probability go to Taft, while in Skagit the contest is so close that no safe forecast can be made. Including these counties in the returns on the basis given the result is:

counties in the returns on the basis given the result is:
Roosevelt 200, Taft 144, La Pollette 8, doubtful 217.
To control the convention requires 135 delegates and with the Roosevelt forces having the control of the uncontested delegates they have a good chance of seating their delegations in the contested cases, though this advantage will be somewhat offset by the fact that B. W. Coiner, state chairman, who is a Taft man, will preside over the convention at the critical period.

Roosevelt Strong in Third.

Taken by districts, the Third is the and there is no shadow of a doubt but that Roosevelt has this district and will get these two National delegates. If the Taft men get all the contests in the Third district they would still be behind.

In the Second district the race is close, with Taft men apparently in control. It shows Roosevelt 83, Taft 100 doubtful &

in the First district practically everything is in the doubtful column, most of the delegations having contests, but as the contests are decided by the convention as a whole the Roosevelt men seem to have the best of it.
The figures are: Roosevelt 45, Taft 6, contested and doubtful 182.

U'REN WOULD CURE EVILS

Amendment of People's Power League Declared to Be Remedy.

Admitting that the Oregon system vas not without defects, W. S. U'Ren, addressing an audience of Socialists at their hall, 228 Second street, Thursday their half, 128 Second street, Insulation in the proposed by the People's Power League and suggesting a general revision of the state constitution, would correct the evils complained of.

As evils of the present system, Mr. URen mentioned the method by which members of the Legislature and other state officials are elected, the blanket ballot and the absence of fixed responsibility in the executive and administra-tive departments of the state govern-

ment.

He proposed to improve the method of electing public servants, especially members of the Legislative Assembly, by introducing the proxy plan of proportional representation.

The preferential system of voting was recommended as a remedy for the blanket ballet and the substitution of a Cabinet plan of administering the affairs of the state was indersed for overcoming the objections to the present plan. All of these innovations are included in the amendment proposed by the People's Power League and to which Mr. URen last night directed his remarks. his remarks.

which Mr. U'Ren last night directed his remarks.

There was not a man in Oregon who in the recent primary election voted intelligently when he undertook to mark his ballot," said Mr. U'Ren, discussing the blanket-like ballot used hast month. "There were too many candidates and it was impossible for him to know every man and his qualifications. This condition would be relieved entirely by the short ballot, which is provided in the suggested amendment to the constitution."

Mr. U'Ren quoted Governor West to the effect that if the proposed amendment were adopted it would bring about an annual saving to the state of \$500,000. The speaker said Governor West had indorsed the measure even though, should it be adopted, it would

West had indorsed the measure even though, should it be adopted, it would cut off one year of the term for which the present Executive was elected.

Referring to the multiplicity of measures which appeared on the ballot in the last general election and the prospect of a greater number in the election in November, Mr. U'Ren declared this condition was due to the incompetency of the State Legislature. Under the new order of things, as contemplated in the amendment under discussion, Mr. U'Ren made the prediction that the necessity for employing the that the necessity for employing the initiative and referendum would be

"Under the present system," explained Mr. U'Ren, "It is impossible for the Socialists and the Prohibitionists to gain representation in the State Legislature. In other words, each member of the Assembly has power in that body in proportion as he is strong with the people, as it is reflected by the vote he receives."

Members of the Legislative Assembly, explained Mr. U'Ren, are elected for terms of four years, with annual sessions of the lawinghing body. One provision of the amendment is that every measure introduced before the

Portland Men Plan Parewell to Mr. Gray: Reception to Mr. Young. L. W. Hill and Associates Start on Tour of Inspection.

On the Great Northern private car "A 22," attached to the fast North Bank train running between Spokane and Portland, plans for the future conduct of the Hill railroads in the Northwest were worked out Thursday by Louis W. Hill, the retiring president of the W. Hill, the retiring president of the Great Northern; Carl-R. The party arrived in Portland late last night, Mr. Young leaving a few hours later for Seattle. Mr. Gray went immediately to his home and passed the last evening with his family as president of the North Bank Road.

Mr. Hill passed the evening in conference with W. P. Davidson, president of the Oregon & Western Colonization Company, in which he also is heavily interegied and in the development of which he is expected to devote a great portion of his time after retiring from the presidency of the Great Northern on his 40th birthday, May 15.

pass the greater portion of the day in conference with Mr. Hill in Portland, but the subject of their disonasion will be relative to Great Northern business rather than that of the North Bank.

Mr. Hill and Mr. Gray will leave tonight for a week's inspection trip of the Great Northern lines in Washington and probably will return to Portland next Friday. Their itinerary on this trip has not been determined.

"We have been busy all day going over routine affairs," said Mr. Gray upon arrival of the party in Portland last night. "We did not take up quescietalls that must be disposed of first. It was decided, though, that Mr. Young shall succeed me here next Wednesday. He will be here by that time to take up his work and will remain permanently in Portland.

"I expect to be back in Portland late next week and hope to remain a few next week and hope to remain a few days. After that I suppose I'll be in St. Paul most of the time."

Elder Hill May Not Retire.

Elder Hill May Not Retire.

Mr. Hill was in his usual pleasant mood when he arrived in town last night. At the conclusion of the trip he seemed to forget the cares of the rallroad and immediately sought Mr. Davidson at the Multnomah Hotel. The two then attended the Multnomah Club smoker. Mr. Hill said that the contemplated changes do not mean, necessarily, the retirement of his father, James J. Hill, from active connection with the system of railroads that bear his name. Although the younger Mr. Hill has not expressed his intentions for the future, it is almost certain that for the future, it is almost certain that much of his time will be devoted to the development of Central Oregon, in which he takes a deep, personal inter-est. His connection with the Oregon & Western Colonization Company alone would give him ample opportunity to exercise his seeming insatiable desire for work. The company controls 800, 000 acres of land between the Cas-cades and the Idaho line and much of this can be developed into valuable agricultural property. Whether he suc-ceeds his father as chairman of the board of directors of the Great North-ern or whether he relinquishes his title

board of directors of the Great Northern or whether he relinquishes his title of office entirely, it is predicted that he will give much of his time to development work in the territory tributary to the Hill lines.

"I will be able to give just as much attention to Oregon from my office in St. Paul as I could were I to locate right here in Portland," said Mr. Hill. "The work of developing the Northwest will go on. The changes we are making will be of great benefit to all the territory that we serve."

Mr. Hill has not determined whether he will return to Portland with Mr. Gray next week. He will be asked by members of the Commercial Club to come here and be a guest at a banquet that is to be given complimentary to Mr. Gray and Mr. Young. A call has been issued for a farewell banquet to Mr. Gray in honor of the valuable development work that he has accomplished for the city and state in the the life of the Assembly before which it was presented, or four years.

The amendment vests in the Governor the sole power of introducing appropriation bills, making the executive personally responsible for the maximum of appropriation. The amount in any bill may be increased by the Assembly with the Governor's consent only, but may be reduced at the pleasure of the members. In the operation of this plan, Mr. U'Ren argued the practice of log-rolling in the matter of appropriation bills would be terminated.

Mr. Gray's secretary for the last six years and who served with him when he was senior vice-president of the Frisco system before coming to Port-land, will remain here as secretary to Mr. Young. He expects eventually to join Mr. Gray at St. Paul, however.

Northern is vitally interested in this project Mr. Gray will remain in close touch with the situation and will give Mr. Young all the assistance possible in getting the necessary franchises through the Council and in carrying on the construction work. Petitions urging the Council to hasty action in granting the franchises sought by the Hill interests now are being circulated among the people of the East Side and are being filled with signatures rapidly. George H. Himes, secretary of the Oregon Historical Society, was the only speaker at the regular luncheon of the Progressive Business Men's Club, held in the Multnomah Hotel Thursday. Instead of an oral relicali cards were left at each plate to be filled out. In his speech Mr. Himes stated that he had kept a diary since 1858 without missing a day and therefore he was well prepared to speak on Oregon and Portland.

He advocated calling Oregon the Beaver state, saying that Californians had given this state the name of Webfoot 40 years ago. In return Oregonians called the Californians Tar Heads. Mr. Himes told of the early introduction of fruit into the state and of the first timber that was cut. He said that the man who discovered gold in California went from Oregon and that the first
